2. In exercise of the power conferred by sub-section (1) of section 6 of the said Act, the Government of Bengal (Ministry of Local Self-Government) are pleased to establish union board for Mathurapur union hereby declared and to fix nine as the number of members of that union board.

3. In exercise of the power conferred by sub-section (3) of section 6 of the said Act, the Government of Bengal (Ministry of Local Self-Government) are pleased to direct that one-third of the members of the said union board shall be appointed by the District Magistrate on the ground that the electors are inexperienced and that such appointment is necessary for the due representation of minorities.

4. This cancels so much of notification No. 3078L.S.-G., dated the 15th November 1929, as relate to Mathurapur union board.

24-Parganas.—No. 1816M.—7th May 1931.—In exercise of the power conferred by section 223 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and upon the application of the Commissioners of the Kanchrapara Municipality, in the district of the 24-Parganas, made in pursuance of a resolution passed at a meeting specially convened to consider the question, the Government of Bengal (Ministry of Local Self-Government) are pleased to modify the notification No. 2733M., dated the 11th August 1904, published at page 191, Part IB, of the *Calcutta Gazette* of the 17th idem, so as to exclude from the operation of Part IX of that Act the Eastern Bengal Railway holdings in Wards I to IV of the said municipality, the boundaries of which are specified below:

Boundaries of the Eastern Bengal Railway holding within the Kanchrapara Municipality.

Ward No. I.—Commencing at the Halishahar Up Home Signal (Calcutta end) of station proceeding northwards east boundary of railway land runs along the east side of the Eastern Bengal Railway main line to the point where it meets the southern boundary of subordinate colony; it then turns eastwards and (becoming the south boundary) follows the south boundary of the subordinates' colony to the south-east corner of the same, turning northwards it runs along the boundary to the north-east corner of the colony.

The north boundary extends from this point along the north side of Kapileswar Road until the latter is met by Conservancy Road.

From this the west boundary follows the east side of the Conservancy Road along a line drawn in continuation of this road 620 feet off Colonel Gupta's Road in the north at a point about 250 yards west of Halishahar station and then turns towards south-east direction 980 feet in length and meets the said road at a distance of 500 feet from the Halishahar station.

The south boundary runs from this point along the north side of the said road to Halishahar station and then turns southwards along the west side of the Eastern Bengal Railway main line to the Up Home Signal and crosses the line at this point to the starting point on the east side of the line.

Ward No. II.—The east boundary runs from the north-east corner of the subordinates' colony towards the north along the east side of officers' colony and ends at a point 1,180 feet off the pillar on Kulia Road, that is the north-east boundary of the municipality.

The north boundary runs from this point towards west at about 1,000 feet and therefrom it runs in the north-west direction until it meets the west bank of the Bager Khal and therefrom it turns in the south-west direction about 200 feet, and again it turns towards west along the north side of Ghat Road about 440 feet in length, and therefrom it runs in

the south-west direction and meets the bridge on the Bager Khal. The west boundary runs from this point towards south along the east side of the main line until it meets the Kapileswar Road. The south boundary runs from this point towards the east along the north side of the Kapileswar Road until it meets the north-east corner of the subordinates' colony.

Ward No. III.—A line drawn from a point to the east of the main line about 620 feet from the bridge on the Bager Khal towards west about 130 feet where it meets the Balurghat Road and then turns towards south along the east side of the Balurghat Road which meets the Station Road and runs in the same direction from the Station Road along the west side of road A about 240 feet, therefrom it runs towards west about 190 feet and then turns towards south about 115 feet and again turns eastward until it meets the road A, and then runs straight to the south to a point on Kapileswar Road 270 feet off the south-west corner of the railway land in ward No. 2, and then runs towards east along the north side of Kapileswar Road to meet the south-west corner of ward No. 2. It then runs towards north along the east side of the main line to meet the point 620 feet off the bridge on the Bager Khal from where it started.

A straight line then runs towards west from the junction of Dhobipukur Road and Conservancy Road along the north side of Dhobipukur Road up to a point 2,855 feet, and then turns towards north to a point about 245 feet and from this point straight line is drawn to meet the above junction. There are three small plots in Ward No. 3.

Bungalow No. 11.—This is a rectangular plot of land 250 feet by 202 feet at the junction of the Station Road and Balurghat Road.

Bungalow.—No. 10.—This is also a rectangular plot of land 318 feet by 284 feet on the north side of Station Road at a distance of 494 feet from the east end of the junction of Station Road and Balurghat Road.

Septic tank.—This is a rectangular plot of land 311 feet by 220 feet on the north side of Dhobipukur Road and 205 feet to the west from the junction of Dhobipukur Road and Workshop Road.

Ward No. IV.—The north boundary runs from the junction of Conservancy Road and Dhobipukur Road towards west and ends at a point on Dhobipukur Road 2,855 feet from the said junction. The west boundary runs from this point, that is where the north boundary ends towards south until it meets the municipal pillar No. 3 and then it turns in a south-east direction (2,300 feet in length), and therefrom it meets the south-west corner of railway land in Ward No. 1 (1,130 feet).

The east boundary follows the east side of Conservancy Road along a line drawn in continuation of this road 620 feet off Colonel Gupta's Road to the north at a point about 250 yards west of Halishahar station.

2. This cancels notifications No. 435M., dated the 2nd February 1929, and No. 4490M., dated the 5th December 1930.

4. Every private candidate must also forward with his application his transfer certificate from the school (if any) in which he last read, or the Registrar's receipt (if he appeared at any previous Matriculation Examination), or a certificate from a respectable person with personal knowledge of the facts of the case that he has never been to any school.

5. No one will be admitted to the Test Examination unless he has produced satisfactory evidence that he will have completed the age of fifteen years on the 1st day of March 1932. For the purpose of this rule the age as recorded in a transfer certificate from a recognized school or in the Registrar's receipt (in the case of those who appeared at any previous Matriculation Examination) will be accepted. Those who have never read in any school must produce either their horoscope or an affidavit sworn by their parents or guardians before a competent Magistrate declaring their age.

6. Every private candidate shall state in his application his name, father's name, date of birth, residence, postal address, thana and district, and the following particulars:—

(1) Whether he appeared at the Matriculation Examination in any previous year.

(2) Language in which (besides English) he is to be examined.

(3) Vernacular language for composition.

(4) Vernacular language from which translation is to be made into English in the first English paper.

(5) Which of the following subjects taken up:—

(a) Additional Mathematics.

(b) Additional paper in classical language.

(c) History.

(d) Geography.

(e) Elementary Mechanics.

7. Every private candidate must pay a fee of Rs. 6 which should be remitted to the Inspector of Schools, Dacca Division, along with the application for admission to the Test Examination, on or before the prescribed date, after which a fine of Rs. 2 will have to be paid for each week's delay. The candidate will be given a receipt for fees. If the candidate be considered eligible for admission to the Test Examination a letter of permission will be issued. This should be shown to the Headmaster on the first day of examination. In no circumstances will this fee be refunded.

8. On the first date of examination, he must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, otherwise he will not be admitted to the Test Examination.

9. The Headmasters of the schools named above should send to this office, for orders, a statement, *in duplicate*, showing the marks gained by each private candidate in each subject at the Test Examination, *within a fortnight from the date of the said examination*. The application forms of candidates who are declared eligible should be forwarded to this office for countersignature, duly filled in and signed.

10. Private candidates should arrange to remit their examination fees, together with the countersigned application forms, direct to the Controller of Examinations, Calcutta University, so as to reach him on or before the date fixed by the University.

11. The Matriculation Examination of 1932 will be held on the 1st March and the following days, or any other subsequent date declared by the University.

Intermediate and B.A. Examination, 1932.

Bonâ fide teachers of recognized English schools and inspecting officers of the Education Department, who have been employed as such continuously for at least three academical years (32 calendar months) immediately preceding the dates of examinations, will be admitted to the I.A. and B.A. Examinations of the Calcutta University as non-collegiate students, provided they have obtained special permission of the Senate.

Demonstrators, Laboratory Assistants and Librarians of affiliated Colleges are regarded as teachers.

2. Candidates who have obtained special permission of the Senate must submit their applications to this office for countersignature not later than the 3rd January 1932.

3. Candidates should carefully read the printed form of application and supply all the necessary information.

4. The following documents in original must accompany the application:—

(a) The letter from the Senate of the Calcutta University permitting the candidate to appear at the ensuing examination.

(b) The University certificate to show that the candidate has passed the next preceding examination.

(c) Registrar's receipt in the case of those who were admitted to the same examination in a previous year.

(d) Registrar's receipt to show that the candidate's name has been registered as a "University student." If his name has not already been registered, he should produce a Post Office receipt showing that the required fee of Rs. 2 has been remitted to the University to get his name registered.

(e) A certificate from the Secretary in the case of teachers, and from the immediate superiors in the case of others, showing (i) that he has been serving as such continuously for three academical years (32 calendar months). (ii) that he has been diligently and regularly prosecuting his studies, and (iii) that his character and conduct have been good.

5. The dates of I.A. and B.A. Examinations, 1932, will be notified in the *Calcutta Gazette* in due course.

6. Applications with the countersignature of the undersigned, together with the fees for the above examinations, must reach the office of the Controller of Examinations, Calcutta University, on or before the dates to be fixed by the University and must be sent to that office by the candidate himself direct.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 6th May 1931.

Summary.—During the week light rainfall was almost general in east and north Bengal, while elsewhere there was practically no rain. Agricultural operations are suffering for want of rain in west Bengal. Condition and prospects of standing crops are reported to be generally fair. Distress continues to prevail in parts of Bogra and Pabna where the numbers of persons attending the test relief works were 205 and 3,061, respectively. The average price of common rice for the province has remained stationary as compared with that of the previous week.

NOTIFICATION.

No. 282T.Edn.—7th May 1931.—The report on the Bruce Institution for the year 1930 is published for general information.

A. J. DASH,
Secy. to the Govt. of Bengal.

Report on the Bruce Institution for the year 1930.

Calcutta, the 10th March 1931.

1. **Control.**—(1) During the year under review the following were appointed to be Governors:—

(*a*) Mrs. E. A. Hartley, *vice* Mrs. Barton, who went on leave for six months and resigned. The appointment was a temporary one and, on Mrs. Barton's return from leave, she was re-appointed Governor after the close of the year.

(*b*) The Revd. D. H. Manley, *vice* the Revd. E. S. Johnson, who resigned on proceeding on leave to America.

(*c*) Mr. Maurice Remfry, who went on leave for six months, was reappointed Governor on his return.

Mr. H. E. Stapleton, Director of Public Instruction, Bengal, acted as Honorary Secretary of the Bruce Institution throughout the year.

(2) The following were the Governors at the end of the year:—

The Hon'ble the Chief Justice of Bengal (*ex-officio*).

The Most Revd. the Lord Bishop of Calcutta (*ex-officio*).

The Surgeon-General with the Government of Bengal (*ex-officio*).

The Mayor of Calcutta (*ex-officio*).

The Director of Public Instruction, Bengal (Honorary Secretary) (*ex-officio*).

The Hon'ble Mr. Justice R. E. Jack, I.C.S.

The Ven'ble John Grimes (Archdeacon of Calcutta).

The Revd. Father F. Keyeux, S. J.

The Revd. D. H. Manley.

Mrs. E. A. Hartley.

Maurice Remfry, Esq.

W. F. Papworth, Esq (Inspector of European Schools, Bengal).

II. **Capital and Income.**—The capital of the institution is Rs. 10,46,200 in 3½ per cent. Stock Certificates of the year 1865, which are held by the Deputy Controller of Currency, while, in addition, there are temporary investments from savings which stood at the end of the year at Rs. 42,100 (as compared with Rs. 39,600 at the end of 1929). The difference is due to Rs. 12,000 being placed on fixed deposit in November 1930—Rs. 3,000 in the Imperial Bank of India for six months, and Rs. 9,000 in the Mercantile Bank of India, Ltd., for three months—as compared with a deposit of only Rs. 9,500 in the previous year. The total interest obtained in 1930 was Rs. 38,014-3-0 (against Rs. 37,930-2-2 in 1929). In addition, there was Rs. 14-10-0 from refund of income tax, making the income in 1930 Rs. 38,028-13-0, as compared with Rs. 38,186-4-8 in 1929, when the total was abnormally increased by various items detailed on page 2 of that year's report.

The amounts received as interest, etc., were kept with the Imperial Bank of India. During the year, the following amounts were transferred to fixed deposit for short periods in order to earn some extra interest:—Rs. 7,000 for three months in May 1930 at 4½ per cent. per annum in the Mercantile Bank of India, Rs. 3,000 for six months in November 1930 at 3½ per cent. per annum in the Imperial Bank of India, and Rs. 9,000 for three months at 3½ per cent. per annum in the Mercantile Bank of India. The year opened with a balance of Rs. 3,828-4-4 *plus* Rs. 9,500 in fixed deposit, and closed with a gross balance of Rs. 15,063-12-8, of which Rs. 12,000 was in fixed deposit, as already stated. There was thus a net increase during the year in the working funds of the Trust of Rs. 1,735-8-4.

The number of Wards on the 31st December for each of the last five years will be seen from the table given below:

1926	1927	1928	1929	1930
104	107	109	105	101

The following table shows the progress of expenditure during the last five years as compared with the income:

	1926	1927	1928	1929	1930
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Opening balance ..	14,643 15 3	14,640 15 10	14,472 6 2	13,583 3 10	13,328 4 4
Income ..	37,929 0 0	37,931 5 0	37,957 13 10	38,186 4 8	38,028 13 0
Total ..	52,572 15 3	52,572 4 10	52,430 4 0	51,769 8 6	51,357 1 4
Expenditure ..	37,931 15 5	38,099 14 8	38,847 0 2	38,141 4 2	36,293 4 8
Closing Balance ..	14,640 15 10	14,472 6 2	13,583 3 10	13,328 4 4 (+300 0 0 Purchase of 5 per cent. Loan.)	15,063 12 8
Total ..	52,572 15 3	52,572 4 10	52,430 4 0	51,769 8 6	51,357 1 4

It will be seen from this summary that, in consequence of various measures taken by the Governors during the last three years, the expenditure is now again well within the income of the Trust. The fiananoial condition of the institution has considerably improved, and it should be possible during the ensuing year to invest Rs. 1,500 or Rs. 2,000 of the working balance.

Ten of the above-mentioned total of 101 wards left at the end of the year (31st December 1930) so that at the time of writing (10th March 1931) there were actually 91 + 11 new wards, *i.e.*, 102 wards, on the rolls, as compared with 111 on the 4th March 1930. This was due to (a) continuing the policy of not appointing more than 10 or 11 new wards in any one year; and (*b*) striking off 8 wards for unsatisfactory work (against 6 in the previous year).

III. **Election to Vacancies, etc.**—The annual election of wards was held on Monday, the 1st December 1930. There were actually 20 vacancies, but it was decided to advertise 10 vacancies only, and 67 applications were received. These were considered by a sub-committee consisting of (1) the Ven'ble Archdeacon John Grimes, (2) the Revd. Father Keyeux, S. J., (3) the Revd. D. H. Manley, (4) Mrs. E. A. Hartley, and (5) Mr. W. F. Papworth (convenor), and, on their recommendation, 11 girls were elected. Of the 11 girls elected (against 10 in the previous year) 3 were placed in the Loreto Convent, Entally, 2 in the Calcutta Girls' School, 2 in the Loreto Convent, Asansol, 3 in the Pratt Memorial School and 1 in the St. Paul's Mission School.

2. As favourable medical and school reports were received regarding the 10 girls elected for the year 1930, their admission as wards was confirmed by the Governors.

3. Of the 20 wards withdrawn during the year under report—

Two left at the age of 17.

Five on the expiry of the extensions granted them.

Eight owing to unsatistactory progress.

Three were withdrawn by their mothers before the age of 17.

One was withdrawn by her father before 17.

One was withdrawn by her mother on account of illness.

4. Of the 18 wards who had been withdrawn during the year 1929, 6 were removed on account of unsatisfactory progress. Of the remaining twelve, one obtained a post as a shorthand typist and one joined the Calcutta Girls' School as a pupil teacher. The Principal reports that the last named girl is giving good service and they are pleased with her. One girl after passing the I. A. Examination in the 1st Division made a good marriage. Another girl is training as an under-matron, and is giving satisfaction. The fifth of our old wards is learning shorthand and typewriting. The sixth has joined the Medical College Hospital to train as a nurse, and the Lady Superintendent reports that she is progressing satisfactorily. Another girl, who was withdrawn from the Trust at the age of 17, has been kept in school by her father who is allowing her to continue her studies in the commercial class at his own expense. Another girl who was withdrawn on account of ill health is now being taught typing; while still another—though she has not yet apparently obtained work—has had her name registered for an appointment in the telegraph department. It is believed that the tenth girl got married after leaving school. The present whereabouts of the remaining two cannot be traced.

5. At the close of the year, the 101 wards on the rolls were distributed as follows:—

Loreto Convent, Entally—	
1st boarding	32
2nd boarding	8
Calcutta Girls School	18
Pratt Memorial School	3
St. Thomas' School, Kidderpore	10
St. Paul's Mission School	6
Old Church Parochial Home	4
Loreto Convent, Asansol	15
St. Mary's Convent, Nani Tal	1
Dow Hill Girls' School	1
Queen's Hill School, Darjeeling	1
Bishop Westcott Girls' School, Ranchi	1
Wynberg School, Mussoorie	1
Total	101

6. The following table gives particulars as to the class and religion of the wards at the close of the year:—

Class.	Roman Catholic.	Church of England.	Non-conformist.	Total.
1. Orphans, or deserted by their parents	19	6	1	26
2. Fatherless or motherless or deserted by their father or mother	29	19	9	57
3. Those who have both parents alive	8	8	2	18
Total	56	33	12	101

IV. **Education and Maintenance.**—The nature of the education generally imparted to the wards continued to be that prescribed for a higher grade school under the Code of Regulations for European Schools in Bengal, but in a few cases the girls read in secondary and primary schools.

2. The Governors are anxious that their wards should become useful citizens when they leave school and have accordingly asked the Visiting Governors to make, in consultation with the school authorities, definite proposals—where this seems desirable—for training wards who have attained, or are about to attain, the age of 14, so that the last three years of their school life may be spent to the best advantage and be a preparation for earning a living.

3. During the year under review one Bruce ward was presented for the Higher Grade Final Examination but failed, while another girl passed the Higher Grade Commercial Course Examination. Better results are to be desired. Two girls secured senior

certificates of first aid to the injured, and two girls received ordinary first aid certificates. One girl also passed the Royal Drawing Society's Examination in division IV.

4. Under the rules a ward is not ordinarily allowed to remain on the Foundation after the age of 17, when an outfit grant of Rs. 100 is generally given to enable her to make a start in life. In cases where wards wish to be trained as teachers and have the support of the school authorities, or when some special training is recommended, or when a ward is preparing for a higher examination such as the Intermediate Arts or Commercial Course Examination, and in the event of the ward being reported on well, some extension of the period of benefit is generally allowed. Four wards were granted extensions during the year under report in order to finish their commercial courses.

5. The average monthly cost for the actual education and maintenance of each ward amounted to Rs. 27-10-0 against Rs. 27-8-3 in the preceding year. If all expenditure in connection with the Trust be included, the figures are Rs. 29-15-1 and Rs. 30-4-4, respectively.

6. The amounts paid under the different heads of expenditure were as noted below:—

1929.

		Rs.	A.	P.
Education and maintenance	..	34,672	8	0
Office establishment ..	..	1,001	8	0

V. **Inspection.**—Mr. W. F. Papworth was appointed Visiting Governor for the first half and Mrs. E. A. Hartley for the second half of the year 1930, to visit the schools in Calcutta having Bruce Wards. Mr. Papworth remarked—"I have found generally that the wards of the Bruce Institution are keeping good health. The children appear to be well-nourished and happy in the different schools. Dealing with poorer children who are taken on this fund at an early age it is quite natural that we should sometimes find ourselves maintaining girls of inferior mental ability. It is some satisfaction however to realise how small the number of such children happens to be."

VI. **Meetings.**—Four meetings were held during the year, and among the Resolutions passed the following may be noted:—

(*a*) To issue a new edition of the Bruce pamphlet (last issued in 1920).

(*b*) That a small Committee consisting of—

(*i*) The Ven'ble Archdeacon Grimes,
(*ii*) The Revd. Father F. Keyeux, S.J.,
(*iii*) Mr. W. F. Papworth,

be appointed to consider:

(1) the possible increase in the monthly fees for the education and maintenance of Bruce wards; and (2) the desirability of raising the withdrawal age of Bruce wards from 17 to 18. Further, that Mrs. Hartley, the Visiting Governor, be asked to make enquiries regarding the desirability of the above two proposals when visiting the different schools and thereafter to report to the Committee.

(*c*) That a Welfare Committee be appointed to look after those Bruce wards who have no parents or guardians and have completed their period under the Trust. (The suggested duties of the Welfare Committee were also approved by the Governors).

(*d*) That a new edition of the Governors' Rules, embodying certain alterations proposed by the Honorary Secretary, be approved and printed for circulation. (This was issued shortly after the close of the year.)

ADDENDA AND CORRIGENDA.

No. 2665F.—26th June 1931.—The following corrections, which have been authorised, are published for general information:—

The Fundamental and Subsidiary Rules, 1st Edition (Reprint), 1929.

Page 377—Appendix No. 25.—Under rule 14 *insert* the following as Note 2 numbering the existing one as Note 1 as introduced by Correction Slip No. 48:—

NOTE 2.—Officials and non-officials appointed to represent the Government of India at an International Conference held at places (outside Asia) where they are residing when nominated as representatives, shall be granted, but only for days of attendance at the Conference in question, subsistence allowance at the rate of £1-1-0 a day in lieu of the usual rate of £1-15-0 a night admissible to representatives at such conferences.

Page 372—App. No. 24.—*For rule 1 substitute the following:*—

"1. (1) These rules may be called the 'Passage (Subordinate) Rules, 1925.' They supersede the rules previously in force regarding the grant of passages to personnel engaged in the United Kingdom for service in India who are provided with second class passages on appointment.

(2) Subject to the provisions of sub-rule (3) of this rule they apply—

(*a*) to any person of non-Asiatic domicile who was or is hereafter engaged outside India on contract for a period of not less than three years and to whom a 2nd class passage to India was or may be granted by Government for the purpose of joining his appointment during that contract and throughout his Government service thereafter;

(*b*) to any person of non-Asiatic domicile who was or is hereafter engaged outside India on contract for a period of less than three years to such extent as may be decided by the appointing Government to be appropriate, provided that they shall apply without qualification to any such person who remains in Government service after completing three years' service;

(*c*) to any person of non-Asiatic domicile engaged in India on contract to whom they may be declared by the appointing Government to apply subject to such modification as may be decided by that Government to be appropriate.

(3) If a person to whom these rules apply becomes entitled to passage benefits under the Superior Civil Services Rules, or accepts in their stead passage benefits under any other analogous rules, he shall thereupon cease to be a person to whom these rules apply.

(4) Female employees shall not be entitled to the benefits admissible to the families of male employees."

And the said rules shall have effect, and may be deemed always to have had effect, as though they had been enacted as so amended.

(Government of India, Finance Department, No. F. 7-XV-R-1/29, dated the 9th April 1931.)

Page 373—App. No. 24.—In rule 9 of the said rules, *delete* the words "notwithstanding that his service may be continued beyond the term of his original agreement."

The amendment shall have effect, and may be deemed always to have had effect, as though they had been enacted as so amended.

(Government of India, Finance Department, No. F-7-XV-R-1/29, dated the 9th April 1931.)

Pages 175-76—S. R. 291.—*Insert* the following under the rule:—

Exception.—The authority sanctioning the transfer may, in special circumstances, reduce the period of joining time admissible under this rule.

NOTIFICATION.

Calcutta, the 13th June 1931.

Nomination of candidates for inclusion in the provincial panel in connection with the recruitment of English teachers in Government High and 1st Grade Training Schools and Madrasahs and Sub-Inspectors of Schools in the scale of Rs. 75-5-150 (efficiency bar)-5-200 in the Subordinate Educational Service will be made by the Panel Committee of the Presidency Division in August 1931. Applications (in duplicate) in the annexed form will be received by the Inspector of Schools, Presidency Division, up to the 31st July 1931.

1. The posts to which recruitment will be made and the qualifications required for them are shown below:—

(a) English teachers in Government High and 1st Grade Training Schools and Madrasahs—B.A. or B.Sc., preferably with Honours of a recognised University with a degree in teaching, or first class M.A. or M.Sc.

(b) Sub-Inspectors of Schools—In addition to the above qualifications teaching experience of a satisfactory nature for not less than two years in recognised secondary schools.

(c) Special Sub-Inspectors of Schools—B.A., preferably with Honours in Arabic or Persian with a degree in teaching, or first class M.A. in Arabic or Persian. Teaching experience of a satisfactory nature of not less than two years in recognised secondary schools.

2. No person shall be appointed as an English teacher or a Sub-Inspector of Schools who is not of good character and in all respects suitable for appointment to Government service.

3. Every candidate shall furnish certificates written not more than one year prior to the date of application from two responsible persons unconnected with his College or University, and not related to him, testifying to his private character.

4. No person shall be eligible for appointment who is not of sound health, good physique, and active habits and free from organic defect or bodily infirmity and in respect of whom the department is not satisfied that he is physically fit and in all respects suitable for appointment to Government service.

5. No person shall be eligible for appointment who has endeavoured to enlist for his candidature the support of persons of influence or of officials of Government. Spontaneous recommendations from persons interested in or otherwise known to the candidate shall be disregarded.

6. No person shall be considered for admission to the panel, by the Panel Committee of the Presidency Division, unless he is a permanent resident or permanently domiciled within the jurisdiction of the Presidency Division including Calcutta.

7. Candidates shall be under the age of 25 years. This condition may be relaxed by the Director of Public Instruction, Bengal, in the case of teachers who have worked satisfactorily for not less than two years in recognised High Schools under private management up to the age of 30 years. No candidate who is age-barred under this rule shall be admitted to the panel, and if previously admitted a candidate shall have his name removed from the panel on his attaining the age of 30 years or on permanent appointment before that age.

8. No candidate shall apply simultaneously to more than one Inspector of Schools. Every candidate should state definitely if he has applied for nomination by any other Divisional Committee.

9. Every candidate should enclose with his application documents in support of his statement regarding (1) qualifications, academic and professional (M.A., B.A., M.Sc., B.Sc., B.T. diplomas), (2) date of birth (Matriculation certificate), (3) home district (certificate from a gazetted officer), (4) character (certificate from a respectable gentleman), (5) subjects studied at the degree examination, both academic and professional (certificate from the Principal of the College in which he studied) and (6) details of teaching experience with dates and names of institutions (certificates from the authorities of the schools). Testimonials, if any, as to the candidate's ability as lecturer, teacher, etc., may also be produced.

10. Every candidate should state if he is a British subject; if not, he should name the State in India to which he belongs.

11. A person can have only one domicile. In case a candidate claims to have more than one place of residence he should clearly state which one is his legal residence. This should be supported by documentary evidence (certificate from a gazetted officer).

12. The Divisional Panel Committee will interview the candidates, if necessary. The date for the purpose will be communicated to them in due course.

K. N. MITRA,

Inspector of Schools, Presidency Division.

NOTIFICATION.

Senate House, the 23rd June 1931.

The Jogendrachandra Ghosh's Research Prize in Comparative Indian Law for the year 1931 will be awarded on an essay on the following subject selected for the prize:—

Proprietary rights of women under the ancient Hindu Law with special reference to the changes introduced by judicial decisions and British India Legislation.

The attention of the intending candidates is expressly called to the following conditions laid down for the prize:—

(*i*) By Comparative Indian Law shall be meant the Hindu Smriti Sastra called "Byabaharkhanda" and a comparison of the standard Sanskrit authorities on the subject with British Indian Law as contained in Parliamentary Statutes, Regulations and Acts of the Indian Legislative Council, and the law as laid down in leading cases. The study, which it shall be the object of the prize to encourage, is the history of the Hindu Smriti Sastra as it existed at and from the time when India came under British Rule and how and to what extent it has been altered under British influence, regard being had not only to the existing Statutes, Regulations and Acts, but also to those which, having been in operation for a time, have now been repealed or become obsolete and regard being also had not only to the existing leading cases, but to cases which were considered leading at one time, but have now been overruled, and how and to what extent such alteration has affected Hindu society.

(*ii*) The essay may deal with the whole of the Indian Comparative Law as before defined or with part or parts thereof, but in no case shall an essay be entitled to competition which in any way attacks the religious belief, usages or institution of His Majesty's subject.

(*iii*) By Adhyapak shall be meant scholars of the Smriti Sastra, students of the Smriti in the Government Sanskrit College in Calcutta, and in the tols of indigenous Brahmanical schools which se d in candidates for the title examinations held in that College, and students in other similar institutions in India.

(*iv*) Every candidate for the prize shall be required to indicate generally in a preface to his thesis, and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portion of the thesis which he claims as original. He shall further be required to state whether his research has been conducted independently, under advice or in co-operation with others, and in what respects his investigations appear to him to tend to the advancement of knowledge.

(*v*) Successful candidates shall be required to publish their essays, and if necessary they shall receive help from the University for the purpose.

(*vi*) The essay or essays shall be written either in English or in Bengali, but if any competitor sends in an essay in vernacular language other than Bengali he shall be bound to furnish English translation thereof.

Every candidate for the prize should send in three copies of his thesis to the undersigned on or before the 21st December 1931.

Nadia.—No. 2513M.—30th June 1931.—In exercise of the power conferred by clause (*a*) of section 59 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Government of Bengal (Ministry of Local Self-Government) are pleased to approve the resolution passed by the Commissioners of the Santipur Municipality in the district of Nadia under section 23 of that Act, electing Babu Sachinath Pramanik, B.A., M.B., to be Chairman of that Municipality.

24-Parganas.—No. 2515M. — 30th June 1931.—The following proposed plan for lighting a portion of the Dum Dum Municipality, in the district of the 24-Parganas, with electricity, which has been submitted by the Commissioners of that Municipality to the Government of Bengal (Ministry of Local Self-Government) for sanction under section 308, read with section 319 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), is published for the information of persons likely to be affected thereby.

2. The proposed plan will be taken into consideration on the 27th August 1931, and any objection or suggestion which may be received by the undersigned through the District Magistrate before that date will be duly considered:—

Plan.

(1) The portion of roads and lanes of the Dum Dum Municipality which it is proposed to light with electricity is given below:—

A. Circle 1.

(*a*) The Mall Road.
(*b*) Jessore Road.

B. Circle 2.

(*a*) Digla Road.
(*b*) Post Office Road.
(*c*) Church Road.
(*d*) Reservoir Road.

C. Circles 3 and 4.

(*a*) South Street.
(*b*) Todd Road.
(*c*) Chamarpara Road.
(*d*) Motia Mohulla Road.
(*e*) Station Road.

(2) One hundred and thirty-three electric lamps will be installed as shown in the accompanying statement. The Commissioners have decided to enter into an agreement with the Calcutta Electric Supply Corporation, Limited, for the installation of these lamps

and for their maintenance at the annual rate of Rs. 25-13-9 for each lamp of 40 watts, or at a total cost of Rs. 3,440 per annum. The Commissioners at a meeting propose to meet the charge to be incurred on account of lighting by levying a lighting rate of 2½ per cent. on the annual value of holdings situated within a zone of 250 feet from the nearest electric light post on the roads defined above. The income to be derived from the lighting tax from the aforesaid area is estimated to be Rs. 5,257 per year, and the total expenditure including charges for collection, etc., will be Rs. 3,752.

NOTIFICATION.

Calcutta, the 13th June 1931.

Nomination of candidates for inclusion in the provincial panel in connection with the recruitment of English teachers in Government High and 1st Grade Training Schools and Madrasahs and Sub-Inspectors of Schools in the scale of Rs. 75-5-150 (efficiency bar)-5-200 in the Subordinate Educational Service will be made by the Panel Committee of the Presidency Division in August 1931. Applications (in duplicate) in the annexed form will be received by the Inspector of Schools, Presidency Division, up to the 31st July 1931.

1. The posts to which recruitment will be made and the qualifications required for them are shown below:—

(a) English teachers in Government High and 1st Grade Training Schools and Madrasahs—B.A. or B.Sc., preferably with Honours of a recognised University with a degree in teaching, or first class M.A. or M.Sc.

(b) Sub-Inspectors of Schools—In addition to the above qualifications teaching experience of a satisfactory nature for not less than two years in recognised secondary schools.

(c) Special Sub-Inspectors of Schools—B.A., preferably with Honours in Arabic or Persian with a degree in teaching, or first class M.A. in Arabic or Persian. Teaching experience of a satisfactory nature of not less than two years in recognised secondary schools.

2. No person shall be appointed as an English teacher or a Sub-Inspector of Schools who is not of good character and in all respects suitable for appointment to Government service.

3. Every candidate shall furnish certificates written not more than one year prior to the date of application from two responsible persons unconnected with his College or University, and not related to him, testifying to his private character.

4. No person shall be eligible for appointment who is not of sound health, good physique, and active habits and free from organic defect or bodily infirmity and in respect of whom the department is not satisfied that he is physically fit and in all respects suitable for appointment to Government service.

5. No person shall be eligible for appointment who has endeavoured to enlist for his candidature the support of persons of influence or of officials of Government. Spontaneous recommendations from persons interested in or otherwise known to the candidate shall be disregarded.

6. No person shall be considered for admission to the panel, by the Panel Committee of the Presidency Division, unless he is a permanent resident or permanently domiciled within the jurisdiction of the Presidency Division including Calcutta.

7. Candidates shall be under the age of 25 years. This condition may be relaxed by the Director of Public Instruction, Bengal, in the case of teachers who have worked satisfactorily for not less than two years in recognised High Schools under private management up to the age of 30 years. No candidate who is age-barred under this rule shall be admitted to the panel, and if previously admitted a candidate shall have his name removed from the panel on his attaining the age of 30 years or on permanent appointment before that age.

8. No candidate shall apply simultaneously to more than one Inspector of Schools. Every candidate should state definitely if he has applied for nomination by any other Divisional Committee.

9. Every candidate should enclose with his application documents in support of his statement regarding (1) qualifications, academic and professional (M.A., B.A., M.Sc., B.Sc., B.T. diplomas), (2) date of birth (Matriculation certificate), (3) home district (certificate from a gazetted officer), (4) character (certificate from a respectable gentleman), (5) subjects studied at the degree examination, both academic and professional (certificate from the Principal of the College in which he studied) and (6) details of teaching experience with dates and names of institutions (certificates from the authorities of the schools). Testimonials, if any, as to the candidate's ability as lecturer, teacher, etc., may also be produced.

10. Every candidate should state if he is a British subject; if not, he should name the State in India to which he belongs.

11. A person can have only one domicile. In case a candidate claims to have more than one place of residence he should clearly state which one is his legal residence. This should be supported by documentary evidence (certificate from a gazetted officer).

12. The Divisional Panel Committee will interview the candidates, if necessary. The date for the purpose will be communicated to them in due course.

(*a*) at school,

(*b*) at college, and

(*c*) after leaving the college.

State whether you have had experience in organising games.

15. State whether you are a trained Scout Master. If so, what troops you have been in charge of and where.

16. Name two persons of position (with address in full) who can, if necessary, testify to your character, and to accuracy of your statements.

17. If time since leaving school is not fully accounted for by replies given above, account for the remainder here with dates.

18. (*a*) Are you free from pecuniary embarrassments?

(*b*) If you are under liability to repay money advanced by an institution or party for your education, state the particulars.

19. Have you ever been pronounced unfit at any time for Government employment by the Medical Board, or any other duly constituted medical authority in Bengal? What serious illness have you suffered from since leaving school?

20. Have you appeared at any examination for Government service? If so, state when and for what appointment. With what result?

21. Have you previously been rejected for any appointment in Government service? If so, when and for what reason?

22. Are you willing to be appointed to any post temporarily vacant?

23. Indicate the class of post you prefer, *i.e.*, an English teachership or Sub-Inspectorship or both.

24. State here any facts not recorded above which should be mentioned as supporting your suitability for appointment.

Krishnagar College—Session 1931-1932.

Krishnagar, the 13th May 1931.

The College reopens on the 13th July after the long vacation. Admissions will commence immediately after the publication of the results in the *Calcutta Gazette*. The College teaches up to the B.A. and B.Sc. standard of the Calcutta University. It has got affiliation in the usual Arts and Science subjects and in Honours in English, Sanskrit and Mathematics. The monthly tuition fee amounts to Rs. 6 for the I.A., Rs. 7 for the I.Sc. and B.A. and Rs. 8 for the B.Sc. Classes.

The College is situated in the midst of an extensive compound of over 100 bighas, containing a large number of playing fields. There is provision for all outdoor and indoor games. The College provides well-appointed common and reading rooms for the use of the students, who receive individual attention both in their studies and their games. There is a fine new two-storeyed Hindu hostel in the college compound, and hostel charges (including rent, furniture, light and medical attendance) do not exceed Rs. 14 a month. The boarders keep excellent health, and the general health of the town is also now quite good. There is also a Muhammadan hostel attached to the College.

A considerable number of Government and private free-studentships and stipends is awarded every year in August or September to poor but deserving students of the College.

For Prospectus and Admission form, apply, enclosing stamped and addressed envelope, to the Professor-in-charge, Krishnagar College.

Chittagong Division.

Chittagong, the 27th June 1931.

Rules for the guidance of private candidates for the Matriculation Examination of 1932.

The following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bona-fide* school-masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned below:—

Comilla Zilla School, Noakhali R. K. Zilla School, Chittagong Collegiate School and Rangamati High English School.

Date of examination—7th, 8th, 9th, 10th and 11th December 1931.

Female candidates are not required to undergo any Test Examination.

Each private student will pay a fee of Rs. 5 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the headmaster of the institution in which he appears.

4. Application for permission to appear at the Test Examination must be sent in time so as to reach this office not later than the 15th November 1931. The information to be given and the documents to be appended, in original, are the following:—

(*a*) Name of the school in which the candidate last studied.

(*b*) Transfer certificate, in original, granted to the candidate by the headmaster of the school in which he last studied; or

(*c*) In the case of a candidate who previously appeared at the Matriculation Examination, Controller's receipt, in original, for the fee paid.

(*d*) Age of the candidate. No candidate, who will not have completed the age of 15 years on the first day of the Matriculation Examination, will be allowed to appear at it.

(*e*) In the case of school-masters, a certificate of good conduct from the secretary of the school in which he is serving or from the Inspector of the district or subdivision concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts:—

(i) Residence.
(ii) Father's name.
(iii) Second language besides English.
(iv) Vernacular language for composition.
(v) Vernacular language from which translation is to be made into English in the first English paper.
(vi) Which of the following subjects he has taken up:—

(1) Additional mathematics.
(2) Additional paper in the classical language.
(3) History.
(4) Geography.
(5) Elementary mechanics.

(vii) The name of the school at the Test Examination of which the candidate wishes to appear must be stated. Candidates of the plains districts will not be allowed to appear at the Test Examination of the Rangamati High English School.

N.B.—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1930 and then left the school can, under no circumstances, be allowed to appear at the Test Examination.

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the Test Examination with the headmaster of the institution in which he intends to appear, at least 15 days before the date of that examination. The headmaster will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The headmasters of the institutions named in paragraph 3 above should direct private students who satisfy the test to appear before them in due time, with their applications for admission to the Matriculation Examination, and to sign them in their presence. They will then grant the necessary certificate and forward the applications to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held in March 1932, the exact dates of which will be notified by the University.

11. Applications and fees for admission to the Matriculation Examination must reach the office of the Controller of Examinations on or before the date to be fixed by the University.

KAMALUDDIN AHMAD,

Inspr. of Schools, Chittagong Division (offg.).

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

Senate House, the 9th July 1931.

The undermentioned candidates are declared to have passed the Intermediate Examination in Arts held in April 1931.

[The asterisk prefixed to the name of a candidate indicates that he has obtained not less than three-fourths of the aggregate number of marks and the letter or letters affixed to the name of a candidate indicate that he has obtained not less than four-fifths of the marks in a subject or subjects. E indicates English, M indicates Mathematics, S indicates Sanskrit, A indicates Arabic, P indicates Persian, H indicates History, L indicates Logic, C indicates Chemistry, B indicates Botany, V indicates Vernacular, Cs indicates Civics, Cg indicates Commercial Geography, Ca indicates Commercial Arithmetic and Elements of Book-keeping and Pa indicates Pali.]

NOTIFICATION.

Examination in the Art of Teaching, Burdwan Division.

Chinsura, the 29th June 1931.

An examination in the Art and Practice of Teaching for teachers of English subjects in Boys' Secondary Schools (aided and unaided) will be held at the Hooghly Training School, on Monday, the 7th September 1931, at 11 a.m., and on the following date, if necessary. The examination of teachers of vernacular subjects and oriental classical languages of the same schools will also be held on the same date and at the same place and hour.

2. The following teachers are eligible for the examinations :—

(*a*) Teachers of English subjects, who have passed (*i*) the Matriculation or some higher University Examination, or (*ii*) the Middle English Scholarship Examination or the terminal examination at the end of the middle stage of instruction. The examination of these teachers will be conducted in English.

(b) Teachers of vernacular subjects, who have passed the same examinations, or the Middle Vernacular Scholarship Examination, or the terminal examination at the end of the middle stage of instruction. The examination of these teachers will be conducted in vernacular.

(c) Pandits and Maulvis employed in teaching an oriental classical language other than Pandits in Sanskrit *tols* and Maulvis in Madrasahs. They must have passed the Sanskrit Title Examination or the Final Examination of a Senior Grade Madrasah. The examination in the case of these classes of teachers will be conducted either in English or vernacular at the option of the candidate.

3. The examination will consist of—

(a) A practical examination in class control, the candidate being required to keep a class of at least a dozen boys attentive and fully occupied throughout a lesson.

(b) A practical test of teaching ability, the candidate being required to give two lessons on any two of the subjects—English, Bengali, Sanskrit, Arabic, Pensian, Urdu, History, Geography, Arithmetic, Algebra, Geometry, etc.

(c) An oral examination, in which the Inspector of Schools or other examiner will ask questions on the Art of Teaching, object lessons, class management, organisation and discipline.

4. The following books are recommended for study by the candidate:—

(a) For teachers of English subjects—

(1) Indian Teachers' Guide, by P. Wren, (2) Indian School Organisation, by P. Wren, (3) Suggestions for the consideration of Teachers (Board of Education, Whitehall), (4) Talks to Teachers (James), (5) Art of Teaching by D. Salmon, (6) Direct Method by Tate and Rajagopalchari.

(b) For teachers of vernacular subjects—

(1) বিবিধ বিধান by A. N. Adhikari, (2) Teachers' Manual by Khan Bahadur Bhsanullah, (3) পাঠটীকা লিখিবার পদ্ধতি by Jagannath Dey, (4) মনোবিজ্ঞান by S. C. Brahmachary, (5) ভূগোল শিক্ষা প্রণালী by I. Haque.

(c) Teachers of oriental classical languages may study any of the above sets of books.

5. Intending candidates from High Schools should submit their applications through the Headmasters and teachers of Middle Schools and Junior Madrasahs through the District Inspectors, so as to reach this office *not later than the 23rd August 1931.* Every candidate will produce at the time of the examination the certificate of his having passed the University or other examination, which admits him to the present examination. The following information should accompany the application:—

(1) Name (in full).

(2) Name of father (in full).

(3) Names of native village and district.

(4) Last examination passed.

(5) Year of passing.

(6) Period of service as a teacher.

(7) Present appointment with date (mention whether he is a teacher of English subjects or vernacular subjects or of oriental languages).

(8) Two class subjects in which he wishes to be examined.

(9) Signature of applicant with full address.

6. Every candidate must bring with him at the time of examination two lesson notes on the subjects in which he wishes to give lessons. These notes should be made over to the examiner at the time of the practical examination.

7. Candidates should state whether they sat for the examination previously; if so, how often, giving dates.

(22) Babu Gokul Chand Boral, M.L.C.

A representative of the Marwari Chamber of Commerce as well as of the Bengal Chamber of Commerce will be added to the Committee later on on receipt of the nominations of each of the Chambers.

The manner in which the Committee will discharge its duties is as follows:—

The members will not visit the hospitals individually; the Committee will form itself into groups of not less than five members, each group in turn will, according to a roster to be kept for the purpose, visit the hospitals on a fixed day and at a fixed time in each month. In addition to these visits at fixed times the members will pay unexpected visits to the hospitals, provided that they do not go at times which are inconvenient to the hospital authorities. If all the five members of the group are not present, the remaining members can go round without the absentee or absentees, as the case may be. The members constituting the group should inspect the internal arrangements and offer such suggestions regarding the administration of the institution as they think proper. The Committee as a whole will meet at least once a quarter, review the reports of the visiting groups and discuss the remedial measures adopted. The Superintendent of the Medical College Hospitals should attend the meetings of the Visiting Committee.

A visitor's book will be kept in the hospitals in which the recommendations of the Committee will be recorded. The Superintendent will note on the margin the action taken on each recommendation with any other remarks or explanations that he may wish to offer. He will transmit a copy of the entries without delay to the Surgeon-General with the Government of Bengal for consideration. The Surgeon-General will take such further action as may seem necessary and will bring to the notice of Government any matter which he thinks sufficiently important. The members will hold office for one year from the date of appointment.

By order of the Government of Bengal (Ministry of Local Self-Government),

MARINE DEPARTMENT.

NOTIFICATION.

No. 29Mne.—The 11th July 1931.—In exercise of the powers conferred by section 29 of the Inland Steam-vessels Act, 1917 (I of 1917), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to make the following rules relating to the grant of certificates of competency to engineers and engine-drivers of inland steam and motor-vessels, in supersession of notification No. 30 Marine, dated the 25th February 1918.

E. N. BLANDY,
Secy. to the Govt. of Bengal.

Rules relating to the Examination of Engineers and Engine-drivers of inland steam and motor-vessels.

1. **Certificates of competency to be granted to persons who pass requisite examinations.**—Certificates of competency will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions. For this purpose examiners have been appointed and arrangements have been made for holding the examinations periodically at the Ports of Calcutta and Chittagong, and at Goalundo in the Faridpur district.

2. **Examinations to be continued till all the candidates are examined.**—The examinations will commence early in the forenoon, and will be continued until all the candidates whose names appear upon the list of the Principal Officer, Mercantile Marine Department, Calcutta district, Calcutta, or Nautical Surveyor, Chittagong, or of the Subdivisional Officer, Goalundo, on the day of examination are examined.

3. **Application how to be made.**—Candidates for examination must make their applications in form Exn. 1, which must be filled in at the Port Office, Calcutta or Chittagong, or at the Subdivisional Office, Goalundo.

Candidates unable to write English must apply at the Port Office, Calcutta or Chittagong, or at the Subdivisional Office, Goalundo, for a copy of form Exn. 1, and the same must be filled in before the Principal Officer, Mercantile Marine Department, Calcutta district, Calcutta, or Nautical Surveyor, Chittagong, or Subdivisional Officer, Goalundo, before submission at the Port Office, Calcutta or Chittagong, or at the Subdivisional Office, Goalundo.

The form Exn. 1, properly filled in, together with the candidate's testimonials, must be lodged with the Principal Officer, Mercantile Marine Department, Calcutta district, Calcutta, or Nautical Surveyor, Chittagong, or Subdivisional Officer, Goalundo, not later than three days before the day of examination.

4. **Testimonials required.**—Applicants will be required to produce, in addition to the usual forms of discharge, satisfactory testimonials as to sobriety, experience, ability, and general good conduct for at least the last 12 months' service on boardship preceding the date of application to be examined, unless the Government after having investigated the matter, should see fit to reduce the time.

An applicant already possessed of a certificate and wishing to appear for one of a higher grade must produce his certificate and all the discharges and testimonials he submitted when he applied for examination in the lower grade as well as the discharges and testimonials necessary for the higher grade certificate. Should references of doubtful authenticity be submitted by candidates for examination, the examining officer may require proof from the candidate of their genuineness, or an affidavit made to that effect.

If applicants have served on shore immediately preceding their application, certificates of sobriety must be produced from their employers, or from a respectable householder if unemployed. No candidate will be allowed to be examined unless he has served on boardship six months within the last three years preceding the date of his application to be examined.

5. As such testimonials and discharges may have to be verified before the candidates can be examined, it is desirable that these should be handed over, together with the form Exn. 1, as early as possible.

6. **Testimonials of Foreigners.**—The testimonials of service of Foreigners and of British seamen serving in foreign vessels, which cannot be verified in the Port Office, Calcutta or Chittagong, or Sub-divisional Office, Goalundo, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country, or by the testimony of some credible person on the spot, having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

7. **Certificate as to age.**—Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth or baptism.

8. **Foreigners to know English.**—Foreigners must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

9. Testimonials of service must ordinarily be based on their employers' office records.

Services claimed which cannot be "verified from the employers" office records must be authenticated by affidavits of men under whom such services have been performed as well as by an affidavit of the candidate himself.

Testimonials of service from European engineers will be accepted.

10. Candidates will be required to account for any gaps in their services with documentary evidence.

Qualifications for Certificates of Competency as Second-class Engine-drivers of Inland Steam-vessels.

11. A candidate for a certificate of competency as second-class engine-driver of an inland steam-vessel must have attained the age of twenty-one year and must possess *one* of the following qualifications, namely:—

(*a*) He must have served an apprenticeship of at least four years if in India, or three years if in the United Kingdom, in the making or repairing of steam-engines, and one year in the engine-room of a steamer; or

(*b*) He must have served four years in the engine-room of a steamer at sea, or on inland waters under a certificated engineer or first-class engine-driver, one year of which service must have been as a serang or tindal; or

(*c*) He must have served five years in the engine-room of a steamer, one year of which service must have been as serang, tindal or principal fireman in a vessel of not less than 15 nominal horse-power under a first-class engine-driver; or

(*d*) He must have served two years in charge of the engines of a factory or mill under a European manager or engineer, and one year as engine-room serang, tindal or principal fireman in a steamer of not less than 15 nominal horse-power.

12. He must satisfactorily pass a *vivá voce* examination as to the working of marine engines and boilers and the uses of the different parts and fittings, also as to the use of brine cocks, the salinometer and blowing-off, the care of boilers in salt or foul water, and the art of economical stoking and prevention of smoke.

13. He must be able, if required, to show his practical qualifications by actually working the engines of a small steamer, after fulfilling all the other tests to which he will be subjected.

Qualifications for Certificates of Competency as Second-class Engine-drivers of Inland Motor-vessels.

14. A candidate for a certificate of competency as second-class engine-driver of an inland motor-vessel must have attained the age of 21 years and must possess *one* of the following qulifications, namely:—

(*a*) He must have served for not less than three years as an apprentice or journeyman in the making, fitting and/or repairing of internal combustion or marine steam-engines and in addition he must have served for six months in the engine-room of a motor-vessel having engines of not less than 85 brake horse-power or nine months in a vessel with engines of not less than 40 brake horse-power; or

(b) He must have served for a period of not less than four years in the engine-room of a motor-vessel of not less than 226 brake horse-power, of which period not less than one year must have been served as serang, principal tindal or chief greaser:

Provided that of the four years mentioned above one-third may be served in the engine-room of a steam-vessel of not less than 40 nominal horse-power; or

(c) He must have served for a period of not less than five years in the engine-room of a motor-vessel having engines of not less than 85 brake horse-power, or six years in the engine-room of a vessel having engines of not less than 40 brake horse-power, of which period not less than one year must have been as serang, tindal or chief greaser:

Provided that of the five and six years' service mentioned above, one-third may be served in the engine-room of a steam-vessel of not less than 10 nominal horse-power; or

(d) He must have served for a period of not less than two years in charge of the engines of a factory or mill under a certificated engineer, as well as for a period of not less than one year in the engine-room of a motor-vessel of not less than 85 brake horse-power, or eighteen months in a motor-vessel having engines of not less than 40 brake horse-power, as serang, tindal or chief greaser; or

(e) He must have served for at least six months with a second-class engine-driver's certificate for steam-vessels or with a certificate of a higher grade in the engine-room of a motor-vessel having engines of not less than 85 brake horse-power or for nine months in a motor-vessel having engines of not less than 40 brake horse-power; or

(f) He must have served for at least two years, whilst in possession of a permit, as an engine-driver of an inland motor-vessel having engines of 40 brake horse-power or under followed by three years' service in the engine-room of a motor-vessel having engines of more than 40 brake horse-power as serang, tindal or chief greaser:

Provided that when the candidate produces proof of long service with a permit in launches having engines of 40 brake horse-power or under, remission of service with engines of over 40 brake horse-power may be allowed in the ratio of one year in lower-powered launches in lieu of six months' service in higher-powered launches with a maximum remission of eighteen months. The service to count for remission must be in excess of the two years required in launches of 40 brake horse-power or under.

15. The candidate must satisfactorily pass a *virá voce* examination on the working of the various types of internal combustion engines and be able to name the principal parts of the machinery.

16. The candidate must know what attention is required by the various parts of the machinery, understand the use and management of the different valves, cocks, pipes and connections, and be familiar with the various methods of supplying air and fuel to the cylinders.

17. The candidate must be able to describe the chief causes which may make the engine difficult to start and to explain how he would proceed to remedy any defects connected therewith; he must also be able to show that he understands the mechanism of the starting and reversing arrangements and that he is competent to deal with defects therein.

18. The candidate must be able to overhaul the engine, to adjust the working parts and to put the engine together again in good working condition. He must also understand how to make good the result of ordinary wear and tear to the machinery and how to correct defects from accidents.

19. The candidate must be familiar with the nature and properties of the various fuel oils used in internal combustion engines. He must understand what is meant by "flash point."

20. The candidate must know the danger resulting from leakage from the fuel oil tanks and must understand the precautions to be taken against explosion. He must also be able to take the necessary precautions to guard against the escape of inflammable vapour from the vaporizer when the engines are stopped. He must know how to deal with fire should it break out.

21. The candidate must also be able, if required, to show his practical knowledge by actually working the engines of a motor-vessel in the presence of the examiner.

22. The candidate must possess a working knowledge of the auxiliary steam-boilers and machinery connected therewith, namely, electric light engines, steering engines, evaporators and pumps.

Qualifications for Certificates of Competency as First-class Engine-drivers of Inland Steam-vessels.

23. A candidate for a certificate of competency as first-class engine-driver of an inland steam-vessel must have attained the age of twenty-two years and must possess *one* of the following qualifications, namely:—

(*a*) He must have served an apprenticeship of at least four years if in India, or three years if in the United Kingdom, in the making or repairing of steam-engines and one year as Assistant Engineer in a steamer having engines of not less than 80 nominal horse-power whilst holding a second-class engine-driver's certificate for steam-vessels; or

(*b*) He must have served five years in the engine-room of a steamer at sea or on inland waters, two years of which service must have been as a serang or principal tindal of a steamer having compound surface condensing engines of not less than 30 nominal horse-power whilst holding a second-class engine-driver's certificate for steam-vessels; or

(*c*) He must have served one year as second driver with a second-class engine-driver's certificate for steam-vessels in charge of a watch on the main engines and boilers of a steamer having compound surface condensing engines of not less than 30 nominal horse-power; or

(*d*) He must have served one year with a second-class engine-driver's certificate for steam-vessels as driver in charge of the engines of a steamer having compound surface condensing engines of not less than 20 nominal horse-power; or

(*e*) He must have served eighteen months as serang or principal tindal with a second-class engine-driver's certificate for steam-vessels in charge of a watch on the main engines and boilers of a steamer having compound surface condensing engines of not less than 30 nominal horse-power; or

(*f*) He must have served three years in charge of the engines of a factory or mill under a European manager or engineer, as well as two years as assistant engineer, engine-room serang or principal tindal, of a steamer having engines of not less than 80 nominal horse-power whilst holding a second-class engine-driver's certificate for steam-vessels.

24. He must pass a *vivâ voce* examination similar to that required by rule 12 for a second-class engine-driver's certificate for steam-vessels but more advanced.

25. He must also be able, if required, to show his practical qualifications by actually working the engines of a steamer after fulfilling all the other tests to which he will be subjected.

Qualifications for Certificates of Competency as First-class Engine-driver of Inland Motor-vessels.

26. A candidate for a certificate of competency as first-class engine-driver of an inland motor-vessel must have attained the age of 22 years and must possess *one* of the following qualifications, namely:—

(*a*) He must have served for not less than one year as engine-driver on regular watch on the main engines of a motor-vessel of not less than 565 brake horse-power whilst holding a second-class engine-driver's certificate for motor-vessels; or

(*b*) He must have served for a preiod of not less than 18 months as second driver with a second-class engine-driver's certificate for motor-vessels in charge of a watch on the main engines of a motor-vessel of not less than 226 brake horse-power; or

(*c*) He must have served for a period of not less than four years in the engine-room of a motor-vessel of not less than 226 brake horse-power, of which period not less than one year must have been served as a chief greaser, serang or principal tindal whilst holding a second-class engine-driver's certificate for motor-vessels.

If the motor-vessel is of not less than 170 brake horse-power, he must have served at sea or on inland waters for a period of not less than five years in such vessel, of which period not less than two years must have been served as a serang, principal oilman or chief greaser whilst holding a second-class engine-driver's certificate for motor-vessels; or

(*d*) He must have served for a period of not less than 18 months with a second-class engine-driver's certificate for motor-vessels as driver in charge of the engine of a motor-vessel of not less than 113 brake horse-power; or

(e) He must have served for not less than two years as a serang, principal tindal or chief greaser with a second-class engine-driver's certificate for motor-vessels in a motor-vessel of not less than 226 brake horse-power; or

(f) He must have served for not less than three years in charge of the engines of a factory or mill under a certificated engineer as well as for not less than one year in the engine-room of a motor-vessel of not less than 226 brake horse-power as assistant engineer, serang, principal tindal or chief greaser whilst holding a second-class engine-driver's certificate for motor-vessels; or

(g) He must have served for not less than two years as engine-driver on regular watch on the main engines of a motor-vessel of not less than 226 brake horse-power whilst holding a first-class engine-driver's certificate granted under the Inland Steam-vessels Act, 1917; or

(h) He must have served for not less than four years as engine-driver on regular watch on the main engines of a motor-vessel of not less than 226 brake horse-power whilst holding a second-class engine-driver's certificate granted under the Inland Steam-vessels Act, 1917; or

(i) He must hold an engine-driver's certificate for sea-going steamships granted under the Indian Merchant Shipping Act, 1923, and must have served on regular watch on the main engines of a motor-vessel of not less than 226 brake horse-power for a period of not less than one year.

27. He must pass a *vivâ voce* examination similar to that required by rules 15 to 22 for a second-class engine-driver's certificate but of a more advanced character.

Qualifications for Certificates of Competency as Engineers of Inland Steam-vessels.

28. A candidate for a certificate of competency as an engineer of an inland steam-vessel must be not less than twenty-two years of age and must possess the following qualifications, namely:—

(a) He must have served as an apprentice engineer for five years if in India, or four years if in the United Kingdom, and prove that during the period of his apprenticeship he has been employed on the making or repairing of steam-engines, boilers, etc.

Journeyman's time will be considered as equivalent to apprenticeship.

In addition to the apprenticeship described above, the applicant must have served two years thereafter as Assistant Engineer in a steamer having engines of not less than 80 nominal horse-power or with a first-class engine-driver's certificate as driver-in-charge of the engines of a steamer having compound surface condensing engines of not less than 30 nominal horse-power, or

Failing the above service, he must have served four years with a first-class engine-driver's certificate, in charge of the engines of a steamer having compound surface condensing engines of not less than 30 nominal horse-power.

(b) He must be able to give a satisfactory description of boilers, and the methods of staying them, together with the use and management of the different valves, cocks, pipes and connections.

(c) He must understand how to correct defects from accident, decay, etc., and the means of repairing such defects.

(d) He must understand the use of the water-gauge, pressure-gauge barometer, thermometer and salinometer, and the principles on which they are constructed.

(e) He must state the causes, effects and usual remedies for incrustation and corrosion.

(f) He must be able to explain the method of testing and altering the setting of the slide valves, and method of testing the fairness of shafts and adjusting them.

(g) He must be able to calculate the suitable working pressure for a steam-boiler of given dimensions, and the stress, per square inch, on crank and tunnel shafts when the necessary data are furnished.

(h) He must understand the construction of, and be able to maintain in working condition, the auxiliary machinery which may be placed under his charge, viz., electric light engines (steam and oil) and dynamos, electric motors, the various types of steering engines, hydraulic and refrigerating machinery.

(i) He must understand the construction of centrifugal bucket, and plunger pumps, and the principle on which they act.

(j) He must be able to state how a temporary or permanent repair could be effected in case of derangement of a part of the machinery, or total breakdown.

(*k*) He must write a legible hand, and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square and cube roots. He must also understand the application of these rules to questions about safety valves, coal consumption, consumption of stores, capacities of tanks, bunkers, etc.

(*l*) He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use, as to the details of the different working parts, external and internal, and the use of each part.

(*m*) He must possess a creditable knowledge of the prominent facts relating to combustion, heat, steam and electricity.

(*n*) He will be required to make an intelligible hand sketch, or a working drawing of some one or more of the principal parts of a steam-engine, and to mark in, without a copy, all the necessary dimensions in figures, so that the sketch or drawing could be worked from (Appendix D). Drawing boards and T-squares will be provided, but applicants will have to bring with them any drawing instruments they may require.

(*o*) He must be able to state the general proportions borne by the principal parts of the machinery to each other, and to calculate the direct stress, the torsional stress, and the bending stress in round bars, and the direct stress and the bending stress in rectangular bars with given loads.

(*p*) He must be able to describe different types of marine motor-engines, their working and uses of the several parts.

Qualifications for Certificates of Competency as Engineers of Inland Motor-vessels.

29. A candidate for certificate of competency as engineer of an inland motor-vessel must have attained the age of 22 years.

30. He must possess the following qualifications, namely:—

(*a*) He must have served for not less than four years as an apprentice engineer or journeyman at the making, fitting and repairing of steam or motor-engines such as would be recognised as affording useful training for a marine engineer. No time served before the age of 15 will be accepted. Not less than three years of this period must have been spent at fitting, erecting or repairing internal combustion engines. The remaining year may have been spent either wholly or in part on work of this nature, or at an approved technical school as mentioned in the rules for examination of sea-going engineers.

Service as Journeyman will be considered as equivalent to apprenticeship, but no time served before the age of 15 is reached will be accepted.

Workshop service other than the above may be accepted if it is considered useful training for a motor-engineer, but all such cases must be submitted to the Principal Officer, Mercantile Marine Department, Calcutta/Nautical Surveyor, Chittagong, for consideration before the candidate is examined, and at least an additional three months of qualifying service on marine internal combustion engines either in the works or on regular watch in the main engine-room of vessels propelled by these engines must have been performed in respect of each twelve months of workshop service of this nature, or other than on the making or repairing of internal combustion engines so accepted. If the service is not altogether satisfactory, a longer additional period than that specified may be required.

Any deficiency in the requisite four years' worksho, service may be made up by service afloat on regular watch in the main engine-room of a vessel of not less than 565 brake horse-power propelled by internal combustion engines.

If the vessel is a sea-going vessel one and half times the period of deficiency must be served and if an inland-vessel, two and a quarter times the period of deficiency will be required. Thus a candidate who has no workshop service must serve six years in a suitable sea-going vessel; or nine years in an inland-vessel in lieu of his apprenticeship.

(*b*) In addition to the workshop service as above described or the alternative service afloat, the candidate must have spent 18 months at sea as engineer on regular watch on the main engines of a sea-going ship propelled by internal combustion engines of not less than 565 brake horse-power or 27 months in a similar inland-vessel.

31. He must write a legible hand and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square root. He must also be able to work out questions relating to

spring or lever-loaded safety and relief valves, consumption of oil and stores, capacities of tanks, bunkers, etc., speed of vessels, and other similar problems, and be able to calculate suitable working pressures for air receivers of given dimensions, and the stress per square inch on crank and tunnel shafts and other parts of the machinery when the necessary data are furnished.

32. He must be able to give a clear explanation of the principles on which oil, gas or other internal combustion engines work, including the methods of ignition, to point out the differences between them, and to show by means of illustrative sketches and otherwise that he understands the details of the construction of those in general use.

33. He must be familiar with the various methods of supplying air and fuel to the cylinders in the different types of engines, the construction of the apparatus for carburetting, atomising, or gasifying the fuel, and the means for cooling the cylinders, pistons, etc.

34. He must have a satisfactory knowledge of the process employed in the construction of internal combustion engines in the workshop, and of the methods used in fitting the machinery on boardship.

35. He must know what attention is required by the various parts of the machinery and understand the use and management of the different valves, cocks, pipes and connections.

36. He must be able to state and describe the chief causes which may make the engines difficult to start and to explain how he would proceed to remedy any defects arising therefrom. He must also be able to show that he understands the mechanism of the starting and reversing arrangements, and is competent to deal with defects therein.

37. He must understand how to make good the results of ordinary wear and tear to the machinery, how to test the fairness of shafting, etc., how to correct defects from accident, delay, etc., and how a temporary or permanent repair could be effected in case of derangement or total break-down.

38. He must understand the construction of the pressure gauge, barometer, thermometer, and other instruments used in the engine-room and the principles on which they work.

39. He must understand the construction and working of centrifugal bucket, and plunger pumps, and the principles on which they act.

40. He must understand the construction and working of air compressors, gas producers, steering engines, electric light engines and dynamos, electric motors, refrigerating, hydraulic and other auxiliary machinery found on boardship.

41. He must possess a good working knowledge of the construction and management of auxiliary steam boilers and machinery and be familiar with the prominent facts relating to combustion, heat and steam.

42. He must be familiar with the nature and properties of the various oils, etc., generally used in internal combustion engines, must understand what is meant by "flash point;" and have a knowledge of the explosive properties of gas or the vapour given off by these oils, etc., when mixed with definite quantities of air and be thoroughly conversant with the danger of exposing such gas or vapour to a naked light; or of allowing any leakage from the oil tanks particularly into the vessels, bilges, and unventilated spaces, or from gas producers, pipes, vapourizers, etc.

43. He must thoroughly understand the precautions to be taken against fire or explosion from oil or gas, and know how to deal with fire should it break out. He should also be familiar with the action of wire gauze diaphragms when placed in pipes and connections to oil tanks, etc., for the purpose of preventing the explosion, or ignition of oil vapour therein.

44. He must be able to explain the principle construction and arrangement of primary and secondary batteries and induction coils so far as is necessary for the efficient management of an oil engine.

45. He must be able to take off and calculate indicator diagrams and understand the action of the gas in the cylinder as shown thereby.

46. He must be able to make a dimensioned working sketch drawing of some simple part of the machinery.

47. An engineer in possession of a (steam) certificate of competency as a first or second-class engineer is also eligible for a certificate as an engineer of inland motor-vessels under the following rules:—

(a) He must have served for not less than six months as an assistant engineer on regular watch on the main engines of a sea-going ship propelled by internal combustion engines of not less than 565 brake horse-power or nine months in a similar inland-vessel whilst holding a

first-class certificate of competency for sea-going steamships granted or recognised as valid under the Merchant Shipping Act, 1894. He must also satisfy the examiners that he is fully conversant with internal combustion engines and be able to show both in writing and in *vivâ voce* examination that he has satisfactory knowledge of the subjects covered by rules 32 to 37 and 42 to 45 of these rules; or

(*b*) He must have served for not less than 12 months as an assistant engineer on regular watch on the main engines of a sea-going ship propelled by internal combustion engines of not less than 565 brake horse-power or 18 months in a similar inland vessel whilst holding a second class certificate of competency for sea-going steamships, granted or recognised as valid under the Merchant Shipping Act, 1894. He must also satisfy the examiners that he is fully conversant with internal combustion engines and be able to show both in writing and in *vivâ voce* examination that he has satisfactory knowledge of the subjects covered by rules 32 to 37 and 42 to 45 of these rules.

48. Engineers in possession of ordinary certificates of competency as engineers granted under the Inland Steam-vessels Act, 1917, may be examined for motor endorsement of their certificates: provided that they have served for not less than 12 months as assistant engineer on regular watch on the main engines of a sea-going ship propelled by internal combustion engines of not less than 565 brake horse-power or 18 months on a similar inland-vessel whilst holding a certificate as engineer.

General Rules as to Examinations.

ENGINEERS.

49. **Candidate not to take books, etc., into examination room.**—All books necessary for the use of candidates under examination will be provided, and applicants will not be permitted to take into the examination room any book, paper, document, or memoranda of any description whatever; and, subject to the provisions referred to hereafter, they will also not be allowed to work out their problems on a slate or on waste paper.

50. Candidates will be allowed in the time allotted to cancel any part of their work, and, when required, additional papers will be supplied by the examiners. These additional sheets must be attached to, and form part of, the examination papers.

51. **Punishment for breaking rules.**—In the event of any candidate being discovered copying from another, or affording any assistance or giving any information to another, or communicating in any way with another during the time of examination, he will be regarded as having failed in his examination, and will be turned back for three months, in the same manner as if he had failed in the practical part of the examination; and no part of the fees he may have paid for examination will be returned to him.

52. **Leaving examination room.**—If a candidate leaves the room before answering any question which has been given to him, he cannot afterwards be permitted to answer it, but the examiners may substitute other data or another question.

53. (*a*) **Questions and answers.**—The examination of candidates for certificates of competency as engineers consists of four parts: Arithmetic, Drawing, Elementary questions and *vivâ voce*. When the number of marks obtained in arithmetic amounts to 28, that is, two-thirds of the maximum, the candidate passes in arithmetic.

(*b*) All applicants presenting themselves for examination for certificates of competency as engineers will be required to give written answers to ten questions selected from the list of elementary questions shown in Appendix B. These questions are intended to furnish a record to some extent of the candidate's knowledge at the time of his examination, and also to induce the candidates to pay more attention to their handwriting and spelling.

54. The form, Appendix A, on which these answers will be written, contains also some questions as to the experience of the applicant, to be answered by him in writing.

55. Examiners may add to their *vivâ voce* questions on the practical management of steam-engines and boilers any of those contained in Appendix B.

56. If at the expiration of the time allowed the candidate has worked out correctly the whole of the questions set to him, and given satisfactory answers in the *vivâ voce* examination, he will be declared to have passed.

57. If at the expiration of the time allowed he has not worked out the whole of the questions set to him, but if the result of the *vivâ voce* examination, taken in connection with the answers to such of the questions as he has worked out, is sufficient to satisfy the examiners that the applicant is competent to take charge of engines, he will be declared to have passed.

58. In other cases he will be declared to have failed.

59. A report of the examination, and the examination papers will be forwarded to the Government on the prescribed form.

60. **Notification of having passed will be given to successful candidates.**—If the candidate passes, he will receive a formal note to that effect upon which the Government will issue the certificate to the candidate, whose testimonials, etc., will be returned at the same time.

FEES.

61. **Fees to be paid by applicants for examination.**—Candidates for examination, in making their application on form Exn. 1, will be required to pay the examination fees before any step is taken, whether by inquiring into their services or testing their qualifications, etc. No part of the fee will under any circumstances be returned to them; but should it be found that their services is not sufficient to entitle them to be examined, or that their testimonials are unsatisfactory, they will be allowed to present themselves for examination without paying any further fee, when they have fulfilled the requisite service, or are able to produce satisfactory testimonials, as the case may be.

62. The fee for examination must be paid to the Principal Officer, Mercantile Marine Department, Calcutta, or Nautical Surveyor, Chittagong, or Subdivisional Officer, Goalundo. In any case in which a candidate offers money to any other officer, and in any place but in the Port Office, Calcutta or Chittagong, or Subdivisional Office, Goalundo, the candidate so offering money will be regarded as having committed an act of misconduct, and will be rejected and not allowed to be examined for 12 months.

63. If a candidate fails in his examinations, *no part of the fee he has paid will be returned to him.*

64. The fees are as follows:—

	Rs.
Second-class engine-drivers	4
First-class ditto	10
Engineers	12

FAILURE.

65. If the applicant fails in the *vivâ voce* or practical part of the examination, he may not present himself for re-examination until he can produce proofs of three months' further service afloat. If he fails in arithmetic or drawing only, he may come up again at any time. Engine-drivers may be examined *de novo* after six months' active service as serang or principal tindal or second driver if the past examination showed that they might reasonably be expected to qualify.

GENERAL.

66. Certificates of competency as engineers and first and second-class engine-drivers shall be made out and issued in the forms hereunto annexed.

67. Every certificate of competency shall be made in duplicate, and one copy shall be delivered to the person entitled to the certificate and the other shall be kept and recovered by the Principal Officer, Mercantile Marine Department, Calcutta, or Nautical Surveyor, Chittagong, or the Subdivisional Officer, Goalundo.

By His Excellency the Governor of Bengal in Council.

Certificate of Competency as Second-class Engine-driver of an Inland Motor-vessel under Act I of 1917.

To

Whereas it has been reported to His Excellency the Governor in Council that you have been found after examination duly qualified to fulfil the duties of Second-class Engine-driver of an inland motor-vessel having engines of less than 226 brake horse-power, I do hereby, in pursuance of Act I of 1917, grant you this Certificate of Competency as such Second-class Engine-driver.

By order of the Government of Bengal,

To Engineer Examiners.

Examiners will require all candidates to fill up the particulars noted below, and will forward the same to the Government along with the report of the examination.

The arithmetical questions for engineers and the *vivâ voce* examinations for all candidates will be continued as heretofore, and failure in the elementary questions will be treated as failure in arithmetic.

The numbers of the questions for each examination will be selected by the examiners, and they are not to be communicated to the candidate until his examination commences.

Port	Class for which examined
Date	Candidate's name

A. Where and how long did you serve in works at the making or at the repairing of engines, and in what capacities?

B. How long have you served in the engine-room at sea, or on inland waters and in what capacities?

C. With what descriptions of engines have you served at sea, or on inland waters—paddle, or screw, or both? What size were the engines?

D. With what description of boilers have you served at sea, or on inland waters—cylindrical, multitubular, water tube, sectional or flue boilers?

E. What engine defects have come under your notice at sea, or on inland waters, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

F. What boiler defects have come under your notice, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

For the questions to be answered on the following pages, *see* the list of Elementary Questions in Appendix B. The questions need not be written: only the answers to them.

Elementary Questions.

For the examination of Engineers for Certificates of Competency.

1. What parts of an engine are generally made of wrought iron?
2. What parts of an engine are generally made of cast iron?
3. For what parts of an engine is steel sometimes used?
4. What parts of an engine are generally made of brass or gun-metal?
5. Where is "white metal" sometimes used? On account of what property possessed by it is it adopted? What objection is there to its more general use?
6. For what parts is Muntz metal sometimes used? Is it malleable? For what properties is it valued?
7. What difference is there in the composition of cast iron, of wrought iron and of steel?

8. How can cast iron, wrought iron, and steel be distinguished from each other?

9. What are the different properties of cast iron, of wrought iron and of steel?

10. What is meant by the terms "breaking stress," "proof stress," "safe working stress"?

11. What is the cohesive strength, or breaking stress, of good ordinary wrought iron?

12. Tempering steel; how is it done, and in what order do the colours come?

13. What is case-hardening?

14. Which of the common metals or alloys can be forged and which of them are brittle or "short"?

15. What is meant by "welding"? Which of the common metals can be welded?

16. The expansion of metals by heat; give examples of this in the engine and in the boiler.

17. In the construction of steel cylindrical marine boilers for what parts have the plates to be worked hot? What precautionary treatment of these plates is afterwards necessary?

18. In what parts of cylindrical marine boilers is the strongest rivetting employed? In which of the shell seams is it most necessary?

19. What is "caulking," and how are seams prepared for caulking?

20. Describe the different ways of fastening the ends of the main stays of a boiler. What are the merits of, or objections to, the different plans?

21. What stress per square inch is allowed on boiler stays?

22. Describe a rivetted stay, and state where such stays are commonly used.

23. Where are thin plates to be looked for in a boiler as it wears, and how is the thinness to be detected?

24. How are boiler tubes fixed? What are "stay tubes," and how are they secured?

25. Where is it generally that boiler tubes leak? How is this defect repaired? What are the causes of this leaking?

26. What are the causes of cracked tube plates? Where are the cracks situated? How are they repaired?

27. What is the difference between a "dry uptake" and a "wet uptake"? Which requires more repair? Why? Where have you seen a wet uptake?

28. What is a superheater? What is its construction? What valves are on it? There is sometimes a gauge glass on it. What is that for? Are superheaters now in general use?

29. What parts of marine multitubular boiler are first injured by shortness of water?

30. Where are angle irons sometimes used in the construction of a boiler, and where are flanged plates used?

31. Priming; to what causes is it attributed? What means are applied to prevent it? What evils may be produced by it?

32. Funnel draught; what makes it? What checks it?

33. Flame is sometimes seen at the top of the funnel; what causes this appearance? Is it beneficial or is it detrimental? Why so?

34. A blast pipe; what is its construction? Where is it placed? For what is it used?

35. How many bottom blow-off cocks are generally fitted to each boiler, and why are they so fitted?

36. Blow-off cocks are sometimes fitted with a spanner guard; for what purpose is this? Describe how the guard is formed.

37. Water-gauge test-cocks; where are they placed? At what heights? Must the cocks themselves be at those heights? What provision is made for cleaning these cocks should they ever become choked? When there are no test-cocks, how is the height of the water ascertained?

38. What is a dead-weight safety valve? Of what are the rubbing surfaces formed? How is a lock-up valve arranged to admit of lifting it or of turning it round, and to prevent adding to the weight?

39. About what area of safety valve is now required by the Board of Trade? What is the effect of suddenly opening a safety valve when steam is up? To about what extent do safety valves rise when blowing-off without being eased by hand?

40. Spring-loaded safety valves; what advantages have they that are not possessed by dead-weight valves? What are the disadvantages, if any, as compared with dead-weight valves?

41. Of what pieces does a glass water gauge mounting consist? How does it act? Where is it placed? At what height? It is liable to derangement? How is its working tested?

42. Glass water gauges have sometimes pipe connections top and bottom; what is the object of this arrangement? Should there be cocks at the extremities of these pipes? Why? Or why not?

43. Describe a Bourdon steam gauge. Some gauges have an inverted syphon pipe below them; what is its use?

44. Why is a small cock sometimes put on the pipe leading to a steam gauge? Where should it be placed, and what error might be made by omitting to use it?

45. Do steam gauges indicate the total pressure of the steam or only a portion of that pressure? What is the pressure measured from?

46. What is meant by the salting of the boiler? How is this prevented? What is the density of ordinary sea water? How is the density ascertained? What is the difference between the formation of scale and the salting of the boiler? What is the maximum density at which boilers should be worked at sea? In the event of condenser tubes leaking, what is the minimum density at which boilers should be worked? Give your reasons.

47. Scum cocks and pipes; how are they arranged? Where are they placed? At what height in the boiler? When are they used? When must they be shut? Neglect of these cocks leads to what dangers?

48. Of what does scale consist? Where is it most objectionable? How is it removed? How is its formation prevented? What evil effects are produced by it?

49. What is a salinometer? Of what does it consist? How does it act? How it is graduated? Can it be used at any temperature indiscriminately?

50. What harm may be done through the check valve of one of a set of boilers being defective while under way? How would you work to avoid this harm?

51. How is the leak from a split tube stopped in a boiler under way? Describe the operation.

52. What is the use of dampers? Where are they fitted? When should they be used?

53. When there are no dampers fitted, what is used instead? What evil to the boiler is sometimes attributed to this? When the heating surfaces are clean does this occur?

54. Describe the piston of a steam cylinder; with its different rings and their uses. There are generally round pieces let in flush on one side of a piston; what are they? How are these pieces fixed?

55. Cylinder drain cocks; what is their use? There is sometimes a valve upon each cock; what purpose does it serve?

56. Cylinder escape valves; of what do they consist? How protected? How regulated? When are they most needed? To what danger do they expose the engineer? What precaution is sometimes used to obviate this danger?

57. What is a compound engine? What different kinds are there for screw steamers, in respect to the number and arrangement of their cranks and cylinders? What is a triple expansion engine?

58. What is link motion? What are some of its advantages? In modern engines for the screw propeller when there is no link motion, what takes its place?

59. What is a separate expansion valve? Why is it not fitted to all engines? What effect has an expansion valve upon the starting and upon the reversing of the engine?

60. What arrangement is applied to reduce the friction of a slide valve? To what is the friction due?

61. Describe a loose eccentric; how does it act? In what engines are the loose eccentries still employed?

62. What is the travel of the eccentric rod? How it is measured on the eccentric? What is the travel of the slide valve when the link motion is in mid gear, and the engine still moving?

63. What are "double beat valves"? What objections are there to their use?

64. What is a circulating pump? Is it always worked by the main engine? Give an example from your last steamer of the three water temperatures generally noted by careful engineers.

65. An air valve is sometimes fitted to a circulating reciprocating pump; what purpose does it serve?

66. What is the difference between a bucket air-pump, a piston air-pump, and a plunger air-pump?

67. Are double-acting air-pumps made with plungers, with pistons, or with buckets? Describe the construction and action of circulating-pumps.

68. What is an air-pump trunk? When is it necessary? How is it attached to the bucket? Centrifugal pumps; describe their construction and mode of working.

69. What class of air-pump requires both foot and delivery valves, and in what other class can either of these valves be in some cases dispensed with?

70. What are marine governors? What is their general construction? How do they act?

71. With a surface condenser and a single acting air-pump what is the effect of a leaky foot valve, and what is the effect of a leaky bucket when there is also a foot valve?

72. Where is the air-pump pet cock or valve placed? How does it act? What is its object? Does it in every case reduce the effective capacity of the pump? Is it equally applicable to double acting pumps?

73. At what temperature is the hot well worked? What is the effect of higher temperatures? What is the effect of lower temperatures? What limits the lowness of temperature? Has a very low temperature any disadvantages?

74. Bilge injection with jet condensers; what are the fittings required? When is it used? What precautions are necessary in using it?

75. When surface condensers are used, what takes the place of the bilge injection? To what is the connection made? How is its valve formed? Why is this necessary?

76. What are the practical guides to the proper amount of opening of the inlet valve for the circulating pump?

77. Feed-pump pet cock or valve; where is it placed? What is its use? How does it act? Is it always a necessary fitting?

78. What are some of the ways of fastening the ends of surface condenser tubes? About what size and about what thickness are condenser tubes? What parts of a surface condenser are made of brass?

79. What is a blow-through valve or cock? To what is it attached? There is sometimes a valve which, when opened, admits steam from the slide valve casing to the exhaust port; what is its use? To which cylinder is it fitted?

80. What are snifting valves? Why are they generally omitted now?

81. What connections are generally fitted to the donkey pump, and to what services can it be applied?

82. When the engines are stopped in harbour with steam up, what are to be shut and what are to be opened?

83. How is an engine heated up before starting? What precautionary examinations are made before starting?

84. What is an intercepter or catch-water? Where is it fixed, what is its construction, how does it act, and what attention does it require?

85. Describe an air-pump bucket with its valve or valves and its packing. Of what are the valves generally made?

86. Of what materials are air-pump rods made? Why?

87. What is the racing of the engine? When does it occur? What danger attaches to it? What is done to prevent it?

88. When under way, when the air-pump bucket is at the top of its stroke, at what height is the water in the condenser?

89. What is meant by the "pitch" of a screw propeller? How is it measured?

90. Explain the difference between a "right hand" and a "left hand" propeller, and state how each of them revolves.

91. What is the slip of a screw propeller? How is its amount expressed in figures?

92. Which of the valves about engines and boilers have to be worked by hand, which of them are self-acting, and which are worked by the motion of the engine?

93. Why is soda sometimes put into a boiler, and how is it put in when under way? What is the kind of soda used?

94. Tallow cups for cylinders were sometimes made with two small cocks, or with only one small cock, or with one large hollow plug cock or with one small cock and a valve; which of these is suitable for a high-pressure cylinder, and which for the cylinder of a condensing engine? Describe how the cup with only one small cock is used. What is now generally used instead of these? How has this change come about?

95. Does a cylinder escape valve, self-acting allow all the water to escape? If not, how much is left in the cylinder?

96. What is a "Steam Lubricator" (sometimes called an Impermeator)? Explain its action. To what part of the engine is it connected? Will throwing cold water over it make it work faster or slower? Describe the one used in your last steamer.

97. A common paddle wheel; of what is the centre made? Of what are the arms formed? What is the form of the bolts which attach the floats to the arms? How are the arms attached to the centres?

98. Why have some paddle wheels one or more cast-iron floats in each wheel? With what engines are these most required? At what part of the circumference are they placed?

99. Why are paddle wheel floats sometimes made of different breadths in the same wheel? With what description of engine is this most needed? Where are the broad floats placed and where are the narrow floats placed in the circumference of the wheel?

100. What difference is there between a radial paddle wheel and one with feathering floats? What is the object of feathering floats? Are all the eccentric rods attached in the same way, and are they all of the same form?

101. Whereabout is the centre of the eccentric of a paddle wheel with feathering floats placed? In that case are the feathering levers on the striking face or on the back of the float? When the paddle shaft has an outer bearing, how is the eccentric made?

102. Of what materials are the working surfaces of a paddle wheel with feathering floats? How are they lubricated?

103. What is a "Disconnecting Paddle Engine"? At what place is the disconnecting effected? How is it accomplished? In which of the cranks of a disconnecting engine are the crank pins fixed?

104. Is link motion valve gear or the loose eccentric generally used for disconnecting paddle engines? For what steamers are disconnecting paddle engines frequently employed?

105. What are expansion joints? Where are they necessary? What attention do they require? Of what should the working surfaces be made?

106. What omission in the construction of expansion joints may lead to a serious accident when steam is first applied? How is this prevented in the construction of a steam trunnion pipe for an oscillating engine?

107. Describe an oil cup with a syphon worsted. How is the worsted arranged? How is it cleaned? How far down the tube does it extend?

108. Describe a thrust bearing; which of the surfaces wears? Why is there sometimes a number of oil tubes or one thrust bearing?

109. What parts of a screw shaft are generally covered with brass? Why is this necessary? About what thickness is the brass?

110. What is the stern tube or screw shaft pipe? Why is a pipe of such a length required? Of what is it made? How is it fixed at each end?

111. What is a *lignum vitæ* bearing? How is the wood fitted? Where is such a bearing generally used?

112. How is a screw propeller fixed on the shaft? What means are used to prevent its getting loose at sea?

113. Where are sluice valves placed? What large sluice valve is there in almost all screw steamers? From what position should this valve be worked? Why so? What attention should it receive?

114. With a condensing engine what valves or cocks are on the skin of the ship in the engine-room and in the stokehold?

115. What are the necessary fittings of a marine boiler?

116. With a surface condensing engine what cocks or valves are opened some time before the engine is started so as to be ready for starting whenever the order is given?

117. What is a steam jacket? What cocks are on it? In what engines are jackets most generally used? Do they require to be felted?

118. What parts of an engine or its fittings should be felted or otherwise protected from radiation?

119. What are the small cylinders sometimes fitted on the slide valve casing cover of vertical engines? Explain their action. To what are they connected by a pipe? Why?

120. Name the principal pipes in connection with the engines and boilers of a steamer, and state to what the ends of these pipes are connected?

121. Through what cocks or valves, pipes and chambers does the water pass on its way from the sea inlet rose plate to the water space of the boiler, with a jet condenser?

122. Through what cocks or valves, pipes and chambers does the circulating water of a surface condenser pass?

123. Through what cocks or valves, pipes and chambers does the steam pass from the boiler until it is in the form of water in the hot well?

124. Name the pieces of the engine through which the pressure of the steam is transmitted from the piston to the screw propeller. Name them in the order in which they act.

125. What is an air vessel? How does it act? At what parts of an engine or its fittings are air vessels generally applied?

126. What is the construction of a mudbox? Where should mud-boxes be placed? Why are they necessary? How should the space be divided by the rose plate, and why?

127. What is a trunk engine? Why has it fallen into disuse?

128. What is an oscillating engine? For what steamers are oscillating engines generally adopted? Why? How is the steam conveyed to and from the slide valve casing?

129. Of what parts does the valve motion gear of an oscillating engine consist?

130. For what have geared engines sometimes been used? Of what were the cogs or the large wheel made?

131. At what part of a screw steamer is the pressure that propels it applied to the hull?

132. At what part of a paddle steamer is the pressure that propels it applied to the hull?

133. About how much fuel per indicated horse-power per hour is required by modern steam engines, common, compound, and triple expansion?

134. What is the explanation of the economy of the surface condenser?

135. What is the construction of a surface condenser? Of what are its tubes made? How are they fixed? How are they kept tight? What is done with a split tube?

136. Where do surface condensers foul? How are they cleaned?

137. What non-conducting substances are employed to prevent radiation, and how are they applied?

138. In the construction of smoke-box doors and of dry uptakes, what provision is made to lessen the amount of radiation?

139. How can the formation of excessive smoke be prevented? Describe smoke preventing apparatus.

140. What is meant by "circulation" in a boiler, and what are the results of defective circulation?

141. What means are sometimes adopted to improve the circulation in a boiler?

142. By what arrangement is the circulation promoted in a "haystack" boiler?

143. Describe a ship's side air-pump discharge valve. In what respects does it sometimes differ from a common stop-valve, and what attention does it require?

144. What is the construction of a feed escape valve, to what is its discharge connected, and how is its loading regulated? Where should the escaping water flow?

145. When there is no feed escape valve, what is the arrangement of the feed valves or cocks?

146. What is the measure of a horse-power? How is indicated horse-power ascertained?

147. Has "nominal horse-power" a fixed meaning? What is the use of this expression? What is generally taken as the measure of one horse-power nominal?

148. What is "back pressure" in a cylinder? About how much is it in each of the cylinders in your last steamer? Is excessive cushioning ever a trouble under certain conditions in modern engines? Say when and why and in which cylinder this occurs.

149. What is meant by "speed of piston"? About how much is the speed of piston in modern marine engines?

150. What is "atmospheric pressure"? What is its average amount? What instrument tells this amount?

151. What is "gross pressure" or "absolute pressure"? What pressure is it that is shown by the steam gauge?

152. What is meant by "cutting off" steam? How is it done? What part of the valve regulates the cut off?

153. What is a piston slide valve? Describe its construction. Why are they frequently employed in place of the common slide valve? Have they any disadvantages compared with a common slide valve? If so, name them.

154. What fixes the time of closing the exhaust? After the exhaust is closed and before the port opens for steam, what becomes of the steam that is in the cylinder?

155. What is the "lead" of the valve? What is its object? About what amount is it?

156. What is the "cover" or "lap" of the valve? What is its object? About what proportion of the stroke of the valve is it made?

157. What is the "exhaust cover" of a slide valve? What is its effect upon cushioning and upon exhaust?

158. What is "minus cover" or "minus lap" on the exhaust? What is its effect upon the exhaust and upon cushioning?

159. What is "cushioning" or "compression" in a steam cylinder? How is it affected by the amount of cover or of minus cover there may be upon the exhaust? How is it affected by the exhaust pressure?

160. What is "mean effective pressure"? How is its amount ascertained?

161. What is a dial vacuum gauge? What is its construction? For what is it used? About what amount should it show when the engine is working all right? What effect have the variations it indicates on the performance of the engine?

162. Does the vacuum gauge enable you to tell what pressure there is in the condenser, or must you have recourse also to the barometer to arrive at that? How would you ascertain the actual amount of back pressure there is in the condenser?

163. What is a barometer? What is its construction? Is a barometer sometimes used instead of a vacuum gauge? In what respect does the weather barometer differ from the vacuum gauge barometer?

164. The common vacuum gauge and the common steam gauge, in which of them are the graduations marked from atmospheric pressure? Does either of them tell what is the true actual pressure in the boiler or in the condenser?

165. Do steam and vacuum gauges vary with the variations of the weather barometer? When the weather barometer varies from 29 to 31 how much will the vacuum gauge vary and how will that affect the working of the engine? Why?

166. Vacuum is generally stated as so many inches. What is meant by, say, 20 inches vacuum? What does that tell us about the absolute pressure of the vapour then in the condenser?

167. From what depth will a pump draw water? Is there any limit? Why?

168. What is vacuum? Can vacuum move a piston? When the temperature of the water in the condenser is 212° Fahrenheit, what is the greatest degree of vacuum there can then be in the condenser?

169. What is a thermometer? What is its construction? What is the property of matter that is the principle of its construction? What temperatures are regularly noted by careful Engineers?

170. What is the temperature of (1) melting ice, (2) boiling water, (3) steam about 60 lbs. pressure by the steam gauge, (4) steam about 100 lbs., (5) steam about 150 lbs., (6) smoke in the funnel, (7) water in the hot well?

171. What is meant by the "conduction" of heat? Give examples of it in the boiler and in the engine.

172. What is meant by the "convection" of heat? Give examples of it in the boiler and in the engine.

173. What is meant by "radiation" of heat? Give examples of it in the boiler and in the engine.

174. Which is convection, which is radiation, and which is conduction in the following cases:—(1) Heat from the glowing-fuel to the furnace crown? (2) Heat passing from one side of the furnace crown plate to the other? (3) Heat passing from the steam pipes in the engine-room? The heat of evaporation?

175. What are the effective heating surfaces of a marine boiler?

176. What parts of a marine engine are exposed to danger when the temperature is below freezing point?

177. What precautions are necessary in cold climates when the temperature is below freezing point?

178. State as many ways as you can by which a boiler might not get its full feed. A boiler, or one of a set of boilers, gets short of water although the feed valve is open its proper amount; to what causes might this be due?

179. Of what are furnace bars generally made? About what thickness are they at the top? About what space is between them?

180. About how many tons of steam coal will be burnt per day in four furnaces, each 3′ 0″ wide, and of about the usual length? On what grounds do you say so?

181. About how many tons of steam coal will be burnt per day with a good triple expansion engine, surface condensers, the low pressure cylinder 40 inches diameter, doing average work? On what grounds do you say so?

182. A pair of inverted cylinder direct acting engines, there is a liner half an inch thick between the ahead eccentric rod and the eccentric strap, in overhauling the engine this place is lost and forgotten; what difference will its omission make in the working of the engine, on the admission, on the cut off, and on the exhaust of the steam? Which will take place earlier and which later, distinguishing between the up stroke and the down stroke?

183. In a pair of inverted cylinder direct acting engines driving a right-hand screw, on which of the crosshead guide bars is the pressure greatest in the up stroke, and on which in the down stroke?

184. A screw propeller is getting loose, it has a little play on the shaft, sideways on the key or feather; how will this show in the engine room?

185. How would you prove whether the centre line of the trunnions of an oscillating cylinder be fair with the centre line of the main shaft?

186. How can the fairness of a line of screw shafting be tested without lifting the shafts?

187. Where are steel forgings generally used in marine engines?

188. What is the composition of nickel-steel? Where is it sometimes used in engines and boilers?

189. How is forced draught generated on board ship and supplied to boiler-furnaces? Is the air heated before delivery? If so, how?

190. What is "induced" draughts? Compare the merits of "forced" and of "induced" draught.

191. How is the intensity of forced or induced draught measured? What is the usual pressure employed in the mercantile marine?

192. An explosive gas is liberated from bunker coal. Usually in well-ventilated bunkers this gas escapes into the atmosphere without doing harm. In ill-ventilated bunkers the gas after mixing with a certain proportion of common air has been known to explode when a naked light has been brought into contact with it. What is the composition of the gas? Where is it found, in bunkers, pockets and coal shoots? How may it be got rid of as soon as it evolves from the coal? How many cubic feet of air to one of the gas forms a violent explosive mixture?

193. A lighted lamp or candle has sometimes been lowered into an apparently empty paraffin tank and produced an explosion resulting in injury to the person holding the light. What did the tank probably contain, and what produced the explosion?

194. In vessels carrying coal cargoes it has been observed that, generally speaking, the gas which escapes from the body of the coal is found more abundantly at the forward end of the hold than at the after end. Why should this be so?

195. In recently opened ballast tanks, double-bottoms and boilers, a light lowered into either has sometimes been extinguished. What would, in all probability, cause this?

196. In double-bottom steamers where does the bilge water lie, and where are the roses of the bilge pipes fitted?

197. What is the advantage of a large rose over a small one?

198. Why, especially in vessels carrying cargoes liable to shift, should engine bilge suctions be fitted to both wings of the bilge?

199. In a heavily listed vessel, why is it difficult to keep steam?

200. What means are sometimes provided for temporarily coupling together the broken parts of, say, a tunnel-shaft? Describe the fitting.

201. Does the pressure on the thrust-collars vary with the horse-power or with the speed of the ship, or how?

202. If the holding-down bolts of a thrust-bearing should become slack, what effect would it have upon the working of the engines?

203. In an engine with three cranks, which of the three is subject to the greatest torsional stress (1) in going ahead, (2) in going astern?

204. Is it usual to make the crank shaft of a triple or quadruple expansion engine in one piece? And is the diameter of the shaft uniform from end to end? Give your reasons for the practice which obtains.

205. In a "built" crank shaft how are the webs rigidly secured to the pins and to the body of shaft?
206. There are various descriptions of donkey engines in use on board ship for pumping purposes. Some pumps are fitted with escape-valves, some are not. Why should this be?
207. Explain the function of an air vessel fitted to a feed pump. Make rough hand sketches of (1) a satisfactory vessel, (2) an unsatisfactory vessel, where, say, the air spring has been destroyed by carelessness, or has never been properly provided.
208. Should cocks or escape valves be fitted to air-vessels? Why, or why not?
209. Where, by preference, should the escape valve of a feed pump be placed? Why?
210. *Scum cocks are sometimes fitted to boiler-shells at a height convenient for Engineers to manipulate when standing in the stokehold; the scum pipes in such cases are laid upward, inside the boiler, to a little above the combustion chamber tops. What danger may arise from this arrangement?
211. Cocks for testing the water level of boilers are sometimes fitted within reach of the engineer who is standing in the stokehold. These may have internal pipes leading upward and terminating at various levels. Under what circumstances may these become misleading?
212. Why should the pipe which leads from the bottom of the water-gauge column to the bottom of the boiler-front, or back, be covered with non-conducting material? Why also should it never have lengthy horizontal bends?
213. In your own experience, how frequently is this pipe removed and cleared?
214. Why, even with the best of water-gauges, is it advisable occasionally to use the drain-cock?
215. Steam loops have sometimes been inadvertently made in the length of piping leading from the top of the water-gauge column to the top of the boiler. Roughly sketch such a loop and explain the danger arising from its existence.
216. Describe your method of thoroughly testing the water-gauge system to satisfy yourself that all the cocks and pipes are clear. Your answer can be written on a supplementary sheet of foolscap, which the examiner will hand you. Hand sketches, mere lines indicating pipes, and circles indicating cocks, should be made. Identify the cocks and pipes by letters or numerals.
217. Describe the construction of a water-tube boiler, mentioning the type selected.
218. In a water-tube boiler how is an economiser fitted, and what is its duty?
219. How is the water-gauge fitted in a water-tube boiler? Are glass-gauges used?
220. The pressure of the steam in water-tube boilers is sometimes greater than at the engines. Why is this, and what percentage above the engine pressure does it amount to? How is this difference of pressure maintained?
221. Describe any automatic method of feeding water-tube boilers. Of what material are the tubes made?
222. Describe the construction of any steam turbine you are acquainted with, which is used on board ship. How is the expansion of steam effected? How many propeller shafts are employed, and how many propellers?
223. Is the same power in a steam turbine available to go astern as to go ahead?
224. Of what material are the propellers made in a steam turbine?
225. How many pounds of coal per indicated horse-power per hour are burnt with turbine engines? Name the type of boiler in use.
226. Describe the construction of a feed-water-heater and give the name of its manufacturer.
227. To about what temperature is the feed-water raised by passing through a feed-heater?
228. What fittings are usually placed on a feed-heater? Why are they necessary?
229. Describe any well-known independent feed-pumps.
230. Are independent feed-pumps automatic in their action? Explain the action.
231. What advantage, if any, have independent feed-pumps over feed-pumps worked by the main engines?
232. Describe the construction of a feed-filter, enumerating its valves and cocks.

233. How can the filter be cleaned? What ingredients are generally removed when cleaning takes place?

234. What is the intercepting material in a filter made of? How is it fitted?

235. Describe an evaporator, and mention the type.

236. What fittings are necessary with evaporators?

237. How is the brine got rid of in an evaporator?

238. How may the evaporator coils be cleaned?

239. What is a dynamo? Describe its various parts. For what is it used?

240. In what respect does an electric motor differ from a dynamo? Where are electric motors sometimes used on board ship?

241. Describe a system of electric lighting employed on board ship.

242. How is the position of a fault in the electric circuit discovered?

243. What is "sparking" and may it under some circumstances (naming them) be a danger?

244. What is "short-circuiting," and to what evil may it give rise?

245. What means are employed to prevent any part of the circuit becoming overheated?

246. Describe the features of an arc-lamp.

247. Describe the construction of a glow-lamp.

248. What is the usual candle-power of the small glow-lamps in general use on board ship?

249. Define the following terms: Ampere, volt, ohm, watt. What is the measure of an electrical horse-power?

250. Explain the uses of switches, brushes, commutators, cut-outs, field-magnets, armatures and resistance-coils.

251. Why is it desirable to fit a dynamo in a cool place on board ship?

252. What undesirable effect will ultimately occur to an electric wire whose sectional area is constantly diminishing, say, through corrosion?

253. What danger might arise from leading electric wires through coal bunkers?

254. Is it better to lead electric wires above or below side-scurtles? Why?

255. What instruments are used on board ship to ascertain the strength of an electric current?

256. In vessels fitted with hydraulic cranes, etc., where do they obtain their power? How is the hydraulic pressure kept at a relatively constant amount?

257. Describe any steam-steering gear you are acquainted with.

258. When the helm is put hard over and the ship is going full speed ahead, what prevents the rudder returning to the amidship position?

259. In the case of a steamship under way, does the officer or man manipulating the steam-steering wheel overcome any resistance exerted by the rudder?

260. Explain clearly what is being done by a helmsman manipulating the wheel of a steam-steering engine.

261. Is there any difference between the amount of horse-power required to put a helm hard over, in a given time, when the vessel is going full speed ahead, and when she is going full speed astern? This question refers to the case of a steamer fitted with one rudder only, and demands a more complete answer than merely "yes" or "no."

262. What precautions should be taken before removing a man-hole-door of a steam-boiler? In the absence of such precautions, what casualties might occur?

263. Describe the chief features of the engine-governor fitted to a steamer you have served in. Describe its action, give the maker's name and name of ship.

264. Name the principal parts of internal combustion engines, and briefly state their functions.

265. What kind of oil is usually employed in motor-engines? What is its flash-point? What is its specific gravity? What is its calorific power? What precautions are taken in its storage to guard the public against the casualty by fire or explosion?

266. How many cylinders are generally used in motor-engines? What kind of pistons are usually fitted? How frequently (measured in revolutions) is explosion per cylinder effected? How is explosion in the cylinder carried out?

267. Describe how an oil-motor is started. If starting proves difficult, where would you chiefly look for defects? How is piston speed modified? How is the speed of vessel varied? How is reversing effected?

268. Before examining an oil-motor with a naked light, what steps should be taken for safety's sake?

269. How frequently should an internal combustion engine be opened up for examination, cleaned, and its parts readjusted? What difficulty arises when the internal parts become foul with carbonized oil?

NOTE.—Questions should be read in the light of their context. Thus the "sparking" referred to in question 243 relates to the sparking in an electric lighting circuit on board ship. (*See* question 241.)

[*See Rule 28 (d).*]

Reading the Water-Gauges.

(Engineers and Engine-drivers.)

Notwithstanding that reading of the water-gauge is made a special feature in the examination of Engineers, many boiler casualties result from the Engineer of the watch either not understanding the construction of the water-gauge fittings or not satisfying himself by actual trial that the cocks, pipes, etc., are clear.

In one case, two furnace crowns came down in a steamer that was just starting on a voyage. The Engineers were satisfied that there was plenty of water in the boiler because the water-gauge showed full glass, and they called the attention of the Surveyor to this fact as being conclusive evidence that the casualty could not have resulted from shortness of water. On examination of the fittings, however, it was found that the cock between the boiler and the steam pipe leading to the gauge was shut, having been carelessly left in that position on the previous day when the mountings were overhauled for survey. Directly the cock was opened the water disappeared from the gauge-glass, and the Second Engineer admitted that he had blown down the boiler in order to lower the water level, as the glass was full.

Many steamers have had their furnaces brought down at sea in a similar manner to the above through what the Engineers of the watch have called "false water in the glass," and which on examination has been found to result from the top communication being choked.

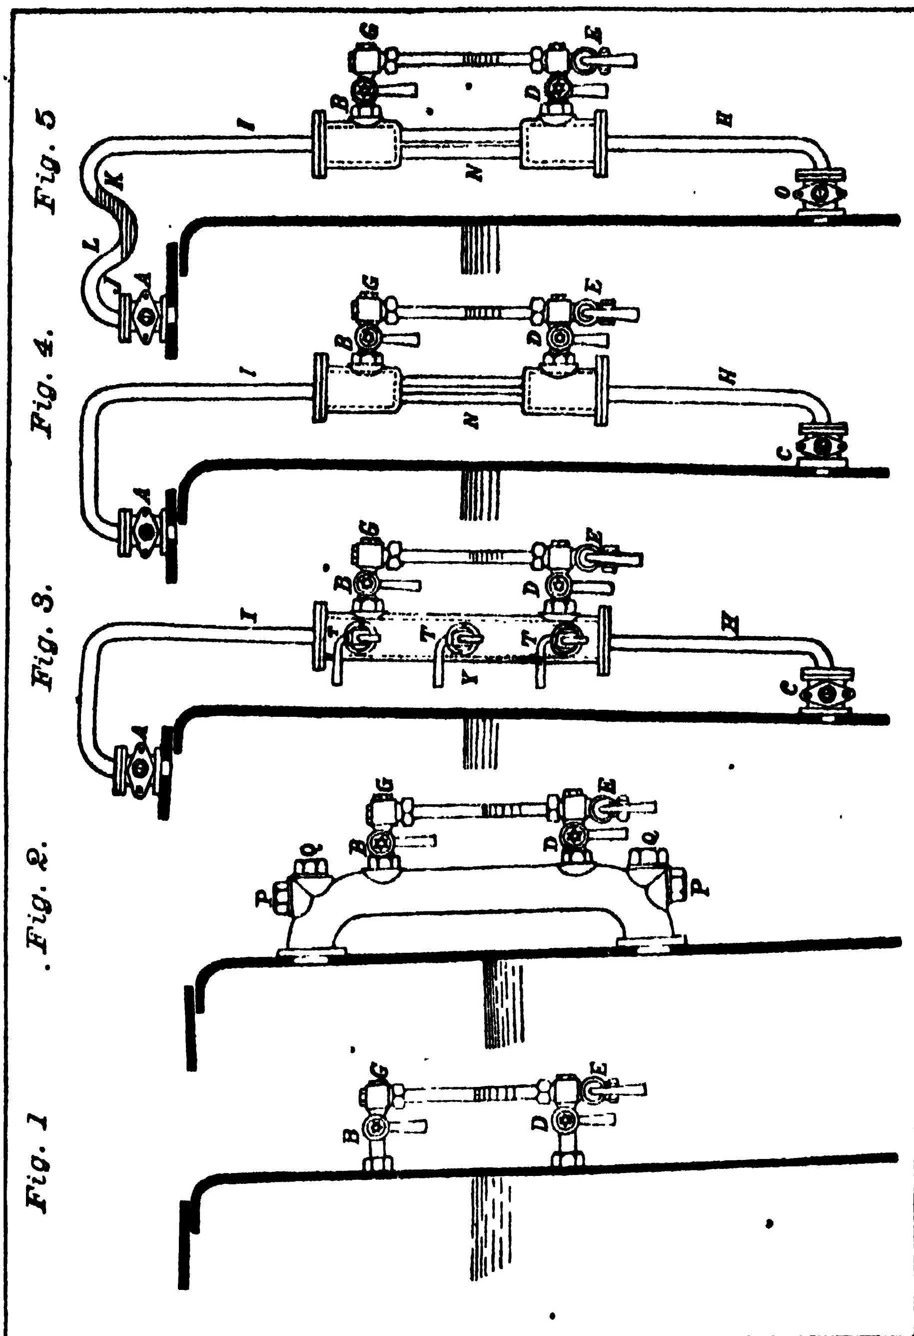

These casualties resulted from what, to say the least, was bad management, not false water.

Unless a candidate under examination is able to prove that he understands how to verify the indications of the water-gauge, he should not be passed in practical knowledge and, as failure in practical knowledge involves the candidate going to sea for another three months before being eligible for re-examination, the Examiner should explain to such candidate his error, after failing him, in order to prevent further casualties resulting from his want of knowledge on this subject.

The sketches, Figures 1, 2, 3, 4, and 5, Plate I, represent the usual methods of attaching water-gauge mountings to marine boilers. The

important features in each gauge and the method of verifying its indications are dealt with separately in the following remarks:—

Plate 1

REFERRING TO FIGURE 1 ONLY.

In this case the water-gauge cocks are attached direct to the boiler, and the accuracy of the gauge when the boiler is under steam can be tested as follows:—

First.—Let B remain open, then close cock D and open cock E, and if steam issues it proves that cock B and the passage through the top fitting and gauge-glass are clear. If no steam or water issues, either cock B or the passage through the top fitting and gauge-glass is chocked and the gauge cannot act properly until the obstruction is removed.

Second.—Close cock B and open D and E, and if water issues, cock D is clear. If no water or steam issues, either cock D or the passage from the boiler through the lower fitting is chocked and must be cleared before the gauge can act properly.

REFERRING TO FIGURE 2 ONLY.

In this case the gauge cocks are attached to a bent pipe of comparatively large diameter (at least 3 inches in the bore), the upper end of which communicates with the steam space, and the lower end with the water space of the boiler. Owing to the bore of the pipe being large it is not liable to become choked or stopped under the ordinary conditions of working. The water-gauge is, therefore, in practically the same condition as if it were attached direct to the boiler, as in Figure 1. This gauge, when at work, is tested in precisely the same manner as the one shown in Figure 1.

Screw plugs are inserted at P.P. and Q.Q., by the removal of which the apertures in the pipe can be cleared, if necessary, by the insertion of a wire or rod when steam is down.

REFERRING TO FIGURE 3 ONLY.

In this gauge there is an open communication from A to C through the column Y, and in order to "blow through the *glass*" it is only necessary to shut cocks D and B alternately keeping E open. But to "blow through the *water-gauge*," including the pipes H and I, it is necessary, after blowing through the glass as described above, to shut A and C alternately, at the same time keeping B, D and E open for such time as will ensure the complete discharge of the contents of the gauge and its connections. When B, D and C are clear and A choked the steam lodging in the glass and in the pipe I leading from column Y to A becomes condensed and the water flowing through C to take its place rises in column Y and in the glass to a level above that of the water in the boiler. In other words, the gauge shows a false level. If now E be opened and water is blown out, then on E being again closed the water in the gauge will rise higher than before and be still further misleading. On the other hand, when B, D and A are clear and C choked, the water, if any, in the glass is trapped and no longer rises and falls with the water in the boiler or with the motion of the vessel; it, however, slowly rises in the glass owing to the condensation of the steam in the upper part of the gauge until such time as E is opened when the whole of the water in the glass is blown out, and on E being closed the glass does not show any water notwithstanding that the water in the boiler may be at the proper level. When the test cocks T T T are attached to column Y, as shown in Figure 3, they cease to be reliable when either cock A or C or the pipe in connection therewith is choked, or nearly choked.

REFERRING TO FIGURE 4 ONLY.

Sometimes the water-gauge fittings are arranged as shown in Figures 4 and 5, with no passage up the column, the central portion (N) of the column, being simply a pillar or connecting piece of any convenient section between the upper and lower portions to which the cocks B and D are attached.

By this arrangement double communications are obviated and there is no need for what is known as "double shut off" in testing the accuracy of the gauge. When, however, the gauges are constructed in this manner the cocks B and D are unreliable as test cocks in the event of there being no glass in the gauge. This feature should be carefully noted. Moreover, when in working condition the reduction of pressure in the glass which arises when E is opened causes the water in pipe H to rise above its normal level. This objectionable feature should also be noted.

REFERRING TO FIGURE 5 ONLY.

Sometimes there is a bend, L, in the steam pipe, I, leading from cock A to cock B. This has occasionally escaped observation when new boilers have been fitted on board ship. In most cases this bend arises from the pipe being led in an abnormal direction to escape other pipes, beams or fittings near the smoke box. With such a bend the condensed steam collects in the pipe and falls to the bottom of the bend, and in time it completely fills the pipe from J to K. The steam from K down to the level of the water in the glass is thereby trapped and, as condensation proceeds, leads to a reduction of pressure in the pipe below that of the boiler and an equivalent rise of the water in the bend and also in the gauge glass. When the vessel is quiescent the water in the gauge glass increases in height until cock E is opened or until the pressure in the boiler is so much in excess of that in the lower part of pipe I, as to cause the water in the bend to be blown into the gauge glass. In either case instantaneous change to water level in the glass ensues.

In the ordinary course of working the phenomenon described above is more or less modified by the presence of air in the upper part of the gauge and by the rise and fall of the water in the boiler and gauge glass arising from the rolling or pitching motions of the vessel.

OTHER SPECIAL POINTS TO BE NOTED.

When the cocks A and C are omitted, as in Figure 2, it is owing to the bore of the stand pipe being sufficiently large to enable it to be regarded as part of the boiler. Such pipes require, however, to be examined and cleared at intervals by passing a rod through the holes provided for the purpose at P.P. and Q.Q.

Cocks at A and C are not necessary for the testing of gauges arranged as shown in Figures 4 and 5. Examiners ought, however, to make sure that candidates are aware of the impossibility of testing the reliability of the indications of water-gauges arranged as in Figure 3 when the cocks A and C are absent and of the effect which the choking of cock A or C, or pipe H or I has on the indications of the test cocks T T T attached to column Y.

Probably more than half the steamers afloat are fitted with water-gauges as shown in Figures 3 and 4, and it is therefore specially important that Engineer candidates should thoroughly understand their construction, the principle on which they act, and the steps which must be taken to keep them in an efficient condition.

When fitting a gauge glass into its place it is specially important that it should not be placed so high as to prevent a clearing rod being inserted at G, Figures 1, 2, 3, 4 and 5. This defect, especially if it occurs in a water-gauge attached to a boiler subject to priming, permits a rapid accumulation of scum around the top of the glass and results in the choking of the orifice leading from cock B to the gauge glass in each of the figures.

When a gauge glass is too short or is placed either too high or too low in the fittings, it is also liable to become choked by the packing material being forced over its ends by the glands whilst being screwed up.

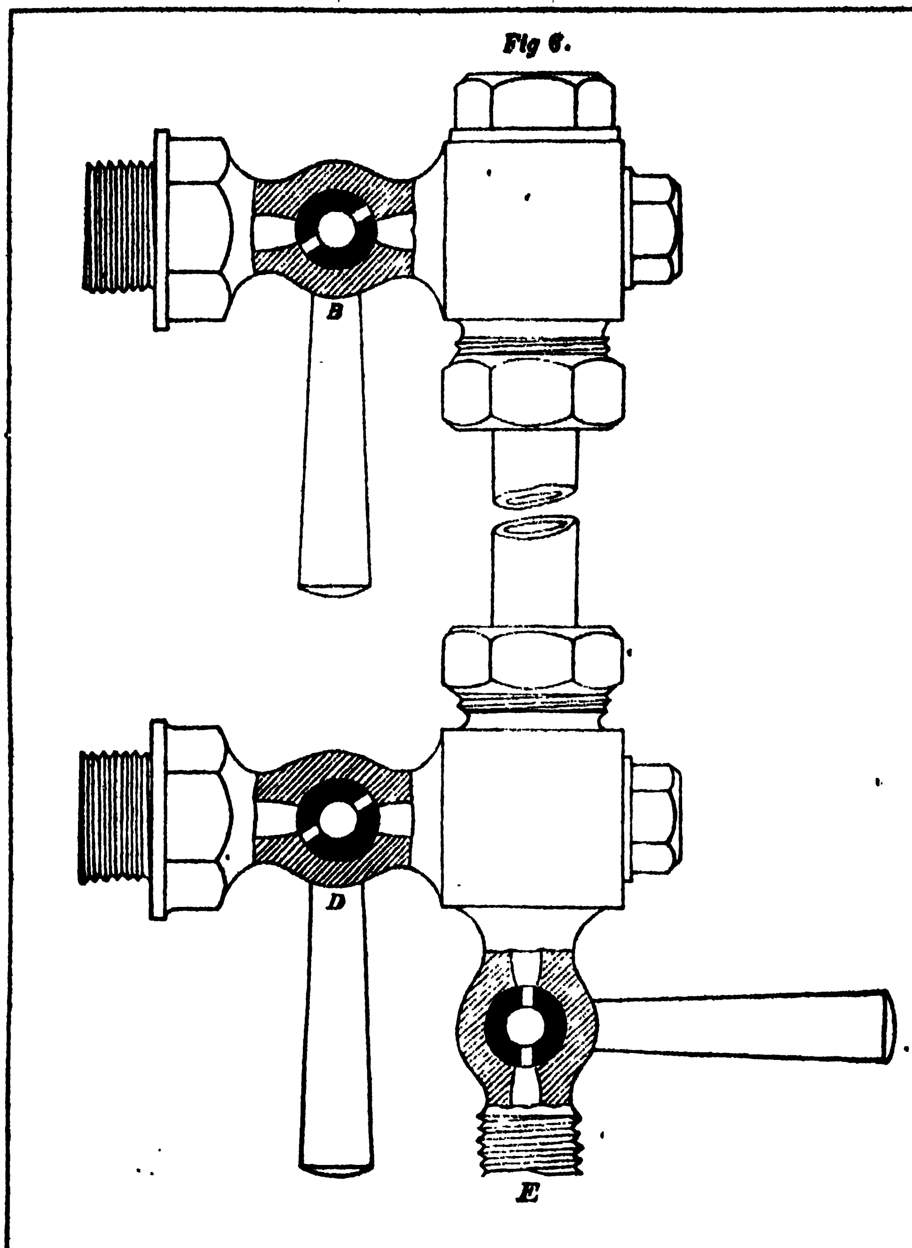

The use of unsuitable or insecure internal pipes in connection either with the ordinary glass gauge cocks of the description shown in Figure 1, or with test cocks which are jointed to the boiler itself should also be carefully guarded against.

Boiler casualties have resulted from the cocks B and D having the parts wrongly placed as shown in Figure 6, Plate 2. In one case of that kind, the Engineer in testing the water-gauge omitted to see that the passages in the cocks B and D were clear *when the handles were in their proper working position*. This defect could easily have been discovered if proper attention had been paid to the condition of the cocks. A defect of this nature may be due to faulty construction originally, or to the handle of the cock having been overstrained, and the neck twisted, Whether the passages in the plugs are fair and clear can, however, be verified in a few minutes. As an illustration, the water cock D, Figure 6, Plate 2, can be verified by blowing through E with B shut and then moving the handle of D to one side until it is just closed, and then to the other side until it is again just closed; the proper working position of the handle is about equally distant from each of the above position. The other cocks can be verified in the same manner.

Another serious casualty occurred through the handle of the cock A, Figure 3, having been twisted from its original position relatively to the orifice of the cock, resulting in the cock being shut when apparently open.

When a water-gauge, that is clear in all its parts, has been thoroughly blown through, the water in the glass rises above the level at which it formerly stood, immediately the drain cock E is closed, but if left undisturbed for a time it gradually falls to its former position. The amount of rise which occurs on these occasions depends chiefly on the temperature of the contents of the boiler and on the length of the pipes by which column Y is connected top and bottom to the boiler, but in cases where the gauge is of the description illustrated in Figures 3, 4 and 5, it amounts in high pressure boilers to

Plate 2.

about 4 inches, while the time occupied by the water in returning to its former level ranges from 30 to 40 minutes. The cause of this rise is twofold, namely, (*a*) the displacement of the comparatively cold water in pipe H by hotter, and proportionately lighter, water from the boiler, and (*b*) a slight condensation of the steam and a corresponding fractional reduction of pressure in pipe I. The cause of the gradual subsidence of the water in the glass to its former level is also of a dual character, namely, (*a*) the cooling of the water in pipe H, and (*b*) the diminution in the condensation of steam in pipe I owing to the collection therein of air released from the steam condensed.

These results will, however, be somewhat modified if the water in the boiler is of higher density than in pipe H, and this will nearly always be the case owing to the condensation of the steam in the glass and upper fittings of the water-gauge, causing the water in the lower part to be fresher than that in the boiler.

The Examiner should impress upon candidates the necessity for periodically blowing through the water-gauge on each boiler (no matter what the form may be) in a systematic and thorough manner, and, in cases where a boiler is fitted with two water-gauges, of keeping both in constant use; finally, he should further impress upon them the necessity for keeping the water-gauges well lighted, clean, and in all respects efficient.

Appendix D.

[*See Rules 28 (n) and 28 (o).*]

Examination in rough working drawing for an Engineer's Certificate of Competency.

1. The regulations in regard to the qualifications of a candidate for an Engineer's certificate of competency specify that—

He will be required to make an intelligible hand sketch, or a working drawing of some one or more of the principal parts of a steam-engine, and to mark in, without a copy, all the necessary dimensions in figures, so that the sketch or drawing could be worked from.

He must be able to state the general proportions borne by the principal parts of the machinery to each other.

2. In accordance with these clauses, a candidate for an Engineer's certificate is required to make a rough working drawing of the parts specified. An Engineer who has been some years in charge of marine engines and boilers ought to have familiarly in his mind the general construction of at least one set of engines and boilers, say, that set he was last with. Fine drawing is not expected, and in the proportions of the parts a wide margin will be allowed; absurd dimensions will be failure in practical knowledge.

3. The drawing must, however, be practically a working drawing, giving a sufficient number of views to show the parts fully—sections, plans, or elevations—just as the candidate would require to be supplied to him if he had to make the parts represented to the design of another person.

4. A clear hand sketch showing the construction completely, and fully dimensioned, will be accepted if the candidate prefers this alternative.

5. A portion only of the parts specified may be accepted in place of the whole, if that portion is sufficient to show that the candidate has a good practical idea of the construction of the parts, and a fair notion of their general proportions or dimensions.

6. Candidates are cautioned not to put on paper what they have not fully considered, and deliberately intend to be understood, as evidence of what they know about the construction of any part required.

7. The statements given in by a candidate may be in themselves, apparently, of little importance, but, as sample material from which the extent of the candidate's knowledge of engines and boilers is to be inferred, every detail which is glaringly inconsistent with a sound knowledge of the use of the part, or in which an essential consideration has evidently been overlooked, is an important element in the description which the candidate is giving of his own qualifications.

8. The candidate is advised not to begin more than he can clearly finish in the time allowed. An important object in this part of the examination is to ascertain whether the candidate can be trusted to mark all necessary dimensions upon a sketch or a drawing. The test of this is, practically, the making of the part from the sketch without having to supply additional dimensions, and without measuring the drawing. To prove this ability the candidate must fully dimension the parts shown in his sketch or drawing, notwithstanding that the parts may be correctly drawn to scale. A drawing is fully dimensioned when no part of it is left to the option of the party who is to work to the drawing.

9. To prevent misunderstanding, however, when the candidate has been led into showing more of the details than he has time fully to finish, he should name in the statement on the other side, the particular parts which he has fully dimensioned.

10. All dimensions should have lines and darts, to indicate distinctly the points between which the dimensions are given.

11. Beware of writing cross dimensions upon centre lines, or upon longitudinal dimension lines. This is not an order, but a recommendation.

12. The candidate is not expected to design anything; he has merely to sketch or draw something with which he is expected to be already familiar. At the same time he should call attention to any defect in the design of the article or apparatus. Omission to do so will imply want of practical knowledge.

13. Pencil in nothing after half-past 3; all the dimensions, the figures, and the darts must be inked in; employ the remaining time in examining the drawing and in inking in any figures which may have been before overlooked and in checking the dimension.

14. Make sure that you will have sufficient room on the drawing sheet to show all the necessary views. You can have another sheet of drawing paper if necessary. All the paper used must be forwarded with the drawing.

Chittagong Division.

Chittagong, the 27th June 1931.

Rules for the guidance of private candidates for the Matriculation Examination of 1932.

The following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bona-fide* school-masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned below:—

Comilla Zilla School, Noakhali R. K. Zilla School, Chittagong Collegiate School and Rangamati High English School.

Date of examination—7th, 8th, 9th, 10th and 11th December 1931.

Female candidates are not required to undergo any Test Examination.

Each private student will pay a fee of Rs. 5 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the headmaster of the institution in which he appears.

4. Application for permission to appear at the Test Examination must be sent in time so as to reach this office not later than the 15th November 1931. The information to be given and the documents to be appended, in original, are the following:—

(*a*) Name of the school in which the candidate last studied.

(*b*) Transfer certificate, in original, granted to the candidate by the headmaster of the school in which he last studied; or

(*c*) In the case of a candidate who previously appeared at the Matriculation Examination, Controller's receipt, in original, for the fee paid.

(*d*) Age of the candidate. No candidate, who will not have completed the age of 15 years on the first day of the Matriculation Examination, will be allowed to appear at it.

(*e*) In the case of school-masters, a certificate of good conduct from the secretary of the school in which he is serving or from the Inspector of the district or subdivision concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts:—

(i) Residence.
(ii) Father's name.
(iii) Second language besides English.
(iv) Vernacular language for composition.
(v) Vernacular language from which translation is to be made into English in the first English paper.
(vi) Which of the following subjects he has taken up:—

(1) Additional mathematics.
(2) Additional paper in the classical language.
(3) History.
(4) Geography.
(5) Elementary mechanics.

(vii) The name of the school at the Test Examination of which the candidate wishes to appear must be stated. Candidates of the plains districts will not be allowed to appear at the Test Examination of the Rangamati High English School.

N.B.—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1930 and then left the school can, under no circumstances, be allowed to appear at the Test Examination.

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the Test Examination with the headmaster of the institution in which he intends to appear, at least 15 days before the date of that examination. The headmaster will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The headmasters of the institutions named in paragraph 3 above should direct private students who satisfy the test to appear before them in due time, with their applications for admission to the Matriculation Examination, and to sign them in their presence. They will then grant the necessary certificate and forward the applications to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held in March 1932, the exact dates of which will be notified by the University.

11. Applications and fees for admission to the Matriculation Examination must reach the office of the Controller of Examinations on or before the date to be fixed by the University.

KAMALUDDIN AHMAD,

Inspr. of Schools, Chittagong Division (offg.).

NOTIFICATION.

Examination in the Art of Teaching, Burdwan Division.

Chinsura, the 29th June 1931.

An examination in the Art and Practice of Teaching for teachers of English subjects in Boys' Secondary Schools (aided and unaided) will be held at the Hooghly Training School, on Monday, the 7th September 1931, at 11 a.m., and on the following date, if necessary. The examination of teachers of vernacular subjects and oriental classical languages of the same schools will also be held on the same date and at the same place and hour.

2. The following teachers are eligible for the examinations:—

(a) Teachers of English subjects, who have passed (i) the Matriculation or some higher University Examination, or (ii) the Middle English Scholarship Examination or the terminal examination at the end of the middle stage of instruction. The examination of these teachers will be conducted in English.

(b) Teachers of vernacular subjects, who have passed the same examinations, or the Middle Vernacular Scholarship Examination, or the terminal examination at the end of the middle stage of instruction. The examination of these teachers will be conducted in vernacular.

(c) Pandits and Maulvis employed in teaching an oriental classical language other than Pandits in Sanskrit *tols* and Maulvis in Madrasahs. They must have passed the Sanskrit Title Examination or the Final Examination of a Senior Grade Madrasah. The examination in the case of these classes of teachers will be conducted either in English or vernacular at the option of the candidate.

3. The examination will consist of—

(a) A practical examination in class control, the candidate being required to keep a class of at least a dozen boys attentive and fully occupied throughout a lesson.

(b) A practical test of teaching ability, the candidate being required to give two lessons on any two of the subjects—English, Bengali, Sanskrit, Arabic, Pensian, Urdu, History, Geography, Arithmetic, Algebra, Geometry, etc.

(c) An oral examination, in which the Inspector of Schools or other examiner will ask questions on the Art of Teaching, object lessons, class management, organisation and discipline.

4. The following books are recommended for study by the candidate:—

(a) For teachers of English subjects—

(1) Indian Teachers' Guide, by P. Wren, (2) Indian School Organisation, by P. Wren, (3) Suggestions for the consideration of Teachers (Board of Education, Whitehall), (4) Talks to Teachers (James), (5) Art of Teaching by D. Salmon, (6) Direct Method by Tate and Rajagopalchari.

(b) For teachers of vernacular subjects—

(1) বিবিধ বিধান by A. N. Adhikari, (2) Teachers' Manual by Khan Bahadur Bhasanullah, (3) পাঠটীকা লিখিবার পদ্ধতি by Jagannath Dey, (4) মনোবিজ্ঞান by S. C. Brahmachary, (5) ভূগোল শিক্ষা প্রণালী by I. Haque.

(c) Teachers of oriental classical languages may study any of the above sets of books.

5. Intending candidates from High Schools should submit their applications through the Headmasters and teachers of Middle Schools and Junior Madrasahs through the District Inspectors, so as to reach this office *not later than the 23rd August 1931.* Every candidate will produce at the time of the examination the certificate of his having passed the University or other examination, which admits him to the present examination. The following information should accompany the application:—

(1) Name (in full).

(2) Name of father (in full).

(3) Names of native village and district.

(4) Last examination passed.

(5) Year of passing.

(6) Period of service as a teacher.

(7) Present appointment with date (mention whether he is a teacher of English subjects or vernacular subjects or of oriental languages).

(8) Two class subjects in which he wishes to be examined.

(9) Signature of applicant with full address.

6. Every candidate must bring with him at the time of examination two lesson notes on the subjects in which he wishes to give lessons. These notes should be made over to the examiner at the time of the practical examination.

7. Candidates should state whether they sat for the examination previously; if so, how often, giving dates.

Secy., State Medical Faculty of Bengal.

Burdwan Division.

Chinsura, the 7th July 1931.

Rules for the admission of Private Candidates to the Calcutta University Matriculation Examination, 1932.

1. Private students are those who have not attended any recognized or unrecognized High English School for at least one year previous to the Matriculation Examination. The term "private students" includes teachers of schools.

2. Private candidates must appear at the Test Examination to be held on Monday, the 14th December 1931, and the following days at any of the Government High Schools in the Burdwan Division.

3. Applications for admission to the Test Examination must be submitted through the head master of the school in which the applicant last read. The head master, in fowarding the application to this office, should note whether he recommends the application or not. If he does not, his reasons should be stated. The information to be given in, and the documents to be appended (in original) to, the application are the following:--

(*a*) Name of the school in which the candidate last studied.

(*b*) Transfer certificate (in original) granted to the candidate by the head master of the school in which he last read; or

In the case of a candidate who previously appeared at the Entrance or Matriculation Examination, the Registrar's receipt (in original) for the fee paid.

(*c*) Age of the candidate. No candidate is eligible who has not completed the age of fifteen years on the first day of the Matriculation Examination.

(*d*) In the case of school masters, a certificate of good conduct from the Secretary of the school in which the candidate is serving.

(*e*) A certificate from a respectable gentleman other than a relative to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation Examination held in March 1931. Detailed information is needed under this head. The person granting the certificate should state his social or professional position.

(*f*) Names of subjects in which the candidate wishes to be examined.

(*g*) Postal address.

4. Each private candidate will have to pay a fee of Rs. 6, which should be remitted to the Inspector of Schools, Burdwan Division, Chinsura, along with his application for admission to the Test Examination by the 20th November 1931, after which date a fine of Rs. 2 will have to be paid for each week's delay. *Under no circumstance will the admission fee be refunded.* No private candidate will be admitted to the Test Examination, unless he is accompanied, for the purpose of identification, by some person known to the office of the Inspector of Schools, Burdwan Division, or to the staff of the Zilla School where he will appear. Those who are not *bonâ fide* residents of the Burdwan Division will not be admitted to the Test Examination.

5. **The fee for the Matriculation Examination should NOT be sent to this office.** It should be sent to the Registrar by the candidate himself, together with his countersigned application.

6. The Matriculation Examination for 1932 will be held on the 9th March 1932 and the following days or any other subsequent dates declared by the University.

INTERMEDIATE AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* teachers of English schools, who have served as such for the full period of three academical years preceding the examinations, will be admitted to the abovementioned examinations.

2. Candidates for the Intermediate and B.A. Examinations must produce certificates of character and length of service from the Secretaries of their respective schools. Candidates for the B.A. Examination must forward with their applications their F.A. or I.A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Candidates admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B.A. Examinations are informed that their applications for admission to these examinations will not be considered, unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates, who have applied for or have obtained the special permission of the Senate for the purpose, are required, under section 9, Chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 20th December 1931 at the latest, together with other papers as mentioned in rules 2 and 3, after which no application will be received.

5. The dates of Intermediate and B.A. Examinations of 1932 may be obtained from the Registrar, Calcutta University.

K. C. RAY,
Inspector of Schools.

Presidency Division.

NOTIFICATION.

40/1A, Free School Street, Calcutta, the 29th June 1931.

Test Examination of private candidates for the Matriculation Examination of 1932.

A Test Examination of private candidates will be held in the Senate Hall, Calcutta, from Monday, the 30th November 1931. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private candidates" includes schoolmasters. A non-Bengali candidate should produce an affidavit sworn by his legal guardian before a Magistrate that the candidate has been in residence in any of the districts of the Presidency Division including Calcutta for at least one year before the date of the examination.

2. (*a*) Private candidates are those who have not attended any school, recognised or unrecognised, imparting general education for at least one year previous to the Matriculation Examination. They should produce proof that they have not attended any school for such period.

(*b*) They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school.

(*c*) The transfer certificates granted to them by the authorities of the schools in which they studied last and the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation Examination must be submitted in original along with the application for permission to appear at the Test Examination.

(*d*) A statement of the antecedents of the candidate should accompany his application. He should state whether he has read in any unrecognised school, and, if so, in what school and what year. A student, who failed to pass the annual examination for promotion to the first class at the end of the year 1930 and then left school, will in no circumstances be allowed to appear at the Test Examination of 1931.

3. *Bona fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination. They must produce certificates of service and character from their employers or from the District Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation Examination unless he has completed the age of fifteen years on the first day of the month in which the Matriculation Examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, not later than the 5th October 1931 (under no circumstances an application for permission to sit for the said examination will be entertained after the 3rd November 1931) his application for admission to the Test Examination, with the following particulars:—

(1) Age, (2) home district and residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation Examination, (5) classical language, (6) vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.

(*b*) Additional paper in a classical language.

(*c*) History.

(*d*) Geography.

(*e*) Elementary Mechanics.

Candidates may only offer one of the following vernacular and classical subjects (compulsory or additional):—

Vernaculars—(*i*) Bengali, (*ii*) Hindi, (*iii*) Urdu, (*iv*) Alternative English for those whose vernacular is neither Bengali nor Hindi nor Urdu.

Classics (*i*) Sanskrit, (*ii*) Pali, (*iii*) Persian, (*iv*) Arabic.

6. The admission fee for the examination is Rs. 6 for each candidate. This must be remitted with the application on or before the prescribed date (5th October 1931), after which a fine of Rs. 2 will be imposed for each week's delay. This fee together with fine, if any, should be deposited into a Government Treasury or Sub-Treasury in Bengal and the chalan showing the deposit should be attached to the application which must reach this office on or before the prescribed date. *In no circumstances will the admission fee be refunded.* All examinees must obtain receipts for fees from the Inspector's office, which should be shown to the Superintendent of the Examination Hall on the first day of the examination.

7. No private student will be admitted to the Test Examination unless he is identified to the satisfaction of the Superintendent at the Examination Hall during the examination by a Government servant who is not in the inferior service or by a teacher in any recognised college or high school.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, as special cases, be permitted to sit at the Test Examination at the nearest Government High English School. They will be supplied with printed question papers from this office to which their answer papers should be sent by the head master concerned.

10. The date of the Matriculation Examination in 1932 will be notified hereafter.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the date to be fixed by the University.

Intermediate and B.A. Examinations in 1932.

Subdivisional Inspectors, Sub-Inspectors and *bona fide* teachers of English schools in the Presidency Division, who have been employed as such for at least three years preceding the examination, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 1st December 1931.*

1. In accordance with section 9, Chapter XV of the revised regulations dealing with the registration of University students, all candidates who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of affiliated institutions, and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B.A. Examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F.A., I.A., or I.Sc. certificates and candidates for the Intermediate Examination their Entrance and Matriculation certificates, together with a letter in original from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The date of the Intermediate and B.A. Examinations in 1932 will be notified hereafter.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before the dates to be fixed by the University*, and must be sent to that office by the candidates direct.

Certificate of Approval.

No. 3449Com.—18th July 1931.—With reference to rule 7 of the rules issued by the Government of India with their Resolution No. 7552—7581-121, dated the 15th September 1913, for regulating the grant by Local Governments of licences to prospect for minerals and the grant of mining leases in British India, it is hereby certified that Mr. S. S. Guzdar of 226, Bowbazar Street, Calcutta, is approved by the Government of Bengal as a fit and proper person to whom such licences or leases can be granted in the Presidency of Bengal.

2. Under rule 8 of the aforesaid rules this certificate will expire at midnight on the 31st of December 1931.

DECLARATION.

No. 3420Com.—16th July 1931.—Whereas certain land was acquired by Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for such portion of the Darulah siding, East Indian Railway, as lies between chainage 12·34 and chainage 19·50 and as is edged with pink on plan L.A.M.A. No. 607, and whereas coal mines at Darulah colliery are situate under the said land, and whereas the New Kendah Coal Company, Limited, have given notice to Government, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as the Samla seam, and whereas the mines have been inspected by the officer appointed by

Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas Government is willing to pay compensation to all parties having interest in the said mines underlying the said land, and whereas the said New Kendah Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Now, therefore, the Governor in Council is pleased to declare, under section 5, sub-section (2), clause (b) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said New Kendah Coal Company, Limited, in the manner and subject to the restrictions below specified, viz.:—

(1) No gallery shall be driven nor shall any coal be extracted under the area hatched with yellow on the plan.

(2) No gallery shall be driven nor shall any coal be extracted where the distance from the natural surface of the ground or the bottom of an artificial cutting to the top of the excavation, if made, is less than 50 feet.

(3) Where the distance from the natural surface of the ground or the bottom of an artificial cutting to the top of the excavation, if made, is 50 feet or more, galleries, not exceeding 12 feet in width by 12 feet in height, may be driven at distances apart not less than 60 feet, centre to centre, forming pillars, not less than 48 feet square, to be left unworked.

(4) Manholes, not exceeding 6 feet in height by 3 feet in width by 4 feet in depth, may be made where required by any rules made under the Indian Mines Act, 1923.

(5) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(6) Any collapse of workings or symptoms of collapse or crush which may endanger the stability of the acquired land shall be reported to the Chief Inspector of Mines without delay.

(7) These restrictions apply to the Samla seam only at Darulah colliery and to the area edged with pink on the plan, and the New Kendah Coal Company, Limited, shall give notice under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land,

and that in all the above cases except to comply with the above conditions no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L.A.M.A. No. 607 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

No. 30Mne.—18th July 1931.—In exercise of the powers conferred by sections 54 and 67 of the Inland Steam-vessels Act, 1917 (I of 1917), the Governor in Council is pleased to make the following rules regarding the provision of gangways and shelters for the use of passengers of inland steam-vessels:—

Rules.

I. (a) Gangways over which passengers embark and disembark to and from the river bank shall consist of not less than two widths of planking securely fastened together of a total width of not less than 2 feet and a portable hand rail provided for each gangway.

(b) Gangways over which passengers embark and disembark to or from pontoons or jetties shall be so constructed as to form one unit with a total width of not less than 2 feet and shall be fitted with a fixed hand rail on each side.

(c) Where practicable two gangways shall be provided one for embarking or disembarking passangers and the other for loading or discharging cargo. If it is not practicable to provide two gangways, on no account may passengers be embarked or disembarked and cargo loaded or discharged at the same time over the same gangway.

Penalty for breach of the rule is a fine which may extend to Rs. 50 for each offence, on the master of the vessel.

II. Every vessel fitted with electric light shall be provided with a cluster or flood light placed on each side of the vessel in such a position as to illuminate the passenger gangway at whatever place passengers are landed or embarked. Vessels not fitted with electric light shall be provided with efficient oil lamps to illuminate the passenger gangway.

Penalty for breach of the rule is a fine which may extend to Rs. 50 for each offence, on the master of the vessel.

III. At each landing place where not otherwise provided for and where the weekly average number of persons embarked or disembarked exceeds 500, a shelter with suitable lights shall be provided on the bank having a separate compartment for females and so constructed as to withstand and give shelter from sun, wind and rain.

Provided that in the case of services run exclusively during the day, the passengers' shelters need not be provided with lights.

Penalty for breach of the rule is a fine which may extend to Rs. 50 for the first offence and a separate penalty of Rs. 10 for each day for continuing the offence, on the owner or agent of the vessel until the shelter with suitable lights is provided.

HIGH COURT NOTICE.

Original Side.

Calcutta, the 15th July 1931.

It is ordered that the following be passed and added to the Rules of the High Court, 1914 (3rd edition, 1930), with effect from 17th August 1931:—

I. That the following rules to be numbered 5A and 7A and be added to Chapter XXI:—

5A. In every order directing the appointment of the Official Receiver of immoveable property, there shall, unless otherwise ordered, be inserted a direction that the Official Receiver shall have all the powers provided for in O.XL, r.1 (d) of the Code, except that he shall not, without the leave of the Court, (1) grant leases for a term exceeding three years, or (2) bring suits except suits for rent or ejectment where the rents are in arrears for more than two months, or (3) institute an appeal in any Court (except from a decree in a rent suit or ejectment suit) where the value of appeal is over Rs. 1,000, or (4) expend on the repairs of any property, in any period of two years, more than half of the net annual rental of the property to be repaired, such rental being calculated at the amount at which the property to be repaired would let when in a fair state of repair.

7A. The order appointing Official Receiver shall be in Form 1A, or as the Court or Judge may direct.

II. That the following form to be numbered 1A and be added to Appendix F referred to in Chapter XXI:—

Appendix F.

Form No. 1A.

(Chapter XXI, rule 7A.)

It is ordered that the Official Receiver of this Court be and he is hereby appointed the receiver of the moveable property and of the rents, issues and profits of the immoveable property belonging to the estate of A.B., the intestate in the pleadings in this suit named, with power to get in and collect the outstanding debts and claims due to the estate of the said intestate and with all the powers provided for in O.XL, r.1 (d) of the Civil Procedure Code, except that he shall not, without the leave of the Court, (1) grant leases for a term exceeding three years or (2) bring suits except suits for rent or ejectment where the rents are in arrears for more than two months or (3) institute an appeal in any Court (except from a decree in a rent suit or ejectment suit) where the value of the appeal is over Rs. 1,000 or (4) expend on the repairs of any property, in any period of two years, more than half of the net annual rental of the property to be repaired, such rental being calculated at the amount at which the property to be repaired would let when in a fair state of repair. And it is further ordered that the defendants and all persons claiming under them do deliver up quiet possession of the said property, moveable and immoveable, of the said intestate together with all leases, agreements for lease, kabuliyats, accounts, books, papers, memoranda and writings relating thereto to the Official Receiver. And it is further ordered that the Official Receiver do take possession of the said property, moveable and immoveable, and collect the rents, issues and profits of the said immoveable property and that the tenants and occupiers do attorn and pay their rents in arrears and growing rents to the Official Receiver. And it is further ordered that the Official Receiver shall have power to bring and defend suits in his own name and shall also have power to use the names of the plaintiffs and defendants who are to be indemnified out of the estate and effect of the said intestate. And it is further ordered that the receipt or receipts of the Official Receiver shall be a sufficient discharge for all such sum or sums of money or property as shall be paid or delivered to him as such receiver as aforesaid. And it is further ordered (where an additional office establishment is required) that the Official Receiver shall be allowed to charge to the estate in addition to his own office establishment the following further establishment, namely,

By order of the Full Court,

MAURICE REMFRY, *Registrar.*

Educational Notices.

Presidency Division.

NOTIFICATION.

40/1A, Free School Street, Calcutta, the 29th June 1931.

Test Examination of private candidates for the Matriculation Examination of 1932.

A Test Examination of private candidates will be held in the Senate Hall, Calcutta, from Monday, the 30th November 1931. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private candidates" includes schoolmasters. A non-Bengali candidate should produce an affidavit sworn by his legal guardian before a Magistrate that the candidate has been in residence in any of the districts of the Presidency Division including Calcutta for at least one year before the date of the examination.

2. (*a*) Private candidates are those who have not attended any school, recognised or unrecognised, imparting general education for at least one year previous to the Matriculation Examination. They should produce proof that they have not attended any school for such period.

(*b*) They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school.

(*c*) The transfer certificates granted to them by the authorities of the schools in which they studied last and the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation Examination must be submitted in original along with the application for permission to appear at the Test Examination.

(*d*) A statement of the antecedents of the candidate should accompany his application. He should state whether he has read in any unrecognised school, and, if so, in what school and what year. A student, who failed to pass the annual examination for promotion to the first class at the end of the year 1930 and then left school, will in no circumstances be allowed to appear at the Test Examination of 1931.

3. *Bona fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination. They must produce certificates of service and character from their employers or from the District Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation Examination unless he has completed the age of fifteen years on the first day of the month in which the Matriculation Examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally,* not later than the 5th October 1931 (under no circumstances an application for permission to sit for the said examination will be entertained after the 3rd November 1931) his application for admission to the Test Examination, with the following particulars:—

(1) Age, (2) home district and residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation Examination, (5) classical language, (6) vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.

(*b*) Additional paper in a classical language.

(*c*) History.

(*d*) Geography.

(*e*) Elementary Mechanics.

Candidates may only offer one of the following vernacular and classical subjects (compulsory or additional):—

Vernaculars—(*i*) Bengali, (*ii*) Hindi, (*iii*) Urdu, (*iv*) Alternative English for those whose vernacular is neither Bengali nor Hindi nor Urdu.

Classics (*i*) Sanskrit, (*ii*) Pali, (*iii*) Persian, (*iv*) Arabic.

6. The admission fee for the examination is Rs. 6 for each candidate. This must be remitted with the application on or before the prescribed date (5th October 1931), after which a fine of Rs. 2 will be imposed for each week's delay. This fee together with fine, if any, should be deposited into a Government Treasury or Sub-Treasury in Bengal and the chalan showing the deposit should be attached to the application which must reach this office on or before the prescribed date. *In no circumstances will the admission fee be refunded.* All examinees must obtain receipts for fees from the Inspector's office, which should be shown to the Superintendent of the Examination Hall on the first day of the examination.

7. No private student will be admitted to the Test Examination unless he is identified to the satisfaction of the Superintendent at the Examination Hall during the examination by a Government servant who is not in the inferior service or by a teacher in any recognised college or high school.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, as special cases, be permitted to sit at the Test Examination at the nearest Government High English School. They will be supplied with printed question papers from this office to which their answer papers should be sent by the head master concerned.

10. The date of the Matriculation Examination in 1932 will be notified hereafter.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the date to be fixed by the University.

12. Programme of Test Examination—

Intermediate and B.A. Examinations in 1932.

Subdivisional Inspectors, Sub-Inspectors and *bona fide* teachers of English schools in the Presidency Division, who have been employed as such for at least three years preceding the examination, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 1st December 1931.*

1. In accordance with section 9, Chapter XV of the revised regulations dealing with the registration of University students, all candidates who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of affiliated institutions, and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B.A. Examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F.A., I.A., or I.Sc. certificates and candidates for the Intermediate Examination their Entrance and Matriculation certificates, together with a letter in original from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed forn of application and supply all the information required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The date of the Intermediate and B.A. Examinations in 1932 will be notified hereafter.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before the dates to be fixed by the University*, and must be sent to that office by the candidates direct.

K. N. MITTER,
Inspector of Schools.

Burdwan Division.

Chinsura, the 7th July 1931.

Rules for the admission of Private Candidates to the Calcutta University Matriculation Examination, 1932.

1. Private students are those who have not attended any recognized or unrecognized High English School for at least one year previous to the Matriculation Examination. The term "private students" includes teachers of schools.

2. Private candidates must appear at the Test Examination to be held on Monday, the 14th December 1931, and the following days at any of the Government High Schools in the Burdwan Division.

3. Applications for admission to the Test Examination must be submitted through the head master of the school in which the applicant last read. The head master, in fowarding the application to this office, should note whether he recommends the application or not. If he does not, his reasons should be stated. The information to be given in, and the documents to be appended (in original) to, the application are the following:—

(a) Name of the school in which the candidate last studied.

(b) Transfer certificate (in original) granted to the candidate by the head master of the school in which he last read; or

In the case of a candidate who previously appeared at the Entrance or Matriculation Examination, the Registrar's receipt (in original) for the fee paid.

(c) Age of the candidate. No candidate is eligible who has not completed the age of fifteen years on the first day of the Matriculation Examination.

(d) In the case of school masters, a certificate of good conduct from the Secretary of the school in which the candidate is serving.

(e) A certificate from a respectable gentleman other than a relative to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation Examination held in March 1931. Detailed information is needed under this head. The person granting the certificate should state his social or professional position.

(f) Names of subjects in which the candidate wishes to be examined.

(g) Postal address.

4. Each private candidate will have to pay a fee of Rs. 6, which should be remitted to the Inspector of Schools, Burdwan Division, Chinsura, along with his application for admission to the Test Examination by the 20th November 1931, after which date a fine of Rs. 2 will have to be paid for each week's delay. *Under no circumstance will the admission fee be refunded.* No private candidate will be admitted to the Test Examination, unless he is accompanied, for the purpose of identification, by some person known to the office of the Inspector of Schools, Burdwan Division, or to the staff of the Zilla School where he will appear. Those who are not *bonâ fide* residents of the Burdwan Division will not be admitted to the Test Examination.

5. **The fee for the Matriculation Examination should NOT be sent to this office.** It should be sent to the Registrar by the candidate himself, together with his countersigned application.

6. The Matriculation Examination for 1932 will be held on the 9th March 1932 and the following days or any other subsequent dates declared by the University.

INTERMEDIATE AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* teachers of English schools, who have served as such for the full period of three academical years preceding the examinations, will be admitted to the abovementioned examinations.

2. Candidates for the Intermediate and B.A. Examinations must produce certificates of character and length of service from the Secretaries of their respective schools. Candidates for the B.A. Examination must forward with their applications their F.A. or I.A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Candidates admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B.A. Examinations are informed that their applications for admission to these examinations will not be considered, unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates, who have applied for or have obtained the special permission of the Senate for the purpose, are required, under section 9, Chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 20th December 1931 at the latest, together with other papers as mentioned in rules 2 and 3, after which no application will be received.

5. The dates of Intermediate and B.A. Examinations of 1932 may be obtained from the Registrar, Calcutta University.

K. C. RAY,
Inspector of Schools.

Examination in the Art of Teaching, Burdwan Division.

Chinsura, the 29th June 1931.

An examination in the Art and Practice of Teaching for teachers of English subjects in Boys' Secondary Schools (aided and unaided) will be held at the Hooghly Training School, on Monday, the 7th September 1931, at 11 a.m., and on the following date, if necessary. The examination of teachers of vernacular subjects and oriental classical languages of the same schools will also be held on the same date and at the same place and hour.

2. The following teachers are eligible for the examinations:—

(*a*) Teachers of English subjects, who have passed (*i*) the Matriculation or some higher University Examination, or (*ii*) the Middle English Scholarship Examination or the terminal examination at the end of the middle stage of instruction. The examination of these teachers will be conducted in English.

(*b*) Teachers of vernacular subjects, who have passed the same examinations, or the Middle Vernacular Scholarship Examination, or the terminal examination at the end of the middle stage of instruction. The examination of these teachers will be conducted in vernacular.

(*c*) Pandits and Maulvis employed in teaching an oriental classical language other than Pandits in Sanskrit *tols* and Maulvis in Madrasahs. They must have passed the Sanskrit Title Examination or the Final Examination of a Senior Grade Madrasah. The examination in the case of these classes of teachers will be conducted either in English or vernacular at the option of the candidate.

3. The examination will consist of—

(*a*) A practical examination in class control, the candidate being required to keep a class of at least a dozen boys attentive and fully occupied throughout a lesson.

(*b*) A practical test of teaching ability, the candidate being required to give two lessons on any two of the subjects—English, Bengali, Sanskrit, Arabic, Persian, Urdu, History, Geography, Arithmetic, Algebra, Geometry, etc.

(*c*) An oral examination, in which the Inspector of Schools or other examiner will ask questions on the Art of Teaching, object lessons, class management, organisation and discipline.

CALCUTTA, *the 11th July 1931.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 18th July 1931.

Monthly Weather and Crop Report of Bengal for June 1931.

I. **Character of the season.**—During the month under review, the rainfall was below the average, except in Pabna and Cooch-Behar State where it was above the normal. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for winter paddy and sowing of the same in nurseries continued favourably. Harvesting of autumn paddy and lowland jute commenced in parts of East Bengal during the month. Transplantation of winter rice commenced in some districts.

III. **State of standing crops.**—The condition of standing crops was reported to be generally satisfactory.

IV. **Prospects and probable outturn.**—The prospects of deep water paddy, sugarcane and other standing crops were reported to be generally promising.

V. **Damage to standing crops.**—Some damage to standing autumn crops by heavy rain was reported from parts of East Bengal.

VI. **Condition of agricultural stock.**—The condition of live-stock was, on the whole, fair. Sporadic cases of cattle-disease, however, were reported from nine districts of the Province.

VII. **Failure of pasturage and fodder.**—The supply of fodder was reported to be generally sufficient.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the retail prices of common rice of the cheapest quality rose in five districts, fell in nine and remained stationary in the rest of the Presidency. The prices varied from 13¾ seers per rupee in Midnapore to 9 seers in Faridpur.

IX. **Condition of agricultural population.**—The condition of agricultural population is not satisfactory owing to fall in the prices of jute and other staples. Distress continues to prevail in parts of Nadia, Bogra, Rangpur and Pabna where distribution of agricultural loans and test relief works are being continued.

Resolution on the Annual Report of the Bengal Smoke Nuisances Commission for the year 1930.

GOVERNMENT OF BENGAL.

Commerce Department.

CALCUTTA, THE 16TH JULY 1931.

RESOLUTION —No. 3425Com.

Read—

The Annual Report of the Bengal Smoke Nuisances Commission for the year 1930.

The report records another year's steady progress in the removal of smoke from the air of Calcutta and its immediate environs. During the year a 27 per cent. reduction of daily black smoke was brought about by the efforts of the Commission. The average emission from each factory chimney during the previous year was the equivalent of ·3 minutes of dense black smoke per hour; during the year under report it was reduced to ·18 minutes, which is by far the lowest recorded figure so far. The progress recorded during the year was all the more satisfactory in view of the fact that it was achieved during a period of abnormal trade depression, when manufacturers were not unnaturally hesitant in undertaking new commitments. The Governor in Council notes with pleasure the successful action of the Commission in aiding rice-husking mills and brickfields. The progress achieved in each of these cases during the year under report has been particularly noteworthy and reflects great credit on the Commission and its technical staff.

2. Unfortunately, owing to financial stringency, Government have not been able to give effect to several recommendations made to them by the Commission, particularly with respect to the appointment of smoke observers and to the provision of further finance. The proposals made by the Commission have been sympathetically received, but their fulfilment, like that of many other proposals, must await better times.

3. The Governor in Council, in thanking the Commission for its useful work, desires particularly to mention the work of Mr. John Robson, who has been Chief Inspector and Secretary of the Commission for twenty-five years, and who is due to retire this year. The measure of his service to the public of Calcutta may be judged from the remark in the report under review, namely, that while in 1906 the daily emission of black smoke was about 2,00,000 minutes, at the end of 1930 it had dropped to under 2,000 minutes. Mr. Robson's services have been retained several years beyond the normal time limit of retirement for Government servants, but Government have now decided to release him at his own request. In losing him the local Government and the public served by the Bengal Smoke Nuisances Commission lose an expert and enthusiastic officer, and the Governor in Council wishes to place on record his high appreciation of his long and valuable service.

Order—Ordered that the resolution be published in the *Calcutta Gazette*.

Ordered also that a copy of the resolution be forwarded to the Chief Inspector and Secretary, Bengal Smoke Nuisances Commission, for information.

By order of the Governor in Council,

E. N. BLANDY,

Secy. to the Govt. of Bengal.

Resolution on the Report on the Police Administration in the town of Calcutta and its suburbs for the year 1930.

GOVERNMENT OF BENGAL.

Police Department.

CALCUTTA, THE 18TH JULY, 1931.

RESOLUTION—No. 3144 Pl.

Read—

The Report on the Police Administration in the town of Calcutta and its suburbs for the year 1930.

The office of the Commissioner of Police was held throughout the year by Sir Charles Tegart, Kt., C.S.I., C.I.E., M.V.O.

2. **Strength.**—The sanctioned strength of the Calcutta Police at the close of the year was 5,747, a decrease of 3 on the previous year. The number of resignations during the year was 51 as against 46 in the preceding year. There was, however, a decrease of 13 in the number of vacancies at the end of the year, and the Governor in Council notes with satisfaction that the increased rate of pay in the rank of constable has given a stimulus to recruitment and enabled a better type of recruit to be secured. His Excellency in Council is pleased to see that the improvement in the health of the force has been maintained in spite of the great strain placed on all ranks by the civil disobedience movement.

3. **Housing.**—His Excellency in Council is alive to the need of improved police accommodation in the suburban areas, and regrets that it has not yet been possible to take this work in hand owing to severe financial stringency.

4. **Discipline.**—His Excellency in Council has noticed with pleasure the large decrease in the number of judicial punishments inflicted on members of the force and also in the number of dismissals and degradations.

5. **Crime Statistics.**—There was a substantial fall in the total number of cognizable cases reported to the police, but a great increase in the number of rioting cases, a fact which is to be ascribed to the civil disobedience movement. The same increase is found in the figures of other crimes of violence which, as the Commissioner of Police points out, have a tendency to be more prevalent during periods of excitement or civil commotion. As against this, it is satisfactory to note that the number of true cases of burglary, theft and receiving stolen property showed a marked decrease. The effects of the civil disobedience campaign are reflected in an increase of 50 per cent. over the previous year in the number of persons detained in police lock-ups, 21,985 as against 14,239.

The Detective Department was as usual engaged in tracing out various fraudulent activities and attained very successful results. The activities of a number of swindling agencies under the guise of banks have already been brought to the notice of His Excellency in Council and the matter is engaging his attention.

6. **Revolutionary crime, seditious speeches and writings.**—The terrorist party made itself felt by a series of political outrages which began in August with the attempt to assassinate the Commissioner of Police. Fortunately this was unsuccessful and His Excellency in Council takes this opportunity to congratulate Sir Charles Tegart on his providential escape. Shortly after this incident, bombs were thrown on the Jorabagan Court building and the roof of the Eden Garden outpost, causing injuries to a number of people, one of whom died. This was followed in December by the cowardly murder of Lt.-Col. Simpson, the Inspector-General of Prisons, in his office in Writers' Buildings.

As a result of investigations in connection with the first three outrages, a terrorist conspiracy was unearthed and 13 Bengalis were sent up for trial, 8 of them being convicted and sentenced to terms ranging from transportation for 20 years to 10 years' rigorous imprisonment.

Throughout the civil disobedience movement, the Congress had the vigorous support of the Indian Press,

practically the whole of which devoted itself to the spread of an anti-Government propaganda as false as it was sensational. The number of prosecutions for seditious speeches was inevitably high, while two persons were convicted of attempts to tamper with the loyalty of the police. Prosecutions were instituted in a number of cases under sections 124A and 153A of the Indian Penal Code, and there was a large increase in the number of publications which it was found necessary to proscribe under section 99A of the Criminal Procedure Code. When, with the promulgation of the Indian Press Ordinance, it became possible to demand security from the keepers of printing presses and printers and publishers of newspapers, the Congress resorted to the publication of unauthorised news-sheets, bulletins, leaflets and pamphlets which were met by the institution of numerous prosecutions under the Press and Registration of Books Act, the Police Act, the Picketing Ordinance and various sections of the Indian Penal Code.

7. **Public Order.**—The situation resulting from the civil disobedience movement and the activities of the terrorists subjected the Calcutta Police to the heaviest strain the force has yet had to bear. Street rioting—of which the most serious was that of 15th April in Bhowanipore when tramcars were set on fire, officers and men of the Fire Brigade injured and fire engines damaged—hartals, unlawful processions and meetings, and picketing combined with intimidation and violence, entailed long and harassing hours of duty and were a severe test of the fortitude of the force. Insidious attempts were made to tamper with the loyalty of the Indian ranks, but this did not deflect them from their duty, and all ranks faced the situation and performed the difficult task of maintaining order with an alacrity and cheerfulness, and a patience and restraint which do the highest credit to the force. His Excellency in Council takes this opportunity to place on record his high appreciation of the loyalty, courage and devotion to duty of all ranks during one of the most trying periods in the history of the Calcutta Police.

8. **Labour.**—There was a great deal of labour unrest during the year, but His Excellency in Council is glad to be able to record that there was only one occasion on which the situation became serious, when, on April 1st, the resentment felt by the carters and transport workers at the enforcement of certain rules made under the Bengal Cruelty to Animals Act (Bengal Act I of 1920) culminated in fierce rioting on Howrah bridge and the neighbourhood, in the course of which the police had several times to fire. The situation was competently and resolutely handled and brought under control without delay. There were eight industrial strikes during the year.

9. **Traffic.**—His Excellency in Council is pleased to notice the many improvements effected in the working of the Motor Vehicles Department, particularly the arrangements made to expedite the issue of licences and registration certificates, the introduction of the English system of the Public Service Vehicles licence, and the measures taken to deal with the "horn nuisance." He trusts that it may be found possible at an early date to effect further improvements in connection with other nuisances which still persist. His Excellency in Council is concerned to see that over two thousand cases under the Motor Vehicles Act were pending at the close of the year, and trusts that every effort will be made to deal with these cases as expeditiously as possible. He regrets that the proposal to form a "Traffic Bureau" cannot be proceeded with at present owing to the financial situation. In the meantime the question of amending the Motor Vehicles Act to provide for the composition of offences is engaging the attention of the Government of India.

10. **Commendation of officers.**—His Excellency in Council is gratified to read the tributes paid by Sir Charles Tegart to his Deputy Commissioners, Assistant Commissioners and other subordinate officers. In congratulating the Commissioner of Police on the efficiency and fine sense of duty displayed by the whole force during a year of unprecedented strain, he wishes to place on record his deep appreciation of the signal services that the officers and men of the Calcutta Police rendered to the State in combating a movement whose aim was the subversion of law and order and good government. He would add that the implicit confidence in the ability

and courage of Sir Charles Tegart himself which was felt not only by his subordinates but by the citizens of Calcutta generally contributed in no small degree to the success with which the stormy days of 1930 were weathered. In this commendation the Governor in Council would wish to include the members of the Special Constabulary who, though actually mobilised on only one occasion, constituted a very valuable potential support to the police in times of emergency.

Order—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division, for information.

Ordered also that a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

NOTIFICATIONS.

No. 12049P.—22nd July 1931.—In exercise of the power conferred by section 99A of the Code of Criminal Procedure, 1898 (Act V of 1898), the Governor in Council hereby declares to be forfeited to His Majesty all copies, wherever found, of a pamphlet in Bengali entitled "Bilati Bastra Barjan Kariba Kena" by Jnananjan Neogi, printed and published by Brojendra Nath Bhadra at the Service Printing Company, 20A, Gopi Bose Lane, Calcutta, on the ground that the said pamphlet contains matter which promotes or attempts to promote feelings of enmity or hatred between different classes of His Majesty's subjects, the publication of which is punishable under section 153A of the Indian Penal Code.

No. 12194P.—23rd July 1931.—In exercise of the power conferred by section 99A of the Code of Criminal Procedure, 1898 (Act V of 1898), the Governor in Council hereby declares to be forfeited to His Majesty all copies, wherever found, of the following pictures, on the ground that the said pictures contain matters which bring or attempt to bring into hatred or contempt and excite or attempt to excite disaffection towards the Government established by law in British India, the publication of which is punishable under section 124A of the Indian Penal Code:—

(1) Group of Sukdev, Rajguru and Bhagat Singh handcuffed, fettered and led towards the gallows by a Jail Superintendent with inscription "Going to be hanged with pleasure"—printed by Arorbans Press, blockmakers and printers, and published by the Punjab Dharmik Manufacturing Company, Anarkali, Lahore.

(2) Group of Lahore Conspiracy Case prisoners with inscription "Lahore Conspiracy Case Decision" and final orders passed against each prisoner—printed by Arorbans Press, blockmakers and printers, Anarkali, Lahore.

(3) One picture entitled "Sahidadi Arati" in Urdu showing chains of Mother India being broken at the sacrifice of Sukdev, Rajguru and Bhagat Singh while she is performing *Arati*. The souls of these martyrs are shown proceeding heavenwards in the direction of Jatin Das—printed by Mehta Art Press and Blockmakers Mehta Half-tone Company, Anarkali, Lahore, and published by Brij Lal Artist, Nisbat Road, Lahore.

(4) One picture entitled "Mother's stabbed heart" showing a big stab wound on the chest of Mother India who is bleeding profusely. Three martyrs Sukdev, Rajguru and Bhagat Singh are shown inside the wound. Blood falling from the wound kindles a fire below—printed at Ravi Fine Art Printing Works, Anarkali, Lahore, and published by Poor Friends' Society, 6, Goalmundi, Lahore.

(5) Group of Bhagat Singh, Rajguru and Sukdev with inscription "Mr. Bhagat Singh, Rajguru and Sukdev hearing the sentence of hanging with pleasure"—printed by Arorbans Press, blockmakers and printers, Anarkali, Lahore.

No. 12260P.—23rd July 1931.—Whereas the magic lantern slides described below appear to the Governor in Council to contain matter the publication of which is punishable under section 124A of the Indian Penal Code, inasmuch as the said slides bring or attempt to bring into hatred or contempt and excite or attempt to excite disaffection towards the Government established by law in British India:

Now, therefore, in exercise of the power conferred by section 99A of the Code of Criminal Procedure, 1898 (Act V of 1898), the Governor in Council hereby declares to be forfeited to His Majesty every copy of the said lantern slides, namely:—

1. A slide with entries in English as follows:—"These hoards, the savings of millions of human beings for centuries, the English seized and took to London, as the Romans had taken the spoils of Greece and Ponteers to Italy. What the value of the treasure was no man can estimate, but it must have been many millions of Pounds—a vast

sum in proportion to the stock of the previous metals then owned by the Europeans:—

Brooks Adams in the Law of Civilisation and Decay—page 305."

2. A slide with entry in Bengali as follows:—"India was not allowed to follow the path of self-protection. India being under subjugation of England, could not have her revenge for England's enequity. England, by the irregular use of her political power, kept down India, her rival in the cloth trade, and subsequently throttled to death the rival with whom it was impossible for England to compete on equal terms."

3. A slide with entries as follows:—"The Directors of the Company were compelled to admit in the clearest terms, 'We think vast fortunes acquired in inland trade have been obtained by a scene of the most tyrannic and oppressive conduct that was ever known in any age or country'."

4. A slide containing a figure of a European and a skeleton on a map of India with the remark below:—"India must be bled" Lord Salisbury 1875.

5. A slide containing the figure of a lion with a charka under its paws, with the remark in English "Death of the Charka under British Rule."

6. A slide with the following entries in Bengali:—"The condition of Bengal—No food to eat; no work to do; no cloth to wear; no industry at home; we subsist on articles of foreigners; for this fever is in body and fear in mind; wanted work + food = strength."

7. A slide containing a map of India with a figure of a man, bare of body, carrying a bundle and a lathi, with the following entries in Bengali:—"Where are you now? Within the last 150 years, your country of riches has been turned into a pauper: over that the tax on the poor is increasing day by day. Tax has been imposed even on salt, which is of essential necessity to you."

8. A slide with entries in Bengali:—"Monopoly being created on all the articles, everywhere in the country oppression was increasing on every industry. The state of things turned into such a pass that the weavers for selling cloth to others, and the brokers and the wholesale dealers for helping the weavers were being constantly seized by men of the Company, imprisoned, chained, whipped, and treated by the most nefarious means. Bolt's Consideration."

Educational Notices.

Presidency Division.

NOTIFICATION.

40/1A, Free School Street, Calcutta, the 29th June 1931.

Test Examination of private candidates for the Matriculation Examination of 1932.

A Test Examination of private candidates will be held in the Senate Hall, Calcutta, from Monday, the 30th November 1931. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private candidates" includes schoolmasters. A non-Bengali candidate should produce an affidavit sworn by his legal guardian before a Magistrate that the candidate has been in residence in any of the districts of the Presidency Division including Calcutta for at least one year before the date of the examination.

2. (*a*) Private candidates are those who have not attended any school, recognised or unrecognised, imparting general education for at least one year previous to the Matriculation Examination. They should produce proof that they have not attended any school for such period.

(*b*) They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school.

(*c*) The transfer certificates granted to them by the authorities of the schools in which they studied last and the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation Examination must be submitted in original along with the application for permission to appear at the Test Examination.

(*d*) A statement of the antecedents of the candidate should accompany his application. He should state whether he has read in any unrecognised school, and, if so, in what school and what year. A student, who failed to pass the annual examination for promotion to the first class at the end of the year 1930 and then left school, will in no circumstances be allowed to appear at the Test Examination of 1931.

3. *Bona fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination. They must produce certificates of service and character from their employers or from the District Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation Examination unless he has completed the age of fifteen years on the first day of the month in which the Matriculation Examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally,* not later than the 5th October 1931 (under no circumstances an application for permission to sit for the said examination will be entertained after the 3rd November 1931) his application for admission to the Test Examination, with the following particulars:—

(1) Age, (2) home district and residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation Examination, (5) classical language, (6) vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.

(*b*) Additional paper in a classical language.

(*c*) History.

(*d*) Geography.

(*e*) Elementary Mechanics.

Candidates may only offer one of the following vernacular and classical subjects (compulsory or additional):—

Vernaculars—(*i*) Bengali, (*ii*) Hindi, (*iii*) Urdu, (*iv*) Alternative English for those whose vernacular is neither Bengali nor Hindi nor Urdu.

Classics (*i*) Sanskrit, (*ii*) Pali, (*iii*) Persian, (*iv*) Arabic.

6. The admission fee for the examination is Rs. 6 for each candidate. This must be remitted with the application on or before the prescribed date (5th October 1931), after which a fine of Rs. 2 will be imposed for each week's delay. This fee together with fine, if any, should be deposited into a Government Treasury or Sub-Treasury in Bengal and the chalan showing the deposit should be attached to the application which must reach this office on or before the prescribed date. *In no circumstances will the admission fee be refunded.* All examinees must obtain receipts for fees from the Inspector's office, which should be shown to the Superintendent of the Examination Hall on the first day of the examination.

7. No private student will be admitted to the Test Examination unless he is identified to the satisfaction of the Superintendent at the Examination Hall during the examination by a Government servant who is not in the inferior service or by a teacher in any recognised college or high school.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, as special cases, be permitted to sit at the Test Examination at the nearest Government High English School. They will be supplied with printed question papers from this office to which their answer papers should be sent by the head master concerned.

10. The date of the Matriculation Examination in 1932 will be notified hereafter.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the date to be fixed by the University.

Intermediate and B.A. Examinations in 1932.

Subdivisional Inspectors, Sub-Inspectors and *bona fide* teachers of English schools in the Presidency Division, who have been employed as such for at least three years preceding the examination, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 1st December 1931.*

1. In accordance with section 9, Chapter XV of the revised regulations dealing with the registration of University students, all candidates who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of affiliated institutions, and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B.A. Examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F.A., I.A., or I.Sc. certificates and candidates for the Intermediate Examination their Entrance and Matriculation certificates, together with a letter in original from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The date of the Intermediate and B.A. Examinations in 1932 will be notified hereafter.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before the dates to be fixed by the University*, and must be sent to that office by the candidates direct.

K. N. MITTER,
Inspector of Schools.

Burdwan Division.

Chinsura, the 7th July 1931.

Rules for the admission of Private Candidates to the Calcutta University Matriculation Examination, 1932.

1. Private students are those who have not attended any recognized or unrecognized High English School for at least one year previous to the Matriculation Examination. The term "private students" includes teachers of schools.

2. Private candidates must appear at the Test Examination to be held on Monday, the 14th December 1931, and the following days at any of the Government High Schools in the Burdwan Division.

3. Applications for admission to the Test Examination must be submitted through the head master of the school in which the applicant last read. The head master, in fowarding the application to this office, should note whether he recommends the application or not. If he does not, his reasons should be stated. The information to be given in, and the documents to be appended (in original) to, the application are the following:—

(a) Name of the school in which the candidate last studied.

(b) Transfer certificate (in original) granted to the candidate by the head master of the school in which he last read; or

In the case of a candidate who previously appeared at the Entrance or Matriculation Examination, the Registrar's receipt (in original) for the fee paid.

(c) Age of the candidate. No candidate is eligible who has not completed the age of fifteen years on the first day of the Matriculation Examination.

(d) In the case of school masters, a certificate of good conduct from the Secretary of the school in which the candidate is serving.

(e) A certificate from a respectable gentleman other than a relative to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation Examination held in March 1931. Detailed information is needed under this head. The person granting the certificate should state his social or professional position.

(f) Names of subjects in which the candidate wishes to be examined.

(g) Postal address.

4. Each private candidate will have to pay a fee of Rs. 6, which should be remitted to the Inspector of Schools, Burdwan Division, Chinsura, along with his application for admission to the Test Examination by the 20th November 1931, after which date a fine of Rs. 2 will have to be paid for each week's delay. *Under no circumstance will the admission fee be refunded.* No private candidate will be admitted to the Test Examination. unless he is accompanied, for the purpose of identification, by some person known to the office of the Inspector of Schools, Burdwan Division, or to the staff of the Zilla School where he will appear. Those who are not *bonâ fide* residents of the Burdwan Division will not be admitted to the Test Examination.

5. **The fee for the Matriculation Examination should NOT be sent to this office.** It should be sent to the Registrar by the candidate himself, together with his countersigned application.

6. The Matriculation Examination for 1932 will be held on the 9th March 1932 and the following days or any other subsequent dates declared by the University.

INTERMEDIATE AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* teachers of English schools, who have served as such for the full period of three academical years preceding the examinations, will be admitted to the abovementioned examinations.

2. Candidates for the Intermediate and B.A. Examinations must produce certificates of character and length of service from the Secretaries of their respective schools. Candidates for the B.A. Examination must forward with their applications their F.A. or I.A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Candidates admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B.A. Examinations are informed that their applications for admission to these examinations will not be considered, unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates, who have applied for or have obtained the special permission of the Senate for the purpose, are required, under section 9, Chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 20th December 1931 at the latest, together with other papers as mentioned in rules 2 and 3, after which no application will be received.

5. The dates of Intermediate and B.A. Examinations of 1932 may be obtained from the Registrar, Calcutta University.

CALCUTTA, THE 29TH JULY 1931.

RESOLUTION—No. 1732P.H.

Minister-in-charge: The Hon'ble Mr. Bijoy Prasad Singh Roy.

Section 251 of the Calcutta Municipal Act, 1923 (Bengal Act III of 1923), provides that the Calcutta Corporation shall provide a safe and sufficient outfall, in or without Calcutta, for the proper discharge of the storm-water and sewage of Calcutta in such manner as not to cause any nuisance whether by flooding any part of Calcutta or of the country surrounding the outfall or in any other way. The plans of such outfall and the method of disposing its sewage shall be subject to the sanction of the Local Government, who may from time to time direct such alterations to be made as they may consider necessary.

The section further provides that if the outfall deteriorates by the decay of existing river channels or otherwise, the Local Government may require such order to be taken and such additions or alterations to be made to or in the outfall work at the charge of the municipal fund as they may consider necessary to ensure the safe and sufficient outfall.

The Calcutta Corporation have submitted to Government proposals for the construction of a new outfall in the river Kulti at an estimated cost of Rs. 34,00,000. With a view to the discharge of their responsibilities under section 251 of the Calcutta Municipal Act the Government of Bengal consider it desirable that they should obtain the advice of an expert committee under an independent Chairman on the suitability of these proposals. The Calcutta Corporation were invited to depute their engineers as members of this committee, but they expressed their unwillingness to allow them to serve as members of the committee unless one of their administrative officers was placed on it, and suggested that if Government could not agree to their proposal then the next best course would be for the Corporation officers to appear as witnesses and place all materials before the committee. The Government of Bengal have carefully considered the alternative suggestions, and are of opinion that the advice which they require at the present stage for the discharge of their responsibility under section 251 of the Calcutta Municipal Act is that of a committee of experts. They have therefore decided to constitute a committee composed of the following persons:—

Chairman.

The Commissioner of the Presidency Division.

Members.

Rai Shailendra Nath Banerjea Bahadur, Chief Engineer, Irrigation Department.

Mr. J. A. Stewart, M.I.C.E., Acting Chief Engineer, Calcutta Improvement Trust.

Mr. F. C. Griffin, M.INST. C.E., M.I.E. (Ind.), Chief Engineer, Public Health Department.

The terms of reference to the committee will be to examine the proposals of the Calcutta Corporation for a drainage outfall, as distinct from the scheme for the revision of the internal drainage (particulars of which will be available for their information so far as necessary for their purpose in advising on the outfall), and to report to Government—

(1) what outfall in their opinion is the best solution of the problem;

(2) whether the sewage requires any form of treatment for disposal at such outfall; and

(3) whether they consider it desirable that their report should be submitted to some external expert or experts for opinion on either or both of these points.

Ordered that the resolution be published in the *Calcutta Gazette*, and copies thereof forwarded to the Chief Executive Officer, Calcutta Corporation, and the Chairman and the members of the committee.

By order of the Govt. of Bengal (Ministry of Local Self-Govt.),

C. W. GURNER,
Secy. to the Govt. of Bengal.

N. AHMAD, *Registrar.*

Burdwan Division.

Chinsura, the 7th July 1931.

Rules for the admission of Private Candidates to the Calcutta University Matriculation Examination, 1932.

1. Private students are those who have not attended any recognized or unrecognized High English School for at least one year previous to the Matriculation Examination. The term "private students" includes teachers of schools.

2. Private candidates must appear at the Test Examination to be held on Monday, the 14th December 1931, and the following days at any of the Government High Schools in the Burdwan Division.

3. Applications for admission to the Test Examination must be submitted through the head master of the school in which the applicant last read. The head master, in fowarding the application to this office, should note whether he recommends the application or not. If he does not, his reasons should be stated. The information to be given in, and the documents to be appended (in original) to, the application are the following:—

(a) Name of the school in which the candidate last studied.

(b) Transfer certificate (in original) granted to the candidate by the head master of the school in which he last read; or

In the case of a candidate who previously appeared at the Entrance or Matriculation Examination, the Registrar's receipt (in original) for the fee paid.

(c) Age of the candidate. No candidate is eligible who has not completed the age of fifteen years on the first day of the Matriculation Examination.

(d) In the case of school masters, a certificate of good conduct from the Secretary of the school in which the candidate is serving.

(e) A certificate from a respectable gentleman other than a relative to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation Examination held in March 1931. Detailed information is needed under this head. The person granting the certificate should state his social or professional position.

(f) Names of subjects in which the candidate wishes to be examined.

(g) Postal address

4. Each private candidate will have to pay a fee of Rs. 6, which should be remitted to the Inspector of Schools, Burdwan Division, Chinsura, along with his application for admission to the Test Examination by the 20th November 1931, after which date a fine of Rs. 2 will have to be paid for each week's delay. *Under no circumstance will the admission fee be refunded.* No private candidate will be admitted to the Test Examination unless he is accompanied, for the purpose of identification, by some person known to the office of the Inspector of Schools, Burdwan Division, or to the staff of the Zilla School where he will appear. Those who are not *bonâ fide* residents of the Burdwan Division will not be admitted to the Test Examination.

5. **The fee for the Matriculation Examination should NOT be sent to this office.** It should be sent to the Registrar by the candidate himself, together with his countersigned application.

6. The Matriculation Examination for 1932 will be held on the 9th March 1932 and the following days or any other subsequent dates declared by the University.

INTERMEDIATE AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* teachers of English schools, who have served as such for the full period of three academical years preceding the examinations, will be admitted to the abovementioned examinations.

2. Candidates for the Intermediate and B.A. Examinations must produce certificates of character and length of service from the Secretaries of their respective schools. Candidates for the B.A. Examination must forward with their applications their F.A. or I.A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Candidates admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B.A. Examinations are informed that their applications for admission to these examinations will not be considered, unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates, who have applied for or have obtained the special permission of the Senate for the purpose, are required, under section 9, Chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 20th December 1931 at the latest, together with other papers as mentioned in rules 2 and 3, after which no application will be received.

5. The dates of Intermediate and B.A. Examinations of 1932 may be obtained from the Registrar, Calcutta University.

K. C. RAY,

Inspector of Schools.

Education Department, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 27th July 1931.

Forecast of the Summer Til Crop of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under til in Bengal has represented some 2·6 per cent. of the total area under til in British India.)

Character of the season.—In February the rainfall was above the normal while in March it was generally in defect. Preparatory tillage and sowings commenced under favourable conditions, but subsequently occasional drought and heavy rain affected the germination and growth and caused some damage in the districts of Mymensingh, Pabna and Dacca. On the whole, the season was a fair one for the crop this year.

Acreage.—The area sown this year is reported to be 111,700 acres as against 99,300 acres last year or an increase of about 12 per cent. over last year.

Outturn.—From the District Officers' estimates the average outturn of the crop for the Province works out at 70 per cent. of the normal this year as against 73 per cent. last year.

Taking the normal yield as 6 maunds per acre, the gross outturn of the crop for the Province is estimated at about 17,200 tons this year as against 16,000 tons last year or an increase of about 7 per cent. over last year.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 29th July 1931.

Summary.—During the week the rainfall was heavy in North and in parts of East Bengal while elsewhere the fall was generally light to moderate. Transplantation of winter paddy seedlings and harvesting of autumn paddy and jute are progressing but in parts of North Bengal heavy rain is retarding the operations. Condition of standing crops is not satisfactory in North Bengal owing to excessive rain. Distress continues in parts of Nadia, Murshidabad, Dinajpur, Pabna and Bogra, the number of persons attending the test relief works in the different centres of these districts being 1,964, 3,486, 1,206, 2,648 and 120 respectively. The number of persons gratuitously relieved at Bogra was 6. In Rangpur none attended the test relief works. The average price of common rice for the Province has risen by about 0·42 per cent. as compared with that of the previous week.

Resolution on the report on the Police Administration of the Bengal Presidency for the year 1930.

GOVERNMENT OF BENGAL.

Police Department.

CALCUTTA, THE 31ST JULY 1931.

RESOLUTION—No. 3244 Pl.

Read—

The Report on the Police Administration of the Bengal Presidency for the year 1930.

The late Mr. F. J. Lowman held the office of Inspector-General of Police up to the 31st August 1930, when he was assassinated while on a visit to Dacca. Mr. T. J. A. Craig held the post from the 10th September 1930 for the remainder of the year.

2. **Eastern Frontier Rifles.**—The battalion has always been of great value to the Province as a reserve for use in emergencies, but its value has never been so clearly demonstrated as in the year 1930, when it rendered conspicuous service during the disorders in Calcutta, Chittagong and Midnapore, and in suppressing the communal disturbances in Dacca and Kishoregunj. The conduct and discipline of all ranks of the Eastern Frontier Rifles was excellent, and the Governor in Council takes this opportunity to thank them for their loyalty and devotion to duty in exceptionally trying circumstances.

Lt.-Col. Macpherson proceeded on leave preparatory to retirement towards the close of the year after over eighteen years' service with the battalion. By his retirement the battalion loses a keen and popular Commandant and the Province an able and experienced officer.

The proposal to strengthen the Eastern Frontier Rifles so as to avoid the expedient of calling on other provinces for additional forces in times of disturbance has received the anxious consideration of His Excellency in Council, but has had to be postponed in view of the serious financial situation in the Province.

3. **Recruitment and Health of the Force.**—The number of constables recruited was 1,899 against 1,612 in 1929, and it is satisfactory that the number of vacancies at the close of the year fell from 377 and 206 in 1928 and 1929, respectively, to 146 in the year under review.

Casualties rose from 6·2 per cent. to 7·6 per cent. of the total force, an increase occurring under all heads except "death," while admissions into hospital increased by 566. This is mainly attributable to the severe strain imposed on the force by the civil disobedience movement with its corollary of curtailment of leave owing to the inadequacy of the reserves to meet such a widespread and prolonged emergency. Bad housing conditions also told on the health of the force. His Excellency in Council has frequently had cause to comment on the need of improved housing arrangements, and it is with the greatest regret that he has once more to record that inadequacy of funds has prevented any progress in this direction.

There were 500 more constables of three years' service and over in the force as compared with the previous year, a fact which seems to indicate, as the Inspector-General of Police points out, that the increased rates of pay sanctioned in the year 1928 have led to greater contentment within the force. It is also satisfactory to note that in spite of the trying conditions of service during the year the number of resignations and desertions was considerably below the figures for 1927 and 1928.

Disturbances resulting from the civil disobedience movement made necessary the imposition at different times of additional police at the cost of the inhabitants under section 15 of Act V of 1861 in the Midnapore district, and in the Munshiganj and Diamond Harbour subdivisions of the districts of Dacca and 24-Parganas, while in order to strengthen the armed reserve the recruitment was sanctioned in June 1930 of an additional force of 500 armed police. The experiment was made for the first time on this occasion of enrolling a number of Namasudras in this force, and the results will be watched with interest.

The rearming of the Special Armed Force with the new ·410 bore musket was completed during the year.

4. **Discipline.**—His Excellency in Council notes with satisfaction that with one regrettable exception, there was no serious breach of discipline during the year. There was a further decrease

in the number of officers and men judicially punished and a fall of no less than 1,636 in the number of punishments inflicted departmentally. The number of criminal complaints instituted by private individuals against the police fell from 364 to 268, and out of 231 cases disposed of during the year only 26 ended in conviction. The low percentage of convictions is an indication of the falsity of many of these complaints, and His Excellency in Council agrees with the Inspector-General of Police that it is most desirable to prosecute in as many cases as possible persons whose complaints against the police appear to be the outcome of malice.

5. **Crime Statistics.**—Though the number of cognisable cases reported decreased from 91,495 in 1929 to 89,685 in 1930, the number of true cases of serious crime showed an alarming increase. Cases of rioting increased during the year from 755 to 1,608, of murder from 500 to 601, of dacoity from 693 to 1,103, and of robbery from 386 to 523. His Excellency in Council was not unprepared for these figures, which, though no doubt partly accounted for by unsatisfactory economic conditions, were to an overwhelming degree the result of the doctrines of civil disobedience so assiduously preached throughout the year. Experience in Bengal has shown that disturbed political conditions are invariably reflected in an increase in crimes of violence and particularly of dacoity. The history of 1930 has repeated that of 1922, when, following on the non-co-operation movement, the number of dacoity, robbery and rioting cases showed an increase of 55 per cent., 34 per cent. and 36 per cent., respectively, over the quinquennial average for the years 1916 to 1920. During the year under review the Congress did their utmost to wreck the chaukidari system and succeeded to this extent that they hampered—very seriously in some districts—the prevention and detection of crime. At the same time, the resources of the regular police were strained to the utmost in dealing with the activities of "volunteers" and others whose object was avowedly to bring the administration to a standstill. The inevitable result was that the control of the police over crime in the ordinary sense suffered a serious setback. There was more crime to control, and diminished means of controlling it, a situation which still continues. The large increase in dacoities was accompanied by a decrease in the percentage of dacoity cases ending in conviction, which declined from 15·6 in 1929 to 8·4 in the year under review. As in 1922 a disquieting feature of the year was the number of dacoity cases in which young men of the middle classes participated, sometimes in conjunction with ordinary criminals.

Every effort is being made to deal with the increase of serious crime, but much depends on the co-operation of the general public who, whether voluntarily or involuntarily, have shown marked reluctance to assist the police during the past eighteen months. The fact must also be faced that a police force that barely sufficed for the needs of the province before the recent upheaval is no longer adequate to cope with the conditions of to-day, and this matter is now engaging the attention of Government.

His Excellency in Council observes that abuse of section 526 of the Criminal Procedure Code has increased during the year, but, as he has pointed out on a previous occasion, this can only be remedied by legislation by the Government of India.

The number of thefts of arms increased by more than 132 per cent. during the year largely owing to the increased activity of the terrorists and their determination to secure arms at any cost. His Excellency in Council takes this opportunity of stressing the importance of all license-holders paying special attention to the safety of their arms.

6. **Criminal Tribes.**—His Excellency in Council observes with satisfaction that the conduct of the inmates of the Karwal Nut Settlement at Saidpur has shown improvement and that the industrial school at Nilphamari is showing promise of success under the devoted care of the officers of the Salvation Army. This school, where the young Nuts are being brought up and educated away from the corrupting influence of their elders, who it must be admitted are incorrigible, is indeed the real key to the reclamation of these unfortunate people.

7. **Working of the Rural Police.**—Though in a year such as 1930 any noticeable improvement in the work of the rural police was scarcely to be expected, yet there were several instances of good work by daffadars

and chaukidars. The "no-tax campaign" which was started as part of the civil disobedience movement had inevitably a serious effect on the chaukidari system. It is a matter of satisfaction that largely owing to the firmness and tact with which the local officers dealt with the situation, the attempts made in this direction did not meet with any widespread or lasting success in any district except Midnapore, although they were sufficient to disorganise the system in some areas and generally interfered with the reporting of cases. In the Midnapore district, where chaukidars who assisted in the collection of taxes were by means of personal violence and intimidation of the most objectionable sort forced into submission to the civil disobedience leaders, the movement met with considerable success. In one case in that district, His Excellency in Council regrets to record, excitement reached such a pitch that two chaukidars who had refused to resign were murdered by an infuriated mob for arresting some "volunteers"—a striking commentary on a movement whose watchword was supposed to be "non-violence." High praise is due to those among this humble body of public servants who stuck to their duties in spite of every kind of persecution, obloquy and injury to themselves and their property.

His Excellency in Council is pleased to read that the endeavours made by the police to secure the co-operation of union boards in matters relating to the prevention and detection of crime were not unfruitful. Instructions have recently been issued to District Officers in this matter and he trusts that further progress will be made during the current year.

8. **Revolutionary Crime.**—Beginning in April with the Chittagong Armoury raid, the year was marked by a long series of terrorist outrages. This spectacular and in a way, successful enterprise gave a great impetus to the terrorist movement and was followed by no less than six shooting cases (including the Writers' Buildings outrage), three of which ended fatally, and two bomb outrages besides other overt acts of a less serious nature. Immediately after the Chittagong Armoury raid the Bengal Criminal Law Amendment Ordinance was promulgated which was subsequently replaced by the Bengal Criminal Law Amendment Act, 1930. At the close of the year 454 persons had been arrested under the Ordinance and Act of whom 52 were subsequently released. The increased activity of the terrorists combined with the disturbed state of the districts made inevitable a large increase in the staff of the Central and District Intelligence Branches.

9. **General.**—The civil disobedience movement imposed a very heavy strain on the Bengal Police. Not only were the police charged with the extremely arduous and often dangerous task of maintaining order in the face of heavy odds, but on them as the prime guardians of peace and order was focussed a constant stream of malicious and unscrupulous propaganda from the side of those whose object was the destruction of the administration. No praise therefore is too great for their cheerful endurance of hardship and discomfort, their fortitude in the face of personal danger, their restraint in the face of gross provocation and vile abuse, their steadfast resistance of all attempts to tamper with their loyalty, and His Excellency in Council welcomes this opportunity of putting on record his deep appreciation of their loyalty and devotion to duty during the critical days of the past year.

His Excellency in Council is grieved to have to record that ten police officers, including the late Mr. F. J. Lowman, lost their lives in the course of the year, two of them being brutally beaten to death in Midnapore district by villagers led by civil disobedience "volunteers," and that no less than 400 were injured. Among many instances of gallantry, the magnificent courage and tenacity of the late Constable Prasanna Barua, who, though mortally wounded, seized and held a rebel during one of the skirmishes with the rebels, which took place subsequent to the Chittagong Raid in April 1930, deserves special mention.

10. **Commendation of officers.**—His Excellency in Council has read with pleasure the names of the officers brought to his notice by the Inspector-General of Police, and takes this opportunity to record his high appreciation of their valuable services to the State during a very trying year.

Great credit is due to the late Mr. Lowman, and to Mr. T. J. A. Craig, the present Inspector-General of Police, for the fine record of the force and the high standard of discipline and efficiency maintained at a time when special efforts were made to undermine the allegiance of the Indian ranks. It is from the superior officers that a disciplined body of men takes its tone, and the way in which the force has stood the strain to which it has recently been subjected is proof of the high sense of duty and the regard for the welfare of their men which is a tradition of the Indian Police Service. Reference has already been made in the review of the work of the Bengal Police for 1929 to the death of Mr. Lowman. By that senseless crime, the Bengal Police have lost an efficient and kindly officer whose personality had made its mark on the Province. The burden that has fallen on the Intelligence Branch owing to the great activity of the revolutionary parties has been heavy indeed, and a special word of commendation is due to the officers and men engaged on their exacting work for their unremitting labours, which in so many cases have been crowned with success.

ORDER.—Ordered that copies of the resolution be forwarded to the Inspector-General of Police, Bengal, the Commissioner of Police, Calcutta, and all Commissioners of Divisions, for information.

Ordered also that the resolution be published in the *Calcutta Gazette*.

CALCUTTA, THE 7TH AUGUST 1931.

RESOLUTION—No. 3219F.

After careful consideration of the financial position of this Presidency the Governor in Council and acting with his Ministers has decided that the scales of pay of the services and posts the conditions of whose service are determined by the Government of Bengal shall, as far as future recruits are concerned, be reviewed with the object of bringing them into conformity with existing conditions. As this will necessarily take a considerable time to accomplish and as the necessity for reducing provincial expenditure is immediate and imperative, he has further decided that, pending a final decision as to the scales of pay to be adopted in future—

(1) all appointments to vacancies occurring in these services and posts, after the 21st July 1931, shall be made on a provisional basis;

(2) the pay of any person not already holding a substantive appointment under Government, who is appointed to fill such a vacancy, shall be fixed and shall be the initial pay of the vacant post on the present sanctioned scale less 15 *per centum*, except in posts of which the initial pay is less than Rs. 80 a month, provided that the pay to be drawn after the said reduction in a post of which the initial pay is not less than Rs. 80 a month shall not be less than Rs. 80 a month;

(3) an officer already holding a substantive appointment under Government appointed to any such vacancy shall be entitled to the pay admissible to him under the existing rules

less 15 *per centum*, provided that the pay admissible to him after this reduction shall not be less than the pay of his substantive appointment; and

(4) officers provisionally appointed to vacancies under these orders shall retain a lien on their substantive appointment, if any.

All authorities competent to make appointments are requested to make clear to the persons whom they propose to appoint the purport of these orders, in particular that persons so appointed under this provisional arrangement will, subject to any reductions in establishment which may hereafter be ordered and to them displaying fitness for confirmation in Government service, be entitled to the benefit of the conditions in respect of pay and allowances which Government hereafter decide to apply to the service or establishment to which they have been provisionally appointed under these orders.

2. Nothing in these orders shall apply to Police establishment, whether permanent or temporary, enrolled under the Police Act, or to head warders and warders of all grades (including female warders) in the Jail Department.

3. For purposes of audit the following certificate shall in future be attached to all establishment bills:—

Certificate.

Certified that the rates of pay drawn in this bill are those which have been arrived at after reducing the rates admissible under the rules in force prior to 21st July 1931 to the extent laid down in the Bengal Government Resolution No. 3219F., dated the 7th August 1931.

By order of the Governor in Council,

E. N. BLANDY,

6. Failed students of Normal and *Guru*-training Schools may be permitted to sit for the examination as private candidates a second time within two years from the date of their failure, provided that those who have failed in the practical, or in both theoretical and practical parts of the examination, have served continuously for at least six months in a recognised school as teachers and are certified by the District Inspector of Schools to be satisfactory teachers.

The condition of continuous teaching for at least six months shall not apply to those who have passed in the practical part of the examination and propose to take only the theoretical part of the examination again.

7. Candidates who are not students of a Government First Grade Training School are required to send by the 7th September 1931 a written application for admission to the examinations, together with a fee of one rupee, to the head master of the school at which they elect to be examined. Full information will be furnished by the head masters of those schools on application.

8. Complete lists of candidates for examination should be forwarded by head masters of Training Schools to the undersigned by the 14th September 1931. The fees received from candidates must be deposited in the local treasury, and the *chalans* sent to this office along with the lists of candidates.

9. The current session of Training Schools will end on the 31st December 1931 and the new session will begin on the 2nd January 1932.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 4th August 1931.

First Forecast of the cotton crops of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the season.—In Bankura, Mymensingh and the Tripura State the weather was not favourable at sowing time for insufficient rainfall. In Mymensingh and the Tripura State subsequent conditions were not favourable for germination and growth owing to heavy rain in the former and to insufficient rain in the latter. In the Chittagong Hill Tracts, also, the growth was hampered owing to the fact that the paddy plants have outgrown the cotton plants. The state of the crop at present is not favourable, on the whole.

Area sown.—The area sown is reported to be 74,312 acres this year as against 76,812 acres reported in the corresponding forecast of last year, since revised to 76,207 acres. The decrease in area is reported to be due to slump in the market.

2. The draft will be taken into consideration on or after the 1st October 1931, and any objections or suggestions received by the undersigned through the District Officers before that date will be duly considered:—

Draft amendments.

For rules 19 to 34A substitute the following, namely:—

PART II.—Election Rules.

Election of Members of Local Boards.

Preliminary.

19. When the number of members of a Local Board has been fixed by a notification issued under section 8 of the Act, the Commissioner, after consultation with the Magistrate of the district, shall decide the number of members to be elected for each thana within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and subdivisional offices and at the headquarters of each of the thanas in question and in such other manner as the Commissioner may prescribe.

20. The first election under these rules of the members of a newly established Local Board, who will not be appointed under section 15 of the Act, shall take place at such time, not being more than six months after the date of the notification establishing the Local Board, as the Local Government may direct. Similar election of the members of a Local Board to which the elective system has been newly introduced shall be held on a date fixed by the Local Government, such date being not later than the date on which the term of office of the outgoing members of the Local Board under rule 61 expires.

20A. The Magistrate of the district shall, within three months after the expiry of the second year of the term of office of the members of a Local Board including a Local Board to which the elective system has been newly introduced, publish a programme specifying approximately the dates of each of the following stages which shall be followed for the purpose of the next general election, namely:—

(*1*) commencement of the preparation of a register of voters under rule 22;

(*2*) preliminary publication of the register under rule 23;

(*3*) final settlement of the register under rule 26C;

(*4*) issue of notices for nominations of candidates for election under rule 29;

(*5*) publication of the list of qualified candidates under rule 31;

(*6*) polling.

In the case of a new Local Board the members of which will not be appointed under section 15 of the Act, the programme may be published within two months after the publication of the notification establishing the Local Board.

Of the qualification of electors.

21. Every male person of the full age of twenty-one years, resident within the area under the authority of a Local Board,

(*1*) who is a member of a Union Committee within such area; or

(*2*) who has during the Bengali year immediately preceding the publication of voters' register under rule 23—

(*a*) paid—

(*i*) a sum of not less than one rupee as cess under the Cess Act, 1880, in respect of land situated either wholly or in part within such area, or

(*ii*) rupee one on account of chaukidari tax; or

(b) been possessed of a clear annual income from any source of not less than two hundred and forty rupees; or

(3) who being a member of a joint undivided family, one of the members of which is qualified to be an elector as in this rule hereinbefore provided, is a graduate or licentiate of any University or holds a certificate as a pleader or mukhtear,

shall be entitled to vote at an election of members of such Local Board:

Provided that this rule shall not apply to union board areas where the qualifications required of a candidate for election are those stated in section 9 (2) of the Bengal Local Self-Government Act of 1885, as amended by section 2 (1) of the Bengal Village Self-Government Act, 1919.

Of the registration of electors.

22. In all districts mentioned in the Third Schedule of the Act, or in which a Local Board may hereafter be established, the members of which will not be appointed under section 15 of the Act, or in which the elective system has been newly introduced to any Local Board, the Magistrate of the district shall—

(a) within four months after the expiry of the second year of the term of office of the outgoing members of a Local Board or within a week after the local publication of the orders under rule 19, as the case may be, provisionally select polling centres in each thana within the area of the Local Board which will be used at the next general election, and

(b) fix a date not later than five months after the second year of the term of office of the Local Board or two weeks after the local publication of the orders under rule 19, as the case may be, on which the preparation of a register of persons qualified to vote at each such polling centre shall be commenced.

The register shall be prepared from the assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. No person shall vote at any polling centre unless his name is borne on the register of such polling centre.

23. Within three months after the date fixed under rule 22 (b) lists of voters residing within Panchayati or Village Self-Government Unions shall be published at the offices of the Unions concerned. Copies of all the thana registers shall also be published at the subdivisional office.

24. Any person whose name does not appear in the register and who claims the right of voting, may, within one month after the publication of the register under rule 23, apply in writing to the Magistrate of the district, or to such other officer as the Magistrate of the district may appoint in this behalf, stating distinctly the grounds of his application, to have his name inserted in the register or substituted for any name in the register.

25. Any person whose name is in the register and who considers that any name appearing in the register ought to be omitted, may, within one month after the publication of the register under rule 23, apply in writing to the Magistrate of the district, or to such other officer as the Magistrate of the district may appoint in this behalf, stating distinctly the grounds of his application to have such name omitted.

26. The application referred to in rule 24 or rule 25 need not be stamped and may be submitted either by post or through an agent.

26A. A notice of every application made under rule 24 or rule 25 shall be published at the office of the Union Board or President Panchayat in whose jurisdiction the voter resides, within one week of its presentation, fixing a date on which the application will be considered. Such date shall not be later than six weeks after the publication of the register under rule 23.

26B. Every application made under rule 24 or rule 25 shall be duly considered by the Magistrate of the district, or such other officer as may be appointed by him in this behalf on the date fixed under rule 26A and the decision of the Magistrate or of the officer so appointed, as the case may be, shall be final:

Provided that in respect of Union Board areas claims or objections under rule 24 or rule 25 shall be decided with reference to the qualifications prescribed for an elector by section 9 (*1*) of the Bengal Local Self-Government Act of 1885, as amended by section 2 (*1*) of the Bengal Village Self-Government Act, 1919.

26C. The register shall be amended in accordance with the decisions made under rule 26B and shall be deemed to be the final register of persons entitled to vote at the election. No person whose name does not appear in it shall be permitted to vote. Not later than one week after the date fixed under rule 26A copies of the final register shall be published in the same manner as the original register containing all the alterations or amendments made by the Magistrate of the district, or by such other officer as may be appointed by him in this behalf. No person whose name does not appear in such final register shall be permitted to vote.

26D. (*1*) The Magistrate of the district shall cause to be printed as many copies of the register of voters prepared under rule 22 as he thinks fit, but not less than 25, in addition to the copies that he requires for carrying on the election. Subsequent corrections in the printed copy will be made in manuscript.

(*2*) Printed copies of the register shall be kept at the offices of the District Magistrate, Subdivisional Officers, the District Board and the Local Boards for sale to the public at prices to be fixed by the District Magistrate from time to time, having regard to the cost of printing, subject to a maximum of Rs. 5 for a single copy:

Provided that no such printed copy shall be sold to any person until fourteen days before the date fixed for the election, unless such person is a candidate (or an agent acting on his behalf), in which case he shall be entitled to buy one copy only of the register relating to the thana for which he is a candidate.

(*3*) Sale-proceeds of printed copies shall be credited to the District Fund.

26E. (*1*) Notwithstanding anything contained in rule 26D, the District Board may decide that the register of voters shall not be printed on the ground of excessive expense involved, provided that the District Board obtained the sanction of the Commissioner of the Division in this behalf before the preparation of the register of voters is undertaken under rule 22 in connection with each general election.

(*2*) In every case under sub-rule (*1*) the District Board shall, not later than one week after the publication of the register under rule 26C, cause a vernacular notice in the following form to be despatched by post or by such other mode as may be found convenient to every elector whose name appears in the register:—

You are hereby informed that you are registered as a voter for the.......................thana, that you will be entitled to vote at the election of.......................(state number) members of the local board to be held at.............................(name place or places) on the........... ....between the hours of.................and..................and that the result of the election shall be notified at............................ (name place) on the.................at..................a.m. or p.m.

Of the qualification and the nomination of candidates.

27. Every male person of the full age of twenty-one years—

(*1*) who is a member of a Union Committee within the area under the authority of the Local Board; or

(*2*) who during the year immediately preceding the election had his fixed place of abode within the subdivision for which such Local Board has been established, and

(*a*) has paid a sum of not less than five rupees on account of road-cess in respect of land situated either wholly or in part within the area under the authority of the Local Board; or

(*b*) has been possessed of a clear annual income from any source of not less than one thousand rupees; or

(*3*) who being a member of a joint undivided family, one of the members of which is qualified for election under clause (*1*) or clause (*2*) (*a*) of this rule, is a graduate or licentiate of any university, or holds a certificate as a pleader or mukhtear,

shall be qualified for election as a member of the Local Board for any thana under the authority of such Local Board;

Provided that this rule shall not apply to union board areas where the qualifications required of a candidate for election are those stated in section 9 (2) of the Bengal Local Self-Government Act of 1885, as amended by section 2 (*1*) of the Bengal Village Self-Government Act, 1919.

28. *Cancelled.*

29. The Magistrate of the district shall within one month and a half after the publication of the voters' register under rule 23 issue notices calling for nominations of candidates. Such notices shall be published at the office of every Union Board or President Panchayat within the thana. Within one month from the date of publication of the notices every person who is a candidate for election shall send his name to the Magistrate with the necessary particulars filled up in the following form supported by the signatures or thumb impressions of ten electors whose names appear on the date on which the nomination is sent, in the register of voters of the thana in which he proposes to stand. No names of candidates shall be received after the expiration of such period and no nomination shall be held to be valid unless the nomination form is properly filled in:—

Form for the nomination of candidates for election to the.............. Local Board.

Name of thana in which election is sought...............................

Name of candidate..

Address...

Number in voters' register..

Particulars of qualifications..

Signature of candidate with date.......................................

Names of 10 electors supporting..

Their numbers in the voters' register..................................

Particulars of their qualifications....................................

Signature of electors supporting with date.............................

EXPLANATION.—For the purposes of this rule the latest date on which the notice is published at the office of any union board or president panchayat within the thana, shall be deemed to be the date of publication of the notice in each union within that thana.

30. Not later than four weeks after publication of the notices under rule 29 the Magistrate of the district, or such other officer as he may appoint in this behalf for any particular area, shall publish a notice in the offices of the Panchayati or Village Self-Government Unions, as the case may be, fixing the date on which and the hour at which nomination papers shall be scrutinised by him, such date being not later than two weeks after the publication of the said notice. On the date so fixed for scrutiny he shall ascertain whether all of the nominated candidates are duly qualified to take office; his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

NOTE.—The qualification of candidates shall be judged either under rule 27 or under section 9 (2) of the Bengal Local Self-Government Act of 1885 as amended by the Bengal Village Self-Government Act, 1919, as the case may be.

31. A list of the candidates who are duly qualified and who appear to be willing to take office, shall be published at suitable places in the thana not later than a week after the date mentioned in rule 30. No candidate, whose name does not appear in such list, shall be considered eligible. A copy of the list of candidates, thana by thana, shall be kept in the Magistrates' and Subdivisional offices for perusal of the public.

Of the manner of holding elections.

31A. If the number of candidates for each thana mentioned in the list published under rule 31 is not greater than the number of vacancies for that thana, the Magistrate of the district shall at once declare such candidates to be duly elected.

32. If the number of candidates for the thana is greater than the number of vacancies, the Magistrate of the district shall fix a date for holding the election. Such date shall be as soon as possible after two weeks from the publication of the list of candidates under rule 31 and shall be notified in the *Calcutta Gazette* and published at such places within the thana as the Magistrate of the district may consider suitable.

33. Not later than a week after the final publication of the voters' register under rule 26C, the Magistrate of the district shall finally select the polling centres in each thana and shall notify the names of such polling centres and the place or places fixed for the election at such places within the thana as may appear suitable to him.

34. *Cancelled.*

34A. The hours between which the election will be held shall be stated in the notification published under rule 33 and at the end of that time no elector shall be admitted within the building or enclosure within which the election proceedings are being held, but the votes of all duly-registered voters who are already within the building or enclosure shall be recorded.

Directions For Note.

1. A pay bill may be presented at District Treasury two days before the last working day of the month by the labour of which the pay is earned.

2. A pay bill may, if desired, be enfaced for payment to a Banker or Agent and submitted for collection through such Banker or Agent, this will obviate the necessity of the officer's attendance in person or by messengers, as payment may then be made direct to the Banker or Agent.

3. When exemption is claimed in respect of any amount paid to an Insurance Company, the original receipt of the Company for the amount paid or an attested copy thereof should be attached to the pay bill. The receipt will be returned with the cheque.

4. The period for which a subscription to a Fund is due should be specified when it differs from the period for which pay is drawn.

5. The Fund deductions of a Covenanted Civil Servant are taken upon his allowances before deductions on account of Civil Service Provident Fund.

6. The Government of India exercises no supervision over the management of the Hindu Family Annuity Fund, the General Family Pension Fund and the Bengal Christian Family Pension Fund and is no way responsible for their solvency.

7. In the case of officers entitled to Sterling Overseas Pay, fund deductions are based on the Rupee pay *plus* the rupee equivalent of the Sterling Overseas Pay.

8. When the deduction on account of income tax shown in the bill includes tax calculated on Sterling Overseas Pay, the details of the calculation, on which the deduction is based, may be given at the foot of bill or, if there be no space at the foot, in some other suitable place; the total being brought into the body of the bill in the appropriate place and the two entries connected with a letter mark or otherwise. The details should show the sterling amount of the Overseas Pay as also its rupee equivalent.

The details relating to I.C.S./I.M.S. Family Pension Regulations, the Superior Services (India) Family Pension Fund and Indian Military Widows' and Orphans' Fund and two money columns, one for rates in sterling and another for payments in rupees, should be printed here. These details should be signed.

NOTE.—Treasury and Audit Officers should see that all compulsory deductions including those for I.C.S. Provident Fund are duly made and that Schedules regarding General Provident Fund and I.C.S. Provident Fund, when such schedules are prepared by the Officers themselves, are attached to the pay bills.

2. The draft by-laws will be taken into consideration on the 7th October 1931, and any objections or suggestions received by the undersigned through the Magistrate of the district before that date will be duly considered:—

Draft By-laws.

Definitions.

The definitions given of "cattle," "reserved tank or well," "slopes," "road" in Local Self-Government Act and stated here below are adopted.

"Cattle" has the same meaning as in the Cattle Trespass Act, 1871;

"Reserved tank or well" means a tank or well which the district board has set apart under section 90 of the Bengal Local Self-Government Act of 1885 by public notice for the supply of water for drinking and for culinary purposes, and includes any reservoir, or part of any river, khal or other channel so set apart, and a notice board on the edge of a "reserved tank" or "reserved well" containing the words "reserved tank or reserved well" or words to that effect, shall be deemed to be sufficient notice for the purpose of this definition;

"Slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well;

"Road" means a road vested in, or under the control and administration of, the district board or a local board, and includes—

(*a*) a village road;

(*b*) the slope, berm, borrow-pits and side drains of a road; and

(*c*) all land vested in, or under the control and aministration of, the district board or a local board, and attached to a road.

16. No person shall, on any road, by means of any building (whether on or overhanging the road), any well, rail, post, fence, pit, embankment or ditch, or any other obstruction or by means of any cut, drain or watercourse intended for the purpose of drainage or irrigation, or by exposing thereon any goods for sale or by placing thereon any substance or material,—

(*a*) without the permission of the Chairman or Vice-Chairman of the district board or a local board, or the District Engineer, make or cause any encroachment, or

(*b*) obstruct traffic, or

(*c*) cause any inconvenience to passengers, or

(*d*) hinder or impede the flow of water,

(*e*) hold a mela or jatra or construct or add to a pucca structure for the purpose of public worship.

17. **Sale, collecting or gathering of articles in vicinity of road.**—No person shall expose or place any article for sale in any bazar or market in the vicinity of any road, or on any road or its slope or side lands or on any culvert or platform over any drain or collect or gather any articles in the vicinity of a road, so as to interfere with the traffic of the road.

18. **Cutting of plants, trees or hedges obstructing road or drain.**—Any person in possession of, or having control over, any plant, trees or hedges which obstruct, overhang or overshadow any road, or any public drain or sluice, or any drain which is connected with a public drain, shall, if so required by notice in writing, signed by the Chairman or the Vice-Chairman of the district board or a local board, or by the District Engineer, cut down, prune or trim such plants, trees or hedges, within the period, and in the manner, prescribed in such notice.

19. (1) **Damage to bridges, culverts, or causeways in road.**—No person shall destroy or damage, or cause to be destroyed or damaged, any bridge, culvert or cause-way built on or across any road.

(2) No person shall erect any fence or other object on, or before or close to the opening of, any such bridges, culvert or cause-way for the purpose of fishing or for any other purpose, so as to impede the free flow of water thereunder, or so as to cause damage thereto.

(3) No person shall cast nets for fishing purposes on any such bridge or culvert.

20. **Damage to fences, posts, soil, turf or grass on road.**—No person shall—

(*a*) destroy or damage, or cause to be destroyed or damaged, any fence or post or notice board or danger light erected on any road; or

(*b*) dig, scrape, uproot or remove any plants, soil, turf or grass or any material collected from any part of a road;

(*c*) throw dust or rubbish or collect sweepings or manure on a road.

21. (1) **Channel across road.**—No person shall cut a channel, or convey water by a channel, across a road, except with the permission of the Chairman or Vice-Chairman of the district board, or a local board, or the District Engineer, and in such manner as he may prescribe.

(2) Any person who has been permitted by the Chairman or Vice-Chairman of the district board or a local board, or by the District Engineer, to cut a channel across a road, shall, at the time prescribed by him, cover or refill the channel so as to restore the road to its former condition.

(3) Any person who has a prescriptive right to keep a channel open for carrying water across a road shall keep the channel in proper order, so as to prevent danger or inconvenience to the public.

22. **Obstruction of water-way adjoining road.**—No person shall obstruct any waterway adjoining a road, so as to injure or tend to injure the road or otherwise to render the road impassable.

23. (1) **Excavation on or near road.**—No person shall make any excavation on any road, or any hole, pit, tank or well within fifteen feet of any road, without the permission of the Chairman or Vice-Chairman of the district board or a local board or the District Engineer.

(2) Every person by whom, or by whose direction, any hole, pit, tank or well has been excavated within fifteen feet of a road shall be bound to take such order therewith as will prevent damage to, or erosion of, the road.

24. **Protection of excavations on or near road.**—The owner or occupier of any tank, well, or other excavation on or near the side of any road shall be bound to fence in or duly protect such excavation in such manner as may be directed by notice signed by the Chairman or Vice-Chairman of the district board or a local board.

25. **Use of roads, bridges, culverts or canals while closed to traffic.**—No person shall pass over, or drive any animal or vehicle over, any road, bridge, culvert or canal, so as to injure the same, while it is under construction or repair or is affected by flood or is otherwise rendered unfit for traffic and is closed to traffic under the orders of the Chairman of the district board or a local board, or (in emergent cases, pending application to such Chairman) of the District Engineer, without the written permission of the Chairman, district board or local board; no person shall drive a motor bus or motor lorry over any road declared by the Chairman of the district board or local board to be unfit for such traffic.

26. **Discharge of rainfall from roof to road.**—No person shall, without the permission of the Chairman or Vice-Chairman of the district board, or a local board, or the District Engineer, allow the rainfall from the roof of any building owned or occupied by him to be discharged upon any road by means of a spout or other thing intended for the conveyance of water.

27. **Flow of filth on to road.**—No person shall allow the water of any privy, or any matter offensive or deleterious to health, to flow on any road.

28. **Removal of trees or erections falling on to road.**—Any person owning or possessing a tree or a house, wall or other erection which has fallen or part of which has fallen on to a road shall, if so required by notice in writing signed by the Chairman or Vice-Chairman of the district board or a local board, or by the District Engineer, remove such trees, house, wall, erection or part, within the period prescribed in such notice.

29. **Curing hides on or near road.**—No person shall cure hides on or near any road.

30. **Slaughter of animals, cleaning of carcasses, etc., on or near road.**—No person shall slaughter animal, or clean any carcasses, or collect bones, on or near any road.

31. **Placing or burning of bodies on road.**—No person shall place, burn or bury any corpse or the dead body of any animal on or near any road.

32. **Steeping offensive matter in road side drain, pit or excavation.**—No person shall steep any jute, hemp, bamboos, hides or other offensive matter in any drain, borrow-pit or excavation at the side of any road.

33. (1) **Rule of the road.**—Any person driving a vehicle along a road, and meeting another vehicle, shall keep on the left or near side of the road, so as to allow sufficient room for the other vehicle to pass.

(2) No person driving a vehicle along a road and overtaking another vehicle shall attempt to pass the latter vehicle otherwise than on the right or off side of the road.

34. **Freedom of roads.**—No person shall prevent any other person from passing along a road, or shall otherwise interrupt the free use of a road.

35. (1) **Care of animals on road.**—No person in charge of, or having control over, any animal used for riding or draught shall allow such animal to stand or wander on any road without a rider or driver.

(2) No person in charge of, or having control over, any cattle shall allow such cattle to stray or lie on any road so as to cause inconvenience or danger to any person travelling on the road.

(3) No person shall tether any cattle on, or within reach of, a road, or stall cattle or allow cattle to graze on a road.

36. (1) **Care of vehicles on road.**—No person shall drive or have in his charge on any road more than one vehicle at a time.

(2) No person in charge of, or having control over any vehicle shall allow it to stand unattended on any road.

(3) No person shall leave a vehicle standing on a road for any longer time than is necessary for loading or unloading it.

(4) No person shall drive upon a road any vehicle laden with bamboos, planks or other materials of a similar character which exceed twelve feet in length and project beyond the vehicle, unless the vehicle be accompanied also by another person.

(5) All owners and drivers of vehicles loaded with bricks or other materials shall be responsible for their being so secured that the contents thereof may not fall down on any road.

(6) If any vehicle breaks down on a road, the driver shall remove it to the edge of the road without delay, and shall, within a reasonable time, remove from the road all materials (if any) which have fallen from the vehicle, and shall place the vehicle in such a position that it will not obstruct traffic.

(7) No person shall lead or drive any vehicle up or down the slopes of any road, except at crossings fixed by the district board.

37. **Carrying bamboos or bullahs on cart on road.**—No person shall carry bamboos or bullahs on a cart on any road in such a manner as to scrape the road, or to cause injury or annoyance, or risk of injury, to travellers thereon.

38. **Separate tracks for cart traffic and carriage traffic.**—Where separate tracks on roads have been set apart for carts and carriages, respectively, no carts shall be permitted to pass over the portion reserved for carriages.

39. **Transport of heavy machinery over bridge.**—No person shall transport heavy machinery over a timber bridge so as to injure the bridge.

40. **Lighting of vehicles on road.**—Every carriage including a spring ekka (tum tum) drawn by a horse or horses, every wagon drawn by any other animals or propelled by motive power, and every motor car shall carry two conspicuous lights, one on either side, and every two wheeled cart and springless (country) ekka and every bicycle, tricycle and multicycle shall carry one conspicuous light, when travelling on a road between dusk and dawn, except on clear moonlight nights.

41. **Care of children on roads.**—No parent, or other person for the time being in charge, of any child under five years of age shall allow such child to stray on any road so as to cause obstruction or risk of obstruction to traffic.

42. **Nuisance on roads.**—No person shall commit a nuisance on any road.

43. **Tapping, or taking fruit from, trees on road.**—No person shall tap any date or palm tree, or remove fruit from any tree, planted by, or under the control of, the district board or any local board, without a lease or written permission previously obtained from the Chairman of the district board or local board.

Fires.

44. **Lighting of fires.**—No person shall light a fire in any unenclosed place within ten yards of any wooden bridge vested in the district board, or within fifty yards of any inspection or dak bungalow vested in the district board or a local board.

Water Supply Reserved for drinking and Culinary purposes.

45. **Taking of water.**—No person shall take water from a reserved tank or well, except for drinking of water or culinary purposes, save with the express permission of district board or a local board.

46. **Bathing or washing.**—No person shall—

(a) bathe or wash any portion of his own body or the body of any other person; or

(b) wash clothes; or

(c) wash any cattle or other animal; or

(d) allow any of his ducks, geese or other birds to enter the water,

in any reserved tank or well, or upon any of the banks, slopes, or sides of any reserved tank or well.

47. **Fouling of water.**—No person shall—

(a) commit any nuisance in, or on the banks or slopes or sides of, any reserved tank or well, or

(b) throw any filthy substance thereinto, or

(c) in any way pollute the water thereof, or

(d) allow the water of any sink, sewer, cesspool or privy, or any offensive matter belonging to him or being on his land, to flow thereinto,

(e) bury any dead body on the banks or slopes of it.

Explanation—Steeping jute or bamboos in a reserved tank amounts to an offence against this by-law.

48. **Removal of earth or grass from the sides or slopes.**—No person shall cut sods or grass, or remove earth or grass from, or otherwise damage, the sides or slopes of any reserved tank, without the express permission of the district board or a local board.

49. **Overhanging trees or vegetation.**—No person shall allow any trees, bamboos or other vegetation growing on land in his occupation to overhang any reserved tank or well so as to foul the water thereof, or shall fail to cut and remove the same after reasonable notice in that behalf from the district board or a local board.

50. **Cultivation on banks, sides or slopes of reserved tank or well.**—No person shall cultivate the banks, sides or slopes of a reserved tank or well, except in such manner as may be approved by the district board or a local board or a union committee.

51. **Building on banks, sides or slopes of reserved tank or well.**—No person shall erect any hut or house upon the banks, sides or slopes of a reserved tank or well without the permission of the district board or a local board or a union committee.

52. **Dams, stakes and fishing apparatus.**—No person shall construct dams, fix stakes, or place fishing nets or apparatus across, or in, any reserved tank or well, or any part of a river, khal or other channel set apart under section 90 of the Bengal Local Self-Government Act of 1885 for the supply of water for drinking and culinary purposes.

53. **Fishing.**—No person shall catch or attempt to catch fish in a reserved tank or well without the permission of the district board or a local board or a union committee.

54. No person shall interfere with any boundary marks of road side lands, mile stones or posts on district board roads.

55. No person shall make any aerated water or ice for the purpose of sale without first boiling it.

56. No person shall retain or sell clothing found on the dead body of a person who has died of small-pox, cholera or other infectious diseases or prevent destruction of the same by officers of health of the district board.

57. No person shall wash or cause to be washed in any tank or water course or any other receptacle for water used by the public for drinking or bathing purposes any clothes, bedding or other articles which have been used by a person suffering from any infectious or contagious disease.

58. No person shall bathe, or shall wash clothes, utensils or any other article within a distance of twenty feet from any public well.

59. No person shall ease himself at the side of or into any river, stream, channel, tank or well which is used by the public or any district board road.

The penalty for infringement of any of the by-laws 16 to 59 shall be a fine not exceeding the sum of Rs. 10 for the first offence and in the case of a second or subsequent conviction for a similar offence to a fine not exceeding Rs. 50 and in case of a continuing offence to a fine not exceeding Rs. 5 for each day during which such offence is continued after conviction therefor.

(i) the rights and obligations of each tenant and landlord in respect of—

(i) the use by tenants of water for agricultural purposes, whether obtained from a river, jhil, tank or well or any other source of supply, and

(ii) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such land;

(j) the special conditions and incidents, if any, of the tenancy;

(k) any right-of-way or other easement attaching to the land for which a record-of-rights is being prepared;

(l) if the land is claimed to be held rent-free—whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority:

Provided that if lands are not used for purposes connected with agriculture or horticulture, it shall be sufficient to record that fact together with the prescribed particulars relating to the occupant, the landlord and the tenancy.

FINAL FORECAST OF THE JUTE CROP, 1931.

Consolidated statement for Bengal, Bihar and Orissa and Assam.

Area.—The revised estimated area for the three provinces is 1,858,100 acres, a decrease of 1,634,200 acres as compared with the revised final forecast for 1930. The decrease as compared with the acreage in the Preliminary Forecast for 1931 is due to reduction after revision in the Bengal and Assam estimates.

Yield.—It is estimated that this crop will yield 5,559,900 bales of jute, reducing last year's total (revised) by 5,694,900 bales.

The consolidated returns are as follows:—

Province.	Area in acres.			Yield in bales.		
	1930.	1931.	Difference	1930.	1931.	Difference
Bengal (including Cooch Behar and Tripura States).	3,062,300	1,613,700*	-1,448,600	9,966,000	5,002,700	-4,963,300

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop of Bengal, 1931.

[**NOTE.—On an average of the five years ending 1929-30, the area under jute in Bengal, to which this forecast relates, represents some 86·3 per cent. of the total area under jute in British India.**]

Season.—Sowings were carried out in favourable circumstances generally. Afterwards excessive rain in May did damage in Netrakona and Kishoreganj subdivisions of Mymensingh. Elsewhere conditions remained suitable and the crop made good progress. In the end of July the Brahmaputra came down in record flood and did some damage in riparian areas. Little serious outright loss appears to have taken place, except in the *bhil* tract in Pabna; but some damage also took place in Bogra, and to a smaller extent in Faridpur, Dacca and Mymensingh.

The river has now receded to normal.

Condition of the crop.—Except in the tracts mentioned, the crop is well grown. Owing to rise and fall of water in the flood areas, increased root and poor quality may result.

Area of the crop.—The area under jute is 1,613,700 acres as compared with 3,062,300 acres in 1930.

Outturn.—As in previous years, the percentage figures are calculated on the basis of divisional normals which remain as follows:—

	Bales per acre.
Dacca and Chittagong Divisions ..	3·7
Rajshahi Division ...	3·5
Presidency and Burdwan Divisions ...	3·2

The total outturn of the crop is estimated at 5,002,700 bales as compared with 9,966,000 bales last year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1931.

[NOTE.—On an average of the five years ending 1929-30, the area under jute, to which the Bihar and Orissa forecast relates, represents about 7·6 per cent. of the total area under jute in British India.]

Acreage.—The final district returns of the eight jute-growing districts of the province show an area under jute of 147,500 acres. But these estimates have proved to be very low, and I have no reason to alter the estimate made in the preliminary forecast, viz., 148,800 acres. Last year's estimate of the area under the crop was 238,000 acres.

Weather conditions.—In March light showers fell in the jute districts. The fall was above the normal in Champaran, Darbhanga, Bhagalpur, the Santal Parganas, Balasore, normal in Purnea, and below the normal in the remaining two jute districts. In April and May light rain fell in all the jute districts. The fall was below the normal everywhere. In June rain fell in all the jute districts. The fall was below the normal everywhere. In July rain fell in all the districts. The fall was above the normal in Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Purnea and the Santal Parganas, and below the normal in the remaining two jute districts. In August rain fell in all the districts; the fall during the first fortnight was light to moderate, but during the later period it was heavy in Cuttack and Balasore and light to moderate elsewhere. The weather conditions are reported to have not been favourable in the most important jute district of Purnea and also in Balasore, Darbhanga and the Santal Parganas and fair in the remaining jute districts.

Outturn.—In the important jute districts of Purnea and Cuttack the outturn of the crop has been estimated at 50 and 82 per cent. of the normal respectively. Champaran reports a normal crop, i.e., 100 per cent., Muzaffarpur, Darbhanga, Bhagalpur, the Santal Parganas and Balasore report 75, 68, 60, 65 and 60 per cent., respectively.

On the basis of the area and percentage outturn reported by the District Officers the average condition of this year's crop for the province comes to 55 per cent. against 58 per cent. last year. But in my opinion, this is an underestimate, and the condition factor will not be less than 69 per cent. of the normal. Recent enquiries about the normal outturn per acre show that the normal outturn per acre is 3⅓ bales, and on this basis the gross outturn on 148,800 acres estimated to be under jute in this province comes to 342,200 bales against 620,000 bales last year. The import of jute from Nepal estimated at 25,000 bales brings the total of the province to 367,200 bales.

Director of Agriculture, Bihar and Orissa.

	Muzaffarpur ..	1,934,630	1,627,000	2,500	4,000	4,000	75	72	9,990	9,000	Not yet begun ..	The condition of the crop is good.
	Darbhanga ..	2,142,720	1,677,800	1,600	1 236	312	75	63	3,036	630	By middle of September	The weather and rainfall have not been favourable. The prospect of the crop is fair in Samastipur and Madhubani subdivisions. The decrease in area shown in column 7 as compared with that of the first forecast is due to the fact that the entire area (909) acres under jute cultivation in Sadar subdivision has been damaged by floods.
Bhagalpur	Bhagalpur ..	2,661,120	1,654 100	2,600	4 305	2 075	[illegible]	60	11 623	3,735	August (normal) ..	The decrease in area sown is due to fall in prices of jute.
	Purnea ..	3,196,160	1,694,400	175,400	140 000	120 000	50	50	233,100	199,800	End of July (late) ..	The weather and rainfall were not favourable for the growth of the crop. The sowing was late at places for want of timely rainfall while at others it was normal where the crop was sown in low lands. The decrease in area under the crop is due to slump in jute and want of timely rains. The recent rains benefited the crop and consequently the outturn is expected to be the same as last year. The harvesting, steeping and washing of jute are in progress.
	Santal Parganas ..	3,500,800	1 717,900	1,000	750	500	[illegible]	65	1 500	975	Not yet commenced (late)	The climatic condition having been not very favourable at the outset, the outturn is expected to be fair.

	Balasore ..	1,334,400	932,200	2,600	[illegible]	2 400	50	60	7 459	4,320	Not yet begun ..	The area sown in the first forecast has been reduced owing to low price of jute and late rainfall in the district as sowings could not be made at places. The general prospect is fair.

	Acres.	Acres.	Acres.			Bales.	Bales.		
Cachar ..	300	200	200	65	60	500	400	Middle of August. Normal.	The weather was not favourable in the beginning of the season owing to incessant rainfall but it improved later. Insects also caused some damage to the crop.
Sylhet ..	20,000	19,800	5,000	54	38	37,400	6,600	July. Normal ..	The large decrease in area is due to the abnormally low price of jute last year. The area reported in the preliminary forecast has been greatly reduced, much of the area sown having been subsequently abandoned owing to unfavourable weather which is also responsible for the low estimated outturn.
Goalpara ..	60,000	(a) 63,300	35,300	100	45	221,500	55,600	End of July. Late.	The decrease in area is due partly to unfavourable weather and partly to the low price of jute. The weather on the whole has been unfavourable for the crop which has also been damaged by floods in low-lying areas. Hailstorms also caused some damage.
Kamrup ..	15,000	27,100	15,000	90	51	85,400	28,300	First week of August. Normal.	Unfavourable weather at the sowing time and the unusually low price of jute account for the decrease in area. The weather was generally unfavourable throughout the season for the cultivation and growth of the crop. Floods also did some damage.
Darrang ..	12,600	18,600	13,700	95	75	61,900	36,000	July. Early ..	The low price of jute and unfavourable weather in the beginning of the season are responsible for the decrease in area. The weather from June to middle of July was favourable but heavy rains and the flood in the latter part of July caused some damage to the crop in low-lying areas.
Nowgong ..	40,000	56,600	20,400	95	65	188,200	46,400	Beginning of July. Early.	The decrease in area is due to the extremely low price of jute. The weather has not been generally favourable during the season, and in the last part of July the crop was damaged by floods. Insects also caused some damage.
Sibsagar ..	300	400	300	100	80	1,400	800	Middle of August. Normal.	The decrease in area is due to unfavourable weather at sowing time. Weather subsequently became more favourable, but some damage by flood is reported.
Lakhimpur ..	200	1,100	900	88	75	6,800	2,400	August. Normal	The decrease in area is due to the low price of jute. The weather on the whole was favourable but flood has caused some damage to the crop.
Garo Hills (plains)	3,300	4,900	4,800	90	80	15,700	13,400	Middle of July. Normal.	The decrease in area is due to dullness of the jute market. The weather was generally favourable for the crop.

DEPARTMENT OF AGRICULTURE, ASSAM.

Final Forecast of Jute Crop of Assam, 1931.

[NOTE.—On the average of the five years ending 1929-30, the area under jute in Assam represents 5·0 per cent. of the total area under jute in British India.]

Season.—As already stated in the preliminary forecast, the weather in the beginning of the season was generally unfavourable for the cultivation and growth of the crop. The conditions somewhat improved later on, but on the whole the general effect of the season has been unfavourable to the crop. Some damage by flood has been reported from the Assam Valley districts, while in Sylhet incessant rain after sowing caused considerable areas of the crop to be abandoned.

2. **Area.**—As estimated by the Deputy Commissioners, the area under jute is 95,600 acres compared with last year's actual of 192,000 acres, and this year's preliminary forecast of 100,500 acres. Area reported in the preliminary forecast has been revised in four districts.

3. **Outturn.**—The outturn has been estimated to be 57 per cent. of the normal per acre, against 72 per cent. (revised) of last year. Taking 3·5 bales of 400 lbs. each of jute fibre as the normal yield per acre, the total produce of the crop in this province this year comes to 189,900 bales against 618,800 bales (revised) of last year, or a decrease of 69 per cent.

EDUCATION DEPARTMENT.

DARJEELING, THE 15TH SEPTEMBER 1931

RESOLUTION No 845T Edn

Minister-in-charge: The Hon'ble Mr. K. Nazim-ud-Din, C.I.E.

The Government of Bengal (Ministry of Education) have received information of participation by certain students of Government institutions in demonstrations in connection with convictions in murder cases and consider it necessary to issue the following warning for the information of parents and guardians of students reading in Government colleges, schools, madrasahs and other Government institutions controlled by the Education Department

Government wish it to be clearly understood that in future they are unwilling to retain in any Government institution a student who, by absenting himself from classes or by any action during class hours, associates himself with demonstrations in connection with decisions of criminal courts All students who do so will be given transfer certificates and required to leave the institution forthwith, if they have absented themselves they will not be re-admitted Only in exceptional cases are heads of institutions allowed discretion to re-admit defaulters under suitable conditions, but Government expect that this discretion will be firmly used and require that every case in which it may be exercised should be reported to the Director of Public Instruction, Bengal, immediately

ORDER Ordered that a copy of the Resolution be published in the *Calcutta Gazette*

Ordered also that a copy of the Resolution be forwarded to the Director of Public Instruction, Bengal, for information and circulation to heads of institutions

By order of the Government of Bengal
(Ministry of Education),

A J DASH,
Secy to the Govt of Bengal

NOTICE.

Examination of Compounders and Dressers at the Dacca Medical School.

It is hereby notified for general information that the next half-yearly examination of compounders will be held on the 3rd November 1931 and subsequent days.

(a) No person will be admitted to the examination unless he produces certificates as required by rules 9, 10, 11 and 12 of Government notification No. 1410Medl., dated the 7th July 1913.

(b) All male candidates must forward to the Superintendent, Dacca Medical School, an examination fee of Rs. 5 at least one week before the commencement of the examination. A fresh fee must be paid on each occasion that the candidate enters for the examination, but a candidate, who, after payment of the fee, is unable, through illness, to attend the examination, will be allowed, on producing a satisfactory medical certificate, to attend the next examination without payment of fresh fee.

(c) Women candidates are examined free of charge.

(d) Passed compounders, who have completed a further three months' course of dressing prescribed in rule 13, and students of the Licentiate class of this school, on the completion of their second year's course, will be allowed to appear at an examination in bandaging, sterilization of dressings and instruments, and in minor duties of hospital work. A fee of Rs. 2 shall be charged for this examination.

This examination is also open to persons qualified for admission to the examination prescribed under the rules for the grant of certificates to compounders, on production of a certificate that they have received instruction in a hospital or dispensary ~~recognised~~ recognised by Government in bandaging, preparation of anteseptic lotions and dressings, sterilization of dressings and instruments, and in the duties of a hospital dresser. Such persons shall be required to pay a fee of Rs. 2 for this examination.

C. R. O'BRIEN, LT.-COL., I.M.S.,
Supdt., Dacca Medical School.

Bengal Engineering College.

The 29th August 1931.

Under the authority of the Government of Bengal, an examination called the "Bengal Local Bodies Accountants' Examination" will be held at the Bengal Engineering College, Botanic Garden post-office, Howrah, on Monday, the 11th January 1932, and the following two days, concurrently with the Divisional Accountants' Examination.

No candidate will be admitted to the Local Bodies Accountants' Examination unless he is over 24 years of age and thus ineligible to appear at the Divisional Accountants' Examination.

For the prospectus, application should be made to the Principal, Bengal Engineering College, post office Botanic Garden, Howrah.

No. 8545A.—22nd September 1931.—In pursuance of Rule IX of the Bengal Provincial Services Recruitment Rules* published in notification No. 7183A., dated the 22nd May 1930, the Government of Bengal are pleased to notify the following particulars and instructions regarding the direct appointments to be made in 1932 to the Bengal Civil Service (Executive):—

1. **Vacancies.**—The following vacancies will be filled by direct appointments:—

Bengal Civil Service (Executive) 6

In addition to these appointments four appointments in the Upper Division of the Bengal Secretariat clerical service will be available to candidates who qualify for appointment to the abovenamed service but whose places in the list are not sufficiently high to enable them to secure appointments.

Under the terms of the Finance Department Resolution No. 3219F., dated the 7th August 1931, the new recruits will on first appointment be appointed on a provisional basis and draw as initial pay that at present sanctioned minus 15 per cent. No direct appointment will be made to the Bengal Police Service, the Bengal Excise Service, the Bengal Junior Civil Service or the Bengal Junior Excise Service.

Each candidate will be required to specify in his application the service or services for which he desires to compete, placing them in the order of his preference, and *the choice thus indicated will be final.* Appointments will be assigned to successful competitors with due consideration of their choice and the number of vacancies in the services.

2. **Method of recruitment.**—The appointments will be made by competitive examination in the manner prescribed in Part B of Schedule II of the Bengal Provincial Services Recruitment Rules.

3. **Qualifications.**—The indispensable qualifications of a candidate are—

(*i*) that he is a native of Bengal or has a permanent domicile within the Presidency of Bengal;

(*ii*) that he is a natural born subject of His Majesty, or of an Indian State in respect of whom the Governor General in Council has made a declaration under section 96A of the Government of India Act;

(*iii*) that he shall have attained the age of 22 and shall not have attained the age of 25 on the 1st October 1931;

(*iv*) that he is a graduate of a recognised University;

(*v*) that he is of good character; and

(*vi*) that he is of sound health, good physique, active habits and free from organic defect or bodily infirmity.

Along with his application every candidate shall submit proof of his age as explained in the form of application and certificates, written not more than one year prior to the date of his application, from two responsible persons unconnected with his College or University, and not related to him, testifying to his private character and stating that he is a native of or has a permanent domicile within the Province of Bengal.

4. **Applications—Method of submission of fee, etc.**—(*i*) A person desiring to be admitted to the examination shall apply before the 15th November 1931 to the head of the college from which he passed his

* Copies of these Rules (price annas six) are obtainable from the officer in charge, Book Depot, Bengal Secretariat, Calcutta.

examination for the degree of Bachelor of Arts, Science, Commerce, etc. A candidate who passed the examination as a non-collegiate student shall send in his application to the Registrar, Calcutta University, together with a certificate of character signed by the Principal of his college if he was connected with one, and by the Magistrate of the district in which he is resident in other cases; candidates from the Dacca University shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal:

Provided that in no case shall a candidate apply to more than one of these authorities, and that such application shall always be made through their Durbars by persons resident in a State in India.

(*ii*) Applications shall be made, in the form shown in Schedule I, copies of which may be obtained from the heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction.

(*iii*) No application will be taken into consideration by the receiving authority unless it is accompanied by non-judicial stamps of the value of Rs. 5 or a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. This payment is obligatory whether such application is subsequently rejected or not. Applications stamped with postage stamps will not be accepted.

5. **Selection Committee.**—The Government of Bengal will appoint a Selection Committee to examine the applications of nominated candidates and their eligibility for admission to the examinations. This Committee will be composed of officials and non-officials in equal numbers and will be presided over by a high officer of Government.

6. **Nomination.**—The heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction, Bengal, shall forward to the Selection Committee before the 30th November 1931, the applications of candidates nominated in accordance with the allotment of nominations shown in Schedule II and shall certify the moral character of each candidate so nominated. The application of non-collegiate students nominated by the Registrar of the Calcutta University should be supported by the character certificates mentioned in paragraph 3 above. In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service. Care should be taken to nominate only such candidates as are likely to pass the medical examination since experience shows that a considerable number of candidates successful in the literary examination fail to pass the medical test.

7. **Selection certificates.**—In order to make the appraisement of individual merits of candidates possible, the Selection Committee shall issue certificates of selection to such of the nominated candidates, not exceeding 200 in all, as it considers qualified to appear at the examination. The selection or rejection of a candidate by the Selection Committee shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate:

Provided that in making their choice the Selection Committee shall give all possible consideration to the cases of candidates of the minority communities and the backward classes and shall call for further nominations from the heads of colleges or Commissioners of Divisions if the number of selected Muhammadan candidates does not reach 45 per cent. of the total number selected.

8. **Particulars of candidates.**—The Selection Committee may require such further proof or particulars from the candidates as it may consider necessary, and may make enquiries regarding their character and domicile.

9. **Examination fee and time-table.**—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit in the nearest treasury in Bengal a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary to the Selection Committee. No part of the fee will be returnable to a candidate. Delay in this respect may render a candidate's name liable to removal from the list of examinees. On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination. The examination will commence on the 15th February 1932 and will be held at the Presidency College, Calcutta.

10. **Canvassing.**—Any attempt on the part of a candidate to enlist support for his application through persons of influence or officials of Government will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

11. **Ineligibility of Government servants.**—Unless specially exempted by Government by general or special order, no person holding a substantive appointment in Government service is eligible to appear at the competitive examinations. Whenever such exemption is granted, the candidate will be subject to selection by the Selection Committee, as if he were duly nominated under paragraph 6 above.

12. **Syllabus of examination and marks.**—The examinations will be held in the subjects and according to the syllabus shown in Schedule III which also indicates the numerical value to be attached to each paper at the examination.

As the possession of a knowledge of a provincial vernacular is an essential condition of appointment, candidates, whose ordinary spoken and written language is not Bengali, must take up translation from English into one of the provincial vernaculars named below:—

(*i*) Bengali, (*iii*) Urdu,

(*ii*) Hindi, (*iv*) Nepali,

and *vice versa* in the compulsory paper. Successful candidates, however, who have offered any language other than Bengali in that paper and are appointed to a service for which there is a Departmental Examination, will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

13. **Medical Examination.**—As soon as the results of the examinations have been declared, a proportion of the candidates who have qualified will be called upon to appear before a Medical Board for a certificate of their fitness for Government Service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules. An order to appear before the Medical Board must not however be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be slightly in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. The regulations governing the physical examination of candidates are set forth in Schedule IV of the Bengal Provincial Services Recruitment Rules and intending candidates are advised before they apply for admission to the examination to satisfy themselves that they are likely to qualify as physically fit under those regulations, for recent experience has shown that a considerable number of the candidates at the competitive examinations are subsequently rejected by the Medical Board as unfit.

R. N. Reid,

Chief Secy. to the Govt. of Bengal (offg.).

SCHEDULE I.

Write your surname here...

Application form.

For the use of candidates seeking admission to the competitive examination for appointment to any of the following services:—

The Bengal Civil Service (Executive).
The Bengal Police Service.
The Bengal Excise Service.
The Bengal Junior Civil Service.
The Bengal Junior Excise Service.

N.B.—1. Copies of the form may be obtained on application to the Principals of Colleges, Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction.

2. Before filling up the form the candidate should verify from the rules and the syllabus that he is eligible for admission to the examination.

3. The form should be filled up in the candidate's own handwriting and returned **by 15th November 1931** to the Principal of the College by collegiate students, to the Registrar, Calcutta University, by non-collegiate students, to the Registrar, Dacca University, by candidates from that University, and to the Director of Public Instruction, by all other candidates.

Applications received after the prescribed date will not be accepted.

4. If a candidate who fills up and returns the application form does not receive an acknowledgment for the same within a reasonable time, he should at once communicate the fact to the authority to whom the form was returned.

5. Should any of the particulars furnished be found to be false within the knowledge of the candidate, he will, if appointed, be liable to be dismissed. The wilful suppression of any material fact will also be similarly penalized.

6. Every candidate must submit with his application form a copy of his Matriculation certificate duly attested by a Magistrate or other responsible person. If the Matriculation certificate does not contain sufficient particulars to show that the candidate is qualified by age to enter for the examination, a certificate from the candidate's University or College showing his date of birth as recorded on entering the University or College must also be furnished. The age of a candidate as recorded on entering his University is regarded as correct unless there is a proof to the contrary. If a candidate claims that his age is other than as so recorded he must submit with this application the evidence on which he bases his claim. In such a case the Selection Committee will require among other evidence a satisfactory explanation of the circumstances in which a wrong age was recorded at the time of entry into the University They will also require a statement of any attempts made by the candidate to have the University record amended and of the results of such attempts. The statement of age must tally with the statement of age made in any previous application of this nature and will be deemed absolutely final. No revision of such a declaration will be allowed at a later period for any purpose whatever.

7. Every candidate must submit with his application non-judicial stamps of the value of Rs. 5 or a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. No part of this fee will be returnable to any applicant, whatever the result of his application. Applications unaccompanied by the fee, or stamped with postage stamps, will be ignored.

9. Name in order the schools attended since the age of 12, giving addresses with dates of entering and leaving.

---

10. State your age on finally quitting school.

---

11. (*a*) Name your University and College.

(*b*) Give the dates of entering and leaving.

(*c*) State any degrees, honours or prizes obtained, and the year of graduation.

(*d*) State the class in which you were placed in the case of a Master's degree or a Bachelor's degree with honours.

---

12. Give the name of the Vice-Chancellor or Principal or Professor who can vouch for your character.

---

13. If the time since leaving school is not fully accounted for by the replies given above, account for the remainder here with dates.

If you have been in employment at any time state the names and addresses of your employers.

---

14. Give the names, professions and present addresses (in full) of the two referees from whom you submit certificates as to your character and domicile.

---

15. (*a*) Are you free from pecuniary embarrassments ?

(*b*) If you are under liability to repay money advanced by an institution or party for your education, state the particulars.

---

16. (*a*) Have you appeared at any previous examination for Government service ?

(*b*) If so, state—

(*i*) when

(*ii*) for what appointment ?

---

17. Have you applied for admission to any other examination (*e.g.*, Indian Audit and Accounts Service examination, Railway Service examination etc.) during the year ?

---

18. (*a*) Have you previously been rejected for any appointment in Government service ?

(*b*) If so, state—

(*i*) whether you were rejected on the result of a medical examination and if so on what occasions you were rejected and for what service you were competing.

(*ii*) If you were not rejected on the result of a medical examination on what occasions you were rejected and for what reasons if known.

---

19. For which service do you desire to compete ? If for more than one state the order of your preference.

Declaration of choice of subjects for examination.

Place your initials against the subjects in which you wish to be examined if you are chosen for admission to the examination and state the language you choose for compulsory translation. A candidate having once made a declaration as to the optional subjects which he wishes to take up for examination will not be permitted, except for very special reasons, to alter his choice of subjects, and in no circumstances will any such application be considered which reaches the Director of Public Instruction after the 1st of January 1932. Refer for guidance to the accompanying syllabus:—

SCHEDULE III.

Syllabus for the competitive examination for appointment to the Bengal Civil Service (Executive), the Bengal Police Service, the Bengal Excise Service, the Bengal Junior Civil Service and the Bengal Junior Excise Service.

I.—Compulsory subjects—

		Maximum marks.
1.	(a) Translation from English into Bengali, Hindi, Urdu, Nepali, French or German	100
	(b) Translation from Bengali, Hindi, Urdu, Nepali, French or German into English	100
2.	English Composition	200
3.	Elementary Mathematics (chiefly problems)	200
4.	General paper	200
	Total	800

Students whose ordinary spoken and written language is not Bengali will be required to take up translation from one of the four Indian vernaculars mentioned above (*viz.*, Bengali, Hindi, Urdu, Nepali) into English and *vice versa*. Only those whose spoken and written language is Bengali are allowed to take up French or German in the compulsory subjects.

There will be one paper in each of the compulsory subjects. No candidate will be considered for an appointment unless he secures 33⅓ per cent. of the marks in each of the first two compulsory subjects, and if he fails to secure 25 per cent. of the marks in any of the other two compulsory subjects he will score no marks in that subject.

II.—Optional subjects—

			Maximum marks.
	Any two or more of the following: provided that the total number of marks obtainable under this head must not exceed 600.		
1.	English Literature		300
	(a) General History of English Literature ..	150	
	(b) English Literature from 1832 to the present day	150	
2.	Mathematics		300
	(a) Pure	150	
	(b) Mixed	150	
3.	Physics		300
	(a) General, Heat, Light	150	
	(b) Magnetism, Electricity	150	
4.	Chemistry		300
	(a) Inorganic	150	
	(b) Organic	150	
5.	One classical language chosen from Latin, Greek, Sanskrit, Arabic, Persian, Pali or Urdu (for those whose mother-tongue it is not)		300
	(a) Translation	150	
	(b) Language, Literature and Grammar ..	150	
6.	History		300
	(a) Indian	150	
	(b) English and European	150	
7.	Philosophy		300
	(a) Metaphysics and Ethics	150	
	(b) Psychology	150	
8.	Economics		300
	(a) Political Economy	150	
	(b) Economic History and application to India ..	150	
9.	Botany		300
	(a) and (b) Two papers	150 each	
10.	Geology		300
	(a) and (b) Two papers	150 each	

II.—Optional subjects

		Maximum marks.
11.	**Physiology**	300
	(a) and (b) Two papers .. .. .. 150 each	
12.	Zoology	300
	(a) and (b) Two papers .. .. .. 150 each	
13.	History of Islam	300
	(a) General Islamic History 150	
	(b) Islamic Philosophy and Culture 150	
14.	Constitutional History of England and the Empire 150	
15.	Ancient Indian History and Culture 150	
16.	Political Theory and Political Organization .. 150	
17.	Anthropology 150	
18.	Comparative Philology 150	
19.	Bengali Language and Literature 150	
20.	Geography 150	
21.	International Law 75	
22.	Roman Law 75	
23.	Jurisprudence and Principles of Legislation .. 75	
24.	English Constitutional Law 75	
25.	Hindu Law 75	
26.	Muhammadan Law 75	
27.	Commercial Law 75	
28.	Statistics 75	

(*i*) There will be two papers in each of the optional subjects 1-13 and one paper only in each of the remaining subjects. Candidates who select as their optional subjects Physics, Chemistry, Botany, Geology, Physiology or Zoology and have not produced evidence that they possess a degree in the subject or subjects selected will be required to pass a practical test. If they fail to satisfy the examiners in this test they will earn no marks in the whole subject.

(*ii*) If a candidate fails to secure 25 per cent. of the marks in any one of the optional subjects selected he shall score no marks in that subject.

(*iii*) Candidates will also be liable to undergo a *viva voce* examination if so required by the examiners.

(*iv*) In awarding marks in all the subjects the candidate's knowledge of English, as shown by the answers, will be taken into account.

(*v*) Ten per cent. of the marks obtained in any paper will be subject to deduction for bad writing and untidiness.

(*vi*) The following details may prove helpful to a candidate as indicating the standard and nature of the examination:—

I.—COMPULSORY SUBJECTS.

1.—Translation and Retranslation.

The examination will be directed to test not the extent of the candidate's knowledge of any literature (English, Bengali, Hindi, Urdu, Nepali, French or German), but only facility in rendering from one language into another with reasonable accuracy and elegance. In the case of candidates whose ordinary written and spoken language is not Bengali and who did not take up Bengali as their vernacular at the University examinations the tests in this paper will be equivalent to the tests in the subject prescribed in the rules for the lower standard of the Departmental Examination in Bengali for Civil officers, and such candidates will after appointment and before confirmation be required to pass the Departmental Examination by the higher standard in Bengali.

2.—English Composition.

Questions will be set to test the candidate's power of writing clear and expressive English. They will include letter-writing on given subjects, the rapid summarisation of the subject matter of passages in prose of about 500-600 words in length and the detailed paraphrase of poetry.

The general standard of the subject matter will be that of the pass B.A. degree of an Indian University.

3.—Elementary Mathematics.

Vulgar and Decimal Fractions. Ratio and Proportion. Areas and Volumes of Simple Figures and Solids. Percentages. Simple Interest. Easy Factors. Simple Equations. Graphs of Simple Equations and of Sets of Data. Elementary Geometry of the Straight Line, Triangle and Circle.

The paper will consist largely of Problems with Arithmetical Data.

4.—General Paper.

Questions will be set on current topics, general history or similar subjects with which an educated candidate should be acquainted.

II.—OPTIONAL SUBJECTS.

1.—English Literature.

(*a*) General history of English literature. Questions will be set to test the candidate's knowledge of the more important works of the greater writers from (and including) Chaucer to the present day.

(*b*) English literature from 1832 to the present day. Candidates will be expected to know the work of the greater writers of the age, and to be able to understand such literature in relation to the main social and historical developments of the age.

Note.—In either paper, questions on the history of literary forms, style and prosody will not be excluded.

2.—Mathematics.

(a) Pure.

(i) Algebra.

Binomial theorem.
Convergency, divergency, and summation of series.
Variation.
Theory of limits.
Inequalities.
Continued fractions.
Determinants.
Elementary theory of equations including the approximate solution of numerical equations.

(ii) Geometry.

Geometry of the triangle, circle and conic sections.

Analytical Geometry of the straight line and conic sections.

Trigonometry: circular and hyperbolic functions: properties of triangles: summation of series: De Moivre's theorem: factorisation: expansion of the circular and hyperbolic functions in series.

Geometry of three dimensions: plane straight line: conicoids: generating lines of conicoids: curvature of surfaces.

(iii) Differential and integral calculus.

Theory of limits: differentiation: maxima and minima: summation of series: partial differentiation: integration: definite integrals: reduction formulæ: differential equation of the first and second orders: Fourier's series: applications to the geometry of curves.

(b) Mixed.

(i) Statics.

Statics of single particle.
Statics of systems of particles.
Friction.
Centre of mass.
Principle of virtual work.
Equilibrium of strings.
Machines.

(ii) Dynamics of a particle.

Velocity, acceleration, laws of motion.

Projectiles.

Impact.

Work and energy.

Motion of a particle in a plane under the influence of forces: orbits.

(iii) Hydrostatics.

Fluid pressure: centre of pressure on curved surfaces.

Conditions of equilibrium of a floating body.

Theory of the Metacentre.

Hydraulic and pneumatic machines.

(iv) Astronomy.

Elementary spherical trigonometry: refraction: parallax: precession: nutation: aberration: the sun and the moon: eclipses: measurement of time: the equation of time: determination of latitude and longitude: sextant: the principal instruments in an observatory: descriptive, discussion of the principal constellations: comets: nebulas.

3.—Physics.

(a) General, Heat and Light.

(i) General Properties of matter.

Gravitation, elasticity, viscosity, surface tension, Kinetic theory of gases.

(ii) Heat.

Thermometry, expansion, calorimetry, change of state, conduction, radiation, thermodynamics.

(iii) Light.

Reflection and refraction, dispersion and chromatic aberration, spherical aberration, optical instruments, velocity of light, the spectrum, interference, diffraction and polarisation.

(b) Magnetism and Electricity.

The electrostatic field, conduction, condensers, specific inductive capacity, magnetism permanent and induced, electric currents, magnetic force due to currents, electro-magnetic induction, electrolysis, heating effects, thermo electricity, discharge of electricity through gases, radioactivity, structure of the atom.

(c) Practical.

The practical examination involves experimental work ranging over the above syllabus.

The standard is indicated by the following text books:—

General Properties of Matter	Poynting and Tomson.
Heat	Poynting and Tomson.
Light	Preston.
Magnetism and Electricity	J. J. Thomson.

4.—Chemistry.

(a), (b) and (c) Inorganic, Organic and Practical.

Kinetic Theory of Molecules and its applications; Dalton's Atomic theory; Atomic and molecular weights; Structural Chemistry and Stereo-isomerism; Periodic Law; Radio activity and modern views regarding the constitution of matter. Laws of true solution; Colloidal solution; Ionic theory and its applications. Conditions of Chemical equilibrium in a homogeneous and a heterogenous system; Rate of chemical transformation; Catalysis. Phase rule and its application to one and two component systems. Nature of energy and its transformation in Thermo Chemical and Electro Chemical reactions.

The common elements and their important compounds; the inert gases; complex inorganic amines and cyanides. Manufacture of the common industrial products—organic and inorganic—with special reference to Indian conditions. The following organic compounds and their simple derivatives:—methane and ethane: ethylene and acetylene; benzene, toluene, anthracene, pyridine and napthalene, methyl, ethyl and propyl, alcohol, ethyl acetoacetate and ethyl malonate; lactic, oxalic, malonic, succinic, malic, tartaric and citric acids; fumaric and maleric acids, glycerol and urea. Chemistry of esters, ethers, amines, carbohydrates, cyanogen, derivatives, diazo, and Azocompounds. Application of catalysts and organomettallic compounds in organic synthesis; Composition, Purification and Analysis of organic compounds.

Qualitative analysis of a sample containing four inorganic radicals; identification of a common organic compound; simple gravimetric and volumetric estimation.

5.—Classical languages.

(i) Latin.

(a) Translation.

The paper shall consist of (a) passages for translation from Cicero or Cæsar, and Virgil or Lucretius, (b) a passage or passages from one or more of the following—Livy, Tacitus, Horace, (c) a piece of English prose for translation into Latin. 150 marks of which 75 shall be given to (c).

(b) Language, Literature and Grammar.

The paper shall consist of questions on Accidence, Syntax, Latin philology and literature, Roman History, the geography and organisation of the Empire.

A choice of questions shall be allowed.

(ii) Greek.

(a) Translation.

The paper shall consist of (a) passages for translation from Homer and Demosthenes, (b) a passage or passages from one or more of the following—Thucydides (excluding speeches), Euripides (excluding choruses), Xenophon, Plato, (c) a piece of English prose for translation into Greek. 150 marks of which 75 shall be given to (c).

(b) Language, Literature and Grammar.

The paper shall consist of questions on Accidence, Syntax, the development of the literature in its chief forms, the contributions of the Greeks to the development of civilisation, history and geography.

A choice of questions shall be allowed.

(iii) Sanskrit.

(a) Translation; (b) Language, Literature and Grammar.

The object of the examination will be more to draw out what a candidate knows than to test his knowledge. It is not expected that he should be an expert or a specialist in any branch of Sanskrit Literature, but he should have a grasp of both the language and Literature, Vedic and Classical.

He should have a general knowledge of Sanskrit Grammar, Vedic and Classical. This knowledge will be tested not by asking him to quote rules, but by their application to language.

He will be required to translate easy passages in English from Vedic or Classical Sanskrit Literature, but not from commentaries. He may be asked to compose in Sanskrit, to write an essay in Sanskrit, to summarise a given passage in English or Sanskrit and to translate into either language.

(iv) Arabic.

(a) Translation.

(*i*) From English into Arabic and (*ii*) from Arabic into English.

(*b*) *Language, Literature and Grammar.*

Muhammadan civilisation including—

(*i*) History and (*ii*) Literature.

(*i*) The outline of *Muhammadan History* from the beginning of Islam up to the fall of the Abbasides of Baghdad in the middle of 13th century A.D.

(*ii*) A general knowledge of the History of *Arabic Literature*. Grammar according to modern method and elements ot Arabic prosody and Rhetoric.

(v) Persian.

(*a*) *Translation.*

All translation will as far as practicable be from and into the present day language of Iran.

(*b*) *Language, Literature and Grammar.*

Candidates must possess a fair knowledge of the general outlines of the literary history of Persia with special study of a particular period, *e.g.*, the Ghaznavi and Saljugi period, and first-hand knowledge of a few selected authors, such as Firdausi, Unsuri, Minuchihri, Anvari, Naisr-i-Khisran, Khayyam, etc. Questions on grammar shall demand from the candidates not mere cramming and reproduction from memory but intelligent practical application of the grammatical rules, requiring some discrimination.

(vi) Pali.

(*a*) *Translation.*

(*i*) Passages prose and verse of moderate difficulty for translation from Pali into English.

(*ii*) A passage of moderate difficulty for translation from English into Pali.

(*b*) *Language, Literature and Grammar.*

1. Knowledge of literature will include—

(*i*) A knowledge of canonical literature and commentaries as well as literature outside the canon;

(*ii*) History of Buddhism from its rise to the 7th century A.D.

(*iii*) Indian civilisation as depicted in the canonical Pali literature and

(*iv*) Indian thought and ideals at the time of the rise of Buddhism.

2. The questions on language and grammar will include—

(*a*) Elementary knowledge of Sanskrit grammar;

(*b*) Elementary knowledge of the principles of comparative philology; and

(*c*) Knowledge of Indian inscriptions from the earliest times to the 2nd century A.D.

A fairly wide choice of questions will be given.

(vii) Urdu.

(a) *Translation.*

(i) From English into Urdu and (ii) from Urdu into English.

(b) *Language, Literature and Grammar.*

(i) A general knowledge of the history of Urdu language and literature.

(ii) Grammar according to modern method and elements of Urdu Prosody and Rhetoric.

6.—History.

(a) Indian History.

A knowledge of Ancient, Mediæval and modern India will be required. The main stress will be laid on the period 1500-1920 A.D. Sketch historical maps will be required of candidates. A knowledge of political, military and economic history will be demanded as also of modern constitutional development. The broad outlines of religious and cultural history should be known; also the history of foreign countries, so far as it directly affected the history of India.

(b) English and European History.

The main stress in this paper will be laid on English History, knowledge of European History being only required in so far as it more or less directly links up with English History. Chief importance will be attached to the period 1500-1920 A.D. Political, military, cultural, economic and constitutional history will also be required. Sketch maps will be essential. The growth and history of the British Empire should be known.

7.—Philosophy.

(a) Metaphysics and Ethics.

Definition and Province. Relation of Ethics and Metaphysics to cognate subjects. Methods of Metaphysics and Ethics. *A priori* and *a posteriori* Theories. Discussion of the principal Categories of knowledge. Relation of the Finite to the Infinite, the Conditioned to the Unconditioned, etc. The influence of Evolution on Metaphysical and Ethical Thought. Leading Theories of the Constitution of the World. Naturalism and Idealism. Theories of the nature of the Soul and its relation to the Body. The idea of the Self. The idea of God. Relation of God to the World and the Soul. Immanence and Transcendence, Agnosticism, Septicism, Pantheism, Theism, Immortality, Optimism and Pessimism.

The moral Consciousness, Postulates of Morality, Human Freedom, Moral Obligation, Ethical Standards. Individual and Society. The Social Organism. Duties and Virtues. Theories of Punishment. The nature of Moral Progress.

(Candidates will be expected to possess a general knowledge of the history of Metaphysics and Ethics, both Eastern and Western, ancient and modern.)

(b) Psychology.

Scope and Province. Relation of Psychology to cognate subjects. Methods of Psychology. Varieties of Psychological Study. Relation of Mind to Body. Consciousness and Subconscious. Suggestion. Mental processes. Sensation and its Organic Basis. Perception. Ideation. Memory and Imagination. Judgment. The Development of the Categories. Reasoning. Belief. The Growth of the Conception of the Self. The Various Selves. Feelings and Emotions. The Psychology of Will. Group Psychology. Social Psychology.

(Students are expected to possess a general knowledge of the history of Psychological Theory.)

8.—Economics.

(a) Political Economy; (b), Economic History and application to India.

Political Economy.—This subject will include the Organization of Production; theories of consumption, Value, Monopoly, and Distribution; the problems of Population, Labour and Industrial Peace; the theories of Money, Prices, Credit and Banking; the mechanism and theory of international Trade and Foreign Exchange; the principles of Public Finance.

Candidates will be expected to show familiarity with the economic conditions and development of India, and to be able to apply the principles of Political Economy to Indian conditions.

They are also expected to have some knowledge of the industrial history of England.

9.—Botany.

(a) and (b) Theoretical Course.

Scope of Botany. Difference between plant and animal. Outlines of the modern systems of classification.

Vegetable cell. Cell contents, Cell division, Tissues and tissue systems.

Morphology (including histology) and Life history of Algæ (*chroococcus*, a desmid, *Spirogyra*, *Ulothrix*, *Vaucheria*, *and Chara*). Fungi (Yeast, *Mucor*, *Peronospora*), Muscineæ (a moss plant, *Marchantia*), Pteridophyta (a fern, *Lycopodium Sellaginella* and *Equisetum*) and *Gymnospermia* (*Cycas-Pinus*).

General morphology, histology and life history of Angiosperms Physiology of plants including the principal experiments. Outlines of the ecology of plants with special reference to the conditions of Bengal.

Distribution of plants in time and space.

A knowledge of the systematic position, morphological characters, use and cultivation of the more common economical plants of Bengal (viz., rice, and other cereals, pulses, common vegetables, fruit trees, sugar producing plants, jute, indigo, cotton and the common timber trees).

(c) Practical Course.

Knowledge of microtechnic including free hand section cutting for microscopical examination. Drawing of dissection of flowers and microscopical sections. Referring common plants of Bengal to their Natural orders. Identification of plants by analytical tables. Simple physiological experiments.

10.—Geology.

The examination in Geology shall consist of (*a*) and (*b*) two theoretical papers, and (*c*) one practical paper.

(*a*) and (*b*). The theoretical course shall consist of—

Dynamical and Structural Geology.

Geological function of Air, Water and Life. Earthquakes and volcanoes. Secular upheaval and subsidence. Different types of structures met with in the crust of the earth. Earth sculpture. Origin of the Himalaya mountains. Water-supply.

Mineralogy and Petrology.

Physical and chemical characters of the more important minerals including their origin and commercial use. Classification of rocks. The leading rock types. Building materials.

Palæontology and Historical Geology.

Use of fossils. Leading types of fossils. Principles of correlation. The standard stratigraphical scale. Characters and distribution of the series of rocks found in India.

(*c*) The practical examination shall include (*i*) the identification and description of rocks and minerals, (*ii*) the description of microscopic sections of rocks, (*iii*) the recognition of important genera of fossils and (*iv*) the drawing and interpretation of geological maps and sections.

11.—Physiology.

(a) and (b) Theoretical Course.

General Physiology.

1. The Cell-membrane, Physico-Chemical processes—diffusion, Osmosis and Dialysis, Osmotic-pressure, Electrolytes, Ionisation, Surface tension, Absorption. Properties of colloids, Catalysis and Endymeaction.

Chemical Physiology.

2. Chemical composition of the body, Chemistry of carbohydrates, fats, liquids and proteins, Chemical Physiology of blood and lymph. Coagulation, Hæmolysis, Precipitins, Tests for blood. Immunity.

Histology.

3. Histology and development of the cell, Segmentation of ovum and formation of germinal membranes. Microscopical appearances of blood, lymph and milk. Minute structure of the various organs and tissues of the animal body.

Physiological Processes.

4. Physiology of contractile issues, Functions of nerve-cells and nerve fibres, the circulation of the blood, respiration, processes involved in digestion and absorption of food, metabolism, dietetics, vitamines, physiology of endocrine organs, harmones, excretion by the kidneys, skin, lungs and liver, production and regulation of body heat, mechanism of sound production, and speech, Physiology of the Central and Autonomic nervous systems, special physiology of the organs of sense and Physiology of growth and reproduction.

(c) Practical Course.

I. The chemistry of carbohydrates, fats and proteins found in blood, milk and common food substances, Chemistry of hæmoglobin and its principal derivatives. Uses of the Hæmoglobinometer and direct vision spectroscope, composition of bile, normal constituents of urine and their estimation, more important abnormal constituents of Pathological urine and their estimation, Cryoscopy.

II. Histological technique involving the use of the microtome and methods of fixing, staining and mounting for the preparation of permanent specimens, minute anatomy of the various organs and tissues of the body, the use of Hæmacytometers.

III. Demonstration of the uses of the more important apparatus employed in Physiological investigation. A practical acquaintance with the methods of performing the following experiments:—

1. **Muscle and nerve.**—Myographic method of demonstration of the contraction of muscle under various conditions. Tetanus. Fatigue. Work done by a contracting muscle. Conduction in a nerve. Velocity of nerve-impulse.
2. **Experiments on the frog's heart.**—Normal tracing of the heart beats. Modifications of the tracing by the application of heat and cold, drugs and stimulation of the vago-sympathetic trunk.
3. Sphygmographic tracing of the pulse. Determination of the blood pressure in man by means of Sphygmomanometers.
4. Experiments on reflex action in "Spinal" frog.

12.—Zoology.

(a) and (b) Theoretical Course.

Scope of zoology and principles of classification.

Animal cell. Cell division. Elementary tissues, their morphological differentiation and physiological division of labour. Principles of animal physiology.

General characters of the following groups (including the distinctive characters of the classes, the more important orders represented in Bengal and of the development of the groups marked X); Protozoa, Porifera X, Coelentera, Platyhelminthes X, Nemertinea, Nematoda, Rotifera, Annelida X, Arthropoda X, Mollusca X, Echinoderma X, Chordata, Hemichorda, Cephalochorda X, Urochorda X, Craniata-Cyclostomata, Pisces, Amphibia X, Reptilia, Aves X and Mammalia X.

Distribution of animals in time and space.

Theories of evolution. Heredity, variation and adaptation. Cell in inheritance. Eugenics.

(c) Practical Course.

Knowledge of micro-technic, including section cutting by paraffin method, Microscopic examination and dissection of Amoeba, Paramoecium, Monocystis, Spongilla, Hydra, Irene, Pheretima, Palaemon, Periplanata, Amellidens, Ampullaria, a starfish, a sea-urchin, a holothurian, Amphioxus, Doliolum, an ascidian, an elasmobranch (or Rohu fish), Bufo, the house gecko, the fowl and Cavia.

13.—History of Islam.

There will be two papers on this subject. The first paper will consist of two parts dealing with the History of Islam in India and the History of Islam outside India respectively. Each part will carry a maximum of 75 marks. The second paper will deal with Islamic Philosophy and Culture and will carry 150 marks.

What the examinee will be expected to know is not the account of battles or history of intrigues, but a good knowledge of the social, political and economical conditions of the Islamic Empire and of the literary, philosophic and scientific activities of the Muslims under the Caliphate. In this connection special attention should be paid to foreign and particularly Hellenistic influences on Islamic thought and culture. He will be further required to know the sources of information on his subject—contemporary and modern—and to estimate their relative importance as works of history. Stress will be laid on the manner and method in which the subject is approached and discussed. Nor will the style be reckoned as less important than the subject matter. The object of the examination will be not to test the memory of the examinee but his grasp of the subject, his power of thinking, his capacity for seizing on the essentials as opposed to non-essentials in a long, complicated narrative.

NOTIFICATIONS.

No. 1026T.Com.—16th September 1931.—The following notice published by Messrs. B. N. Elias and Company, Limited, in the *Amrita Bazar Patrika* of the 4th, 6th and 8th September 1931, is republished for general information in accordance with rule 13 (*4*) of the Indian Electricity Rules, 1922, framed by the Government of India under section 37 of the Indian Electricity Act, 1910 (IX of 1910). Any objection, suggestion or representation which may be received by the Secretary to the Government of Bengal, Commerce Department, up to the 4th December 1931, from any person, company or local authority in respect of the application of Messrs. B. N. Elias and Company, Limited, will be considered by Government:—

NOTICE.

It is hereby notified for public information that Messrs. B. N. Elias & Co., Ld., having their registered office at 19-D, Bow Bazar Street in the town of Calcutta, have applied to the Government of Bengal for a license under the Indian Electricity Act, 1910, as modified up to 1st May 1922 to supply electrical energy within an area as defined below under the terms of the following draft license.

The Rajshahi Electric License, 1931.

DRAFT LICENSE.

License for the supply of electric energy granted by the Government of Bengal under the Indian Electricity Act, 1910.

License is hereby granted to Messrs. B. N. Elias and Company, Limited, having its registered office at 19-D, Bow Bazar Street, Calcutta, to supply electrical energy in the area with the power and upon the terms and conditions specified below:—

Short title.

1. This license may be cited as "The Rajshahi Electric License, 1931."

Interpretations.

2. The several words, terms and expressions to which by the Indian Electricity Act, 1910, and any statutory modifications thereof or by the rules thereunder, meanings are assigned shall have in this license the same respective meanings, provided that in this license:—

(*a*) "The Act" shall mean the Indian Electricity Act, 1910, and the statutory modifications thereof.

(*b*) The expression "the licensees" shall mean and include the said Messrs. B. N. Elias & Co., Ltd., and their permitted assigns.

(*c*) The expression "deposited map" shall mean the plan of the area of supply hereinafter specified which has been deposited with the Government in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of Bengal in the Commerce Department and by the applicants Messrs. B. N. Elias & Co., Ltd., Calcutta.

(*d*) The term "unit" shall mean the quantity of electrical energy equivalent to a current of one thousand amperes flowing under an electromotive force of one volt during one hour.

Security.

3. (*a*) The period within which under clause 1 (*a*) of the Schedule to the Act the licensees shall show to the satisfaction of the Government that they are in a position fully and efficiently to discharge the duties and obligations imposed upon them by this license throughout the area of supply shall be six months from the date of notification of the grant of this license.

(*b*) The period within which under clause 1 (*b*) of the Schedule to the Act the licensees shall deposit or secure such sum as therein mentioned, and the sum to be so deposited or secured shall, unless otherwise ordered by Government under the clause, be six months after the notification of the grant of license and Rs. 5,000, respectively.

Area of supply.

4. The area above referred to within which the supply of energy is authorised by this license (the area of supply under the Act) is the whole of the area bounded as follows:—

(*a*) East—By the straight line drawn from the junction of Natore and Tikapara Road to the north up to ⅝ of a mile (Point "A"), and to the south up to Sardah Road.

North—By the straight line drawn from point "A" to point "B" which will be obtained by drawing a straight line to the north from the junction of Nowabganj Road and the river embankment up to 1 mile.

West—By the straight line drawn from point "B" to junction of Nowabganj Road and the river embankment.

South—By the River Padma.

The boundaries are delineated on the map by a heavy red line.

(*b*) The Police Training College at Sardah including adjacent area as shown on the map and bounded by a heavy blue line.

Situation of the Generating Stations.

5. The licensees shall erect the generating stations within the area covered by the license.

Limits within which the supply of energy is to be compulsory.

6. For the purpose of clause IV of the Schedule to the Act the following directions shall be complied with, namely:—

(1) The licensees shall within three years from the date of the grant of this license lay down suitable and sufficient feeders and distributing mains and also execute works to the satisfaction of the Government for the purpose of supplying electrical energy throughout the streets named in the list appended below, shall erect the generating stations mentioned in clause 5 with all machinery and apparatus necessary for the purpose of giving a continuous and efficient supply and shall do all other works necessary for the commencement of supply of energy to the consumers.

(2) At the expiration of each successive period of six months from the commencement of this license until the completion of the compulsory works, the licensees shall submit to the Secretary to the Government of Bengal, reports stating all steps taken and the progress made in carrying into effect this license.

Nature of supply.

7. (*a*) **Nature of supply.**—The systems of supply which may be adopted for the supply of electric energy under this license are the following:—

(*i*) A medium pressure alternating current three-phase four wire supply at a pressure at the consumers terminals of 400 volts between phases and a low pressure of 230 volts between phases and neutral at a frequency of 50 complete cycles per second.

(*ii*) The feeders, distributing mains and service lines may be overhead or underground in whole or in part and shall be erected, constructed, and maintained by the licensees in strict conformity with the Act and the rules thereunder. Provided that nothing in this license shall authorise the licensees to use overhead mains at any higher pressure than medium pressure without the previous sanction in writing of the Government of Bengal in each case and subject to any conditions of limitations which the Government of Bengal may direct.

Provided also that the licensees may, from time to time with the previous consent in writing of the Government of Bengal and subject to such limitations and conditions as shall be prescribed in writing by the Government, adopt any other system of supply for the purpose of this license.

(*b*) **Rates.**—The prices to be charged by the licensees for energy supplied by them shall not exceed the following maxima, namely:—

(A) For domestic purposes.

I. **Lighting.**—(*i*) Annas eight per unit metered, subject to a minimum charge of rupees thirty-six per annum per kilowatt of the rated wattage of lamps installed, or

(*ii*) Rupee one and annas twelve per 20 watt lamp per month and proportionately for lamps of higher wattage, provided that the total number of lamps installed does not exceed six and are used for a period not exceeding six hours daily from dusk.

II. **Fans.**—Annas seven per unit metered, subject to a minimum charge of rupees twenty-four per annum per kilowatt of the rated input of the fans installed.

III. **Flat rate for lights and fans combined.**—Annas seven and pies six per unit metered, subject to a minimum charge of rupees thirty per annum per kilowatt of the rated wattage of the lamps and rated input of the fans installed.

IV. **Motors.**—(*i*) For each installaton having motors whose aggregate rated brake horse power does not exceed 1 B.H.P., annas seven per unit metered, subject to a minimum charge of Rs. 3 per month per rated B.H.P. of all the motors installed.

(*ii*) For each installation having motors in which the aggregate rated brake horse power exceeds 1 B.H.P., annas six per unit metered, subject to a minimum charge of Rs. 3 per month per rated B.H.P. of all the motors installed.

(B) For industrial purposes.

(*i*) For each installation having motors in which the aggregate rated brake horse power does not exceed 4 B.H.P., annas four per unit metered, plus Rs. 8 per month per rated B.H.P. of all the motors installed.

(*ii*) For each installation having motors in which the aggregate rated brake horse power exceeds 4 B. H. P. but does not exceed 15 B. H. P., annas three and pies six per unit of energy metered, plus rupees eight per month per rated B. H. P. of all the motors installed.

(*iii*) For each installation having motors in which the aggregate rated brake horse power exceeds 15 B.H.P., annas three per unit of energy metered, plus rupees eight per month per rated B. H. P. of all the motors installed.

(C) For heating, cooking, refrigerating and for all purposes other than those specified in sub-clauses (A) and (B), annas four per unit metered.

Note.—Where the minimum charge specified under the sub-headings (A) I (*i*) or (A) II or (A) III or (A) IV (*i*) or (A) IV (*ii*) is levied then no other charge for energy consumed shall be made.

(D) In the case of a method of charge approved by the local Government in accordance with section 23, sub-sections (3) and (4) of the Act such maximum as the Government may fix on approving the method.

Purchase of undertaking.

8. (1) The option of purchase given by sub-section (*1*) of section 7 of the Act shall first be exercisable on the expiration of fifty years from the date of the notification of this license and on the expiration of every subsequent period of twenty years. The percentage to be added on account of compulsory purchase to the value (as determined in accordance with and for the purpose of sub-section (*1*) of section 7 of the Act) of the lands, buildings, works, materials and plants of the license shall, in accordance with the second proviso of the said sub-section, be twenty per cent.

(2) In accordance with clause (*d*) (*ii*) of sub-section (*2*) of section 3 of the Act, it is hereby declared that the generating stations to be used in connection with the undertaking shall form part of the undertaking for the purpose of purchase under section 5 or section 7 of the Act, provided that the power stations shall not have been abandoned by reason of the operation of clause 9.

(3) During the period of notice prescribed in section 7 (4) of the Act all extensions and outlays of money chargeable to the capital expenditure account of the licensees shall be subject to the previous approval of the Government.

Revocation.

9. (1) If the licensees fail to comply with the provisions of any of the clauses or parts of the clauses of this license or fail in the opinion of the Government of Bengal during any portion of the period of three years specified in clause 6 to make satisfactory progress with the works to be executed, the license may be revoked.

(2) in the event of Government revoking the license for any of the causes specified in sub-clause (1), the security deposit of rupees five thousand made in accordance with clause 3 (*b*) shall be forfeited to Government in whole or in part as Government may decide.

Schedule.

The list of streets referred to in clause 6 (*1*) above—

Dacca Medical School.

Dacca, the 29th August 1931.

NOTICE.

Examination of Compounders and Dressers at the Dacca Medical School.

It is hereby notified for general information that the next half-yearly examination of compounders will be held on the 3rd November 1931 and subsequent days.

(*a*) No person will be admitted to the examination unless he produces certificates as required by rules 9, 10, 11 and 12 of Government notification No. 1410Medl., dated the 7th July 1913.

(*b*) All male candidates must forward to the Superintendent, Dacca Medical School, an examination fee of Rs. 5 at least one week before the commencement of the examination. A fresh fee must be paid on each occasion that the candidate enters for the examination, but a candidate, who, after payment of the fee, is unable, through illness, to attend the examination, will be allowed, on producing a satisfactory medical certificate, to attend the next examination without payment of fresh fee.

(*c*) Women candidates are examined free of charge.

(*d*) Passed compounders, who have completed a further three months' course of dressing prescribed in rule 13, and students of the Licentiate class of this school, on the completion of their second year's course, will be allowed to appear at an examination in bandaging, sterilization of dressings and instruments, and in minor duties of hospital work. A fee of Rs. 2 shall be charged for this examination.

This examination is also open to persons qualified for admission to the examination prescribed under the rules for the grant of certificates to compounders, on production of a certificate that they have received instruction in a hospital or dispensary recognised by Government in bandaging, preparation of anteseptic lotions and dressings, sterilization of dressings and instruments, and in the duties of a hospital dresser. Such persons shall be required to pay a fee of Rs. 2 for this examination.

Annual Report of the Royal Botanic Gardens and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1930-31.

ROYAL BOTANIC GARDEN.

1. **General.**—Amongst the general public who discuss the prospects of a visit to these gardens, the question of their approach is always one of first consideration. No one who is dependent on a motor car for coming—and this section of the visiting public grows in numerical importance every year—will think of starting out without first making the necessary enquiry as to the state of the roads. Their condition is a matter of public interest and for general information, therefore, it may be mentioned that the riverside road through Howrah to the gardens has been greatly improved of late and that, apart from the unpleasantness of having to negotiate an ever-increasing volume of traffic, the ease and comfort of access dependent so much now-a-days on road surface is noticeably better than it was even as late as a year and half ago.

A policy of steady repairs—the stitch in time method—seems responsible for this, and whether or not the betterment of roads is responsible there has been a marked increase in the number of visitors reaching the garden by bus and car. Praiseworthy attempts to maintain and improve the main roadways have been made and it is a pity, therefore, that obstacles to using them freely should exist. Riverways access is, of course, always the more pleasant, but in view of the ever-growing bus and car traffic and the possibility of the ferry service being restricted, it is a matter of extreme importance to these gardens and, indeed, to all interests west of the Bengal-Nagpur Railway, that free passage should prevail over this Company's line systems converging on Shalimar.

It is more pleasant, perhaps, to get on to congenial surroundings and discuss the garden itself. Both in the nurseries and flower beds, in the plant houses and in the open, there is a year's steady progress to report. Climatic conditions were normal and at no time of the year had special measures to be taken to help out the ordinary horticultural work. Rainfall recorded for the year was about the usual, its distribution was good and this with an absence of cyclonic storms combined to make the year a favourable one for all horticultural operations. The permanent tree and shrub collections in the open were enriched by numerous additions and long-established specimens have not been spared in an effort to make the gardens more attractive. Perhaps the scientific officer is too apt to think of the contents of a garden as botanical specimens and to concern himself with the presence and arrangement of these rather than with their form and beauty. A break with tradition is, therefore, not necessarily disadvantageous to methods—and it may be invigorating and refreshing—to have for a time on the staff an officer whose experience brings ideas of big scale tree pruning and surgery. Mr. Fothergill, the newly appointed officer in charge, was assiduous in his endeavours, by judicious pruning and lopping, to restore the appearance of old time plants that had grown away from their natural stateliness and beauty and by larger scale operations to give a chance of fresh life to dying and diseased specimens.

The desirability of making the garden richer as a living repository of the more beautiful and useful tropical and semi-tropical trees and shrubs is always in mind, and the following additions of plants new to the collections show what has been accomplished to this end during the year. Of new trees there have been added *Alphonsea lutea*, *Erythrina acanthocarpa* and *Blackii*, *Prosopis velutina*, and *Melaleuca crassifolia*. Of shrubs, *Cordia Holstii*, *Hibiscus Abelmoschus*, *Anona microcarpa*, *Erythrina tomentosa* and *indica*, *Parkinsonia microphylla*, *Lantana crocea*, *Psidium Friedrichsthalianum*, *Bauhinia Krugii*, *Millettia dura*, *Bambusa quadrangularis*, *Ptelea trifoliata*, *Pandanus Sanderi*, *Costus discolor*, *Fatsia papyrifera* and *Cassia artemisioides*. Of creepers, *Lonicera Leschenaultii*, *Passiflora pruinosa*, *Cissus Lindeni*, *Cissus albonitens*, *Boussingaultia baselloides*, *Bougainvillea spectabilis*, varieties: *Fraser* and *Cypheri*. In some cases single numbers of these only have been available, but in most cases three or four specimens have been planted and in a few there has been material for groups. Experience has shown that not all planted out have succeeded but, as explained

in previous reports, repetitions of those that fail will be made from the nurseries where an ever-increasing variety is being developed by the accession of seeds and plants from India and abroad.

The nurseries are now much richer than at any time in the previous experience of the writer and, although the additions planted out to permanent situations are too small to catch the eye, and insignificant as yet as producers of scenic and group effects, they are yet plentiful enough to make certain in future of a much richer and more interesting botanical garden.

It is unfortunate that the display of cold weather annuals seldom coincides with the New Year period. They are never at their best till later, but this year's display, while possibly not surpassing former years in mass production, has been easily the best seen here in respect of individual specimens. As in the past few years they have been staged at the more frequented and open spots of the garden and have been much admired not only by the general public but by the trained horticulturist. This is a visitor whose eye looks critically and who usually has never yet been known to admit his own results as inferior or to lack experience or knowledge of something better. His approbation is, therefore, sought. This year it was as freely given as it was deserved. In order that the gardens may look more attractive during the Christmas and New Year Week, the period when they are most frequented, arrangements have been suggested for a display of bulbous plants to take the place of the annual stagings before the usual supply of potted flowers is ready. The idea is worth following up for the development of bulbous plants is less at the mercy of weather conditions and many of this class lend themselves to forcing methods. In addition to potted annuals staged in groups throughout the garden, the usual area of flower beds was maintained. Minor rearrangements of beds were made in the main flower garden and a new harbaceous border, containing amongst others some beautiful varieties of *Gladiolus*, was opened round the smaller palm house.

The Orchid house was as usual a source of great attraction during the first two warm months of the year. The display was normal and calls for no special mention. Species of *Vanda*, *Catasetum*, *Cattleya* and especially *Dendrobium* comprised the bulk of the display. The rarer kinds of Orchids, of which the gardens possess a few fine specimens, are not risked in the houses open to the public, and this for reasons that will suggest themselves to all. But these and also a fine collection of ferns and *Cacti* under glass can always be visited by special arrangement.

Needless to say none of the garden schemes sanctioned and awaiting funds could be proceeded with during a year financially so difficult as that just passed. Garden labour has, perforce, to remain in its insanitary hovels and make do. Neither the river bank nor the roads, the care of which was decided some years ago as an unsuitable charge for garden officers, has yet gone over to departments of Government specialising in these works. This leaves them a charge on garden funds proper, and, as both take not a little upkeep, it has been impossible to do anything in the way of other large scale garden improvement. Mr. Fothergill has made praiseworthy attempts to keep the lake edges and surfaces in a sanitary condition and a few of the main roads have had specialised asphalt treatment, but in respect of roads, river bank and tanks the gardens are living on capital value and the best that can be done in the present conditions of financial stringency is to distribute the funds available over all works according to immediate necessity and to stave off the condition of garden deterioration that looms ahead. This is the policy followed. It is unsatisfactory from every point of view and especially is it uneconomical as allowing only patchwork where thorough repair is needed, but it appeals in present conditions as most in tune with the spirit of co-operation and it is preferable to the alternative of letting ruin overtake certain works destined for other departments.

Mechanical innovations cannot be said to appeal to the local popular imagination and the institution during the year of a motor tractor with grass cutting machines has drawn the usual resentment as a disturbance of old time methods. But the tractor has come to stay, for it is cheaper, quicker and more effective than the grasscutter and scytheman and makes conservancy easier for a staff now hard put to it to maintain the garden as it formerly was.

From the visiting public's point of view the most urgent scheme is that for the provision of drinking water. Funds for this were allotted but had to be withdrawn on account of the prevailing financial condition.

The completion of this simple and inexpensive scheme would, possibly, do more for the popularity of these gardens than any other measure. Visitors complain of the drawback all the time and in the hot weather, it will be understood, complaints are not lacking in pointedness. One would like to think of public spiritedness extending in this direction. The giving of water has come down through all history and in all lands as an action bespeaking goodwill, beneficence and charity. Even the dumb animals are not forgotten in this respect. Here at the Royal Botanic Garden the most long suffering animal is man. He it is who suffers and who would bless a public benefactor.

2. **Plant and seed exchange.**—Records show some 284 plants received and 14,524 sent out. As usual Government institutions, District Boards, Municipalities and Railways are the chief recipients. The garden took its share in staging materials for the annual show at Alipore held under the auspices of the Agri-Horticultural Society. The display of *Dahlias*, in particular, attracted attention and a miniature flower garden set up apart from competitive exhibits, was also much admired.

Besides two casks of mahogany seed received from Kew, 47lbs. and 286 packets of seed were distributed while 215 packets were received, mainly from institutions abroad. For the information of botanical and horticultural institutions throughout the world it may be mentioned that the common practice of issuing exchange seed lists is not regularly followed by the Royal Botanic Garden, but its services are freely at the disposal of such institutions and all are invited to communicate when the question is one of obtaining Indian material.

3. **Herbarium and Library.**—Routine work on acquisition, identification, distribution and loan has proceeded uninterruptedly throughout the year. Prominent amongst distributed lots are 611 specimens of Himalayan plants to Austria, 692 Malayan duplicates to Washington and some 1,765 sheets to Dr. Cowan at Edinburgh. For acquisitions our thanks are chiefly due to the Director, Botanic Gardens, Singapore, for 286 duplicate specimens of South-East Asian plant; to the Mycologist in charge, Natal Herbarium, Botanic Gardens, Durban, South Africa, for 100 duplicates; to the Systematic Botanist, Coimbatore, for 243 duplicates; to the Regius Keeper of the Edinburgh Botanic Garden for 137 sheets; and to the National Museum, Washington, for 46 duplicates of New World plants.

Specimens of South Indian plants have as usual been on loan to Kew in connection with the continuation of the "Flora of Madras." To Kew has also gone on loan small numbers of old sheets of *Psychotria* and *Ixora* to help clearing up difficulties on the systematic position of certain little known members of these genera. For a forthcoming work in the genus *Trapa* all our material of this aquatic has gone to Dr. Glück of Heidelberg as also certain fresh material to aid in the same study. About 1,500 sheets have been incorporated during the year and 1,115 genus or species covers renewed. Repair, mounting and poisoning work have been carried on as usual.

To Mr. Kanjilal has gone, at different times, quite a number of authenticated species to aid him in his work on the "Flora of Assam." Mr. Kanjilal has spent a good deal of time at work on his material in the herbarium and Mr. Parkinson spent some weeks on collections from Burma that had remained unplaced or the identifications of which were for various reasons still considered tentative. The short time at his disposal prevented an examination of all the material, but enough was done to indicate the presence of new or interesting species. In addition to his work Mr. Parkinson gave much appreciated help in the identification of garden Bamboos. Mr. D. Datta of the Indian Agricultural Service visited the herbarium for some time towards the end of the year in connection with his enquiry into the grasslands of Bengal. His visit resulted in arrangements for collaboration with the Curator of the Herbarium and together these officers have a paper on this subject under preparation. These visits for botanical work are mentioned as types of which Sibpur could wish more.

Several survey tours were undertaken during the year. Of survey officers, Mr. S. N. Bal, toured with Mr. Biswas in the Bikrampur area of East Bengal, in the Naga Hills and in Manipur and much material accrued to the herbarium as a consequence. Mr. Srinivasan continued exploration in the Garo Hills and brought some 2,000 sheets containing some 500 species. His interest in and ability as a photographer is being directed towards photographically recording, both whole and in dissections, some of the more interesting garden plants. The most junior officer, Mr. Badhwar, has spent nearly the whole year on tour in

the North-West. His work is mainly economic, being an enquiry into the possibilities of the North-West as a source of Santonin, but his botanical interests are wide and the herbarium is likely to be considerably the richer by reason of his general collections. Towards the end of the year the Curator of the Herbarium was deputed to continue botanical exploration of the Burma Cinchona Reserve area, a survey that is yielding much material and that will be continued as funds and staffing arrangements permit.

To the office and herbarium staff was entrusted the work of distributing a fairly large quantity of seed of *Aleurites Fordii* received from Kew at the close of the year. India shows some promise of being a suitable home for the Tung Oil Plant and this distribution was part of an effort to demonstrate the local possibilities of this oil industry. Tea gardens of Assam, especially, are interested in this importation.

The routine work of the library has been going on as usual, but accessions have been greatly restricted by the fact that library funds have to finance departmental publications as well as do library work proper. In view of the sums required for the publication of the Annals, all that could be done for the library was to maintain a restricted supply of the most necessary botanical periodicals. Some 50 copies of Dr. Cowan's "Trees of Northern Bengal" have been distributed from the library during the year.

4. **Publications.**—Of garden publications, Volume XIII of the Annals, being Professor Martelli's Asiatic Palms, Corypheæ, has passed through the Press. With the issue of this volume a halt is called for a time at least in this, the greatest work ever attempted on the palms. The next volume will be Sir David Prain and Mr. Burkill's monograph of the genus Dioscorea and by the end of the year the bulk of the plates for the first half of this work had already been prepared.

Of the records, Dr. Brühl's "Census of Indian Mosses" has appeared. It is a valuable compilation on the group in which is brought together much of the information that has been accumulated by previous workers, as well as much that is the result of the personal observation of the author. It will be an incentive to young Indian botanists to tread in this and other engaging fields of Botanical study.

5. **Finance.**—Out of a total budget allotment of Rs. 50,279 for staff and permanent establishment, Rs. 50,223 were spent and under all other heads there was a net saving of Rs. 431 out of a net grant of Rs. 65,049. As a measure of retrenchment necessitated by the prevailing financial difficulty, a sum of Rs. 5,493 had to be surrendered to Government. Receipts of the department during the year amounted to Rs. 670-13-3.

6. **Staff.**—The writer held charge as Superintendent and Mr. Biswas was Curator of the Herbarium throughout the year. Up till the end of July Mr. N. Mitra was Curator of the Garden. Thereafter, he proceeded on 28 months' combined study and other leave. The continuance of his work as Curator till the end of the year was provided for by bringing in a trained horticulturist, Mr. Fothergill, from the Cinchona Branch of the service. Maulvi Quasem Ali officiated as Assistant Curator throughout the year and Mr. Joneja very ably filled the post of Overseer. The clerical establishment headed by Babu Ashutosh Banerjee, in his customary, forceful and thorough manner, worked loyally and well. With minor exceptions, subordinate officers and all the clerical establishment have been loyal.

CALCUTTA GARDENS.

Efforts were made to improve the standard of excellence of flowering annuals exhibited in different parts of the Gardens. Some fifty different species of plants were introduced and stocks of ferns and potted palms and orchids were rearranged in the nursery. Several newly laid out beds not only increased the decorative effect but prevented the public from making unsightly short tracts and thereby spoiling the beauty of the lawns of the gardens. The arrangement of shifting refuse and other material in motor lorry resulted in greater facility of transport. Difficulties of keeping the Eden Garden tanks in sanitary condition have temporarily been overcome by leasing out the tanks for pisciculture. Under this arrangement the lessee has to keep the tanks clean and to pay a sum of Rs. 200 annually, and this is an item of importance so far as garden expenditure is concerned.

Funds provided for the repair of the garden roads were withdrawn and this will entail a reversion to the old practice of a large expenditure over four years or so. This, unfortunately, is more expensive as well as less satisfactory in the long run.

Finance.—Out of a sanctioned allotment of Rs. 23,059, there was a small saving of Rs. 89. A total revenue of Rs. 313 obtained in the Dalhousie Square section by issuing fishing passes and by leasing out tanks of the Eden Gardens was paid into the Treasury.

Staff.—Mr. M. Jones, officer in immediate charge under the Curator, creditably held the post of Assistant Curator, Government Gardens, throughout the year, and Mr. Gholam Mohiuddin was temporary Overseer from the 22nd April 1930 till the end of the year.

LLOYD BOTANIC GARDEN, DARJEELING.

A few inches less rainfall than the normal and a hailstorm did not affect the general condition of the plants of the garden. Considerable success has been attained by Mr. S. N. Basu, the Curator, in his attempt to increase the æsthetic and horticultural value of the garden by laying out more than a hundred artistic beds, and by keeping the roads, garden houses, lawns and tanks tidy. Suitable sitting accommodation under the shades of the trees have also been provided for the public. Many new varieties of annuals have been grown this year for exhibition. To replace the old stock of the garden some varieties of *Magnolias*, *Azaleas*, *Camellias* and *Cherries* have been imported from Japan. By horticultural experiment the Curator has been successful in propagating some of the rare species of the garden, such as *Larix Griffithii* and *Meconopsis grandis*. If the latter can be fruited this garden may be in a position to meet the demand, for the seeds of this species, of many of the gardens. The garden has been enriched by planting about 547 young trees and shrubs. About 7,703 seeds, 2,228 plants, 120 bulbs and 8,141 seedlings have been distributed to the different botanical, horticultural and other institutions of the world. Seeds of *Meconopsis grandis* collected this year have been supplied to the Director, Royal Botanic Garden, Kew; Regius Keeper, Royal Botanic Garden, Edinburgh, the Keeper of Royal Botanic Gardens, Glasnevin, Dublin, and Sir Reginald Spence. Collection of Alpine seeds has been made from Jongri plains and Gyache La and the garden thus maintains its tradition as an important centre for the distribution of Alpine plants.

Seeds and plants, for His Majesty's Royal Park, under the orders of His Excellency the Governor of Bengal, were also collected in Bhutan. The success of the collection was largely due to the willing help given by Raja S. T. Dorji, the British Agent in Bhutan. Some of the plants collected are being grown in baskets and are being prepared for the onward journey. As desired by His Excellency 115 packets of seeds collected chiefly in Bhutan and in the Alpine Himalayas of Sikkim, have been handed over to the Private Secretary to His Excellency the Governor for His Majesty's Royal Park.

About 44,000 visitors paid visits to the garden and the garden thus holds its time-honoured reputation for botanical interest and popularity as a public resort.

Finance.—Out of a total allotment of Rs. 19,078 under all heads Rs. 19,039 were spent leaving a small balance of Rs. 39 as savings.

Staff.—Mr. S. N. Basu held charge of the post of Curator till the 30th March 1931. Thereafter, Mr. J. E. Leslie, the permanent incumbent of the post, returned from leave and took over charge on the 31st March 1931.

C. C. CALDER,

Superintendent, Royal Botanic Garden, Calcutta.

Report of the Honorary Committee for the management of the Zoological Garden, Calcutta, for the year 1930-31.

NOTIFICATION.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faroqui.

No. 403T.A.I.—14th September 1931.—The Annual Report of the Honorary Committee for the Management of the Zoological Garden, Calcutta, for the year 1930-31 and Government letter No. 404T.A.I., dated the 14th September 1931, acknowledging receipt of the report, are published for general information.

The Mayor of Calcutta.

The Principal of the Bengal Veterinary College, Calcutta.

The Conservator of Forests, Southern Circle, Calcutta.

The Committee record with deep regret the deaths of R. D. Mehta, Esq., C.I.E., G. C. Mandal, Esq., and Dr. B. L. Chaudhuri, D.SC.

Appointment.—The following new members were appointed during the year:—

Rai B. K. Basu Bahadur.

S. C. Lyttelton, Esq.

Major-General W. V. Coppinger, C.I.E., D.S.O., M.D., F.R.C.S.I., I.M.S.

Nawabzada A. S. M. Latifur Rahman, M.A. (Cantab.), BAR.-AT-LAW.

The Conservator of Forests, Southern Circle (*ex officio*).

Resignation.—Nawab A. F. M. Abdur Rahman, Khan Bahadur, resigned his membership during the year.

Lieut.-Colonel E. E. Waters, M.D., M.R.C.P., I.M.S., having left India with no intention of returning his name was removed from the list of members.

Staff.—Several changes took place in the Garden's staff during the year. Rai B. K. Basu Bahadur, who had held the post of Superintendent of the Gardens since 1908, retired on pension on the 31st March 1930, and Mr. S. Ganguli, the First Assistant Superintendent, was appointed in his place on a year's probation. Mr. N. Banerji, Second Assistant Superintendent, was promoted to be the First Assistant Superintendent, and the Committee recommended that his post be filled by Khan Sahib S. M. Yaqub Khan, who was appointed on the 9th April 1931.

The Committee desire to place on record their appreciation of the services of Rai Bahadur B. K. Basu during whose long period of service the collection and the Gardens were always well maintained and to whom full credit should be given for the execution of the improvements carried out during his term of office resulting in the collection and Gardens being handed over to the charge of his successor in a condition not excelled at any time in their history.

Mr. N. Mukherji, the Overseer of the Garden, having qualified himself as a Veterinary Surgeon from the Bengal Veterinary College, proceeded to London on a year's leave from 1st August 1930, to pursue his studies in Veterinary Science.

The following is a list of the superior staff of the Garden at the end of 1930-31:—

Superintendent—Mr. Samadev Ganguli, C.M.Z.S.

First Assistant Superintendent—Babu Nagendra Nath Banerji, G.B.V.C., F.Z.S.

Storekeeper—Babu Jugal Kishore Roy.

Overseer—Mr. Niranjan Mukherji, G.B.V.C.

Clerk—Babu Tarak Chandra Chatterji.

Gate-Clerk—Babu Bepin Behari Chatterji.

The menial staff of the Gardens at the end of 1930-31 comprised, in addition to temporary men who were engaged as required,—

1 salutri	2 chaprasis
1 jamadar	1 carpenter
8 durwans	2 bhistis
20 keepers	1 cook
14 gardeners	1 head gardener
3 sweepers	2 cartmen
1 night-watchman.	1 syce

1 scytheman.

The health of the collection was good during the year under review. There was no epidemic except an outbreak of Foot and Mouth disease amongst the gayals in the South Extension, but the prompt measures immediately taken enabled it to be completely stamped out without loss. A serious loss has, however, been sustained in the death of the male Indian rhinoceros which took place suddenly on the 21st May 1930. A *post-mortem* examination was conducted by the Principal, Bengal Veterinary College, and the viscera were sent to the Chemical Examiner to the Government of Bengal for report. Traces of arsenic were detected in the viscera and it was concluded that the death of the animal was due to poisoning by arsenic administered by some unknown and malicious person. To detect the perpetrator proved impossible, and the Committee are at a loss to account for so wanton an outrage which can profit no one and only diminishes the interest of a collection which is maintained for the instruction and entertainment of the public. The loss is the more serious by reason of the circumstance that it is most difficult to obtain a specimen to mate with the female in the collection.

Many interesting breeding results took place during the year and a large proportion of the young animals born were reared.

As was stated in the last year's report it was intended to reduce the road area of the Garden and to increase correspondingly the grass area. The first section of this work was commenced as soon as the rains began and completed in good time before the cold weather. The areas in front of the Entrance Gate, in front of the Reptile House, adjoining the Peacock House and in the New Extension were re-aligned and laid out in accordance with the orders of the Committee. The drive round the Gardens from the Entrance Gate on the east to the Reptile House was reduced to 20 feet in width and from the Reptile House to the Entrance Gate to 12 feet. All adjacent paths and roads were also reduced in width. The grass area round the Schwendler Memorial was increased as also the areas between the Southern Extension and the Central Monkey House. The result of these alterations has been largely to improve the appearance of the Gardens, in addition to reducing the cost of maintaining roads and paths.

The only work of importance undertaken during the year is the New Aviary measuring 39 by 29 feet divided into 8 compartments. This aviary is built on a high plinth and with a very thin mesh of strong link wire every effort has been made to make it rat-proof. It has been stocked with many varieties of new birds, making a fine display.

To deal with large crowd of visitors on holidays another shed with additional turnstiles has been constructed on the northern side of the main Entrance Gate.

During the past year the annual repairs were carried out as usual and with the exception of the boundary wall, all large houses were cleaned, repaired and repainted of which the following is a list:—

Dumraon House.—The house was thoroughly repaired and painted. The iron bars of some of the inner cages were repaired and the wooden doors were attended to and leaks in the roof repaired.

Paddocks. The wood work and the roofs of the kiosks of the Barasingha Enclosure and the Banteng Enclosure having fallen into very bad condition, they were thoroughly repaired and the wooden roofs were covered with zinc sheets and painted.

Sarnomoyi House. Thorough repairs were done to this house. The sand plastering and wood work of the inner rooms had been damaged by the parrots and were repaired. The outside walls were colour-washed and the doors and windows painted.

Burdwan House.—The roof was overhauled and made watertight. The sand plaster was scraped off where necessary and new sand plaster substituted. The outer and inner dens were repaired and lime-washed and outside walls colour-washed.

Servants' Quarters at Begunbari.—The servants' quarters needed repairs badly and were overhauled. New drains were laid and all the rooms were put in good repair, cleaned and painted.

Store Godown.—Extensive improvements have been made to the Store Godown. The floors of the sheds having subsided in many places, were relaid and the corrugated roofings repaired and renewed. The terraced roof of the godown was overhauled and made watertight.

The whole godown was cleaned and inside walls lime-washed and outside walls colour-washed. The wood work and the doors and windows were painted. The following buildings were repaired and repainted:—

Entrance Lodge and Office, Refreshment Pavilion, Soneburs a Enclosure, Gubbay House, Reptile House, Murshidabad House, Indian Refreshment Room, Small Carnivora House and Schwendler House.

The following houses were repaired and colour-washed:—

Ezra House, Rodent House, Bear House and Tapir Enclosure.

In addition to the above, a considerable amount of work of a minor but nevertheless important character has been carried out during the year. Included in such work are the repairing and replacing of worn wire-netting on aviaries and enclosures, the repairing of fences, repairing roofs and floors, rat-proofing of buildings.

The lawns, flower-beds and paths were suitably maintained in orderly condition and considerable quantities of vegetables were grown in the vegetable Garden for the use of the collection.

In addition to ordinary routine work new flowering shrubs were planted and old trees were replaced by others. There has been a marked improvement in the general cleanliness and absence of litter throughout the Gardens. Many exhibits were displayed at the Agri-Horticultural Society's Flower Show and the Garden was awarded several prizes.

There was a considerable falling off in the Entrance receipts of the Garden. This may be accounted for by the general economic depression, particularly, though not entirely, in connection with the receipts on Sundays. It may also be attributed to disturbed conditions resulting in the public not availing themselves of the opportunity afforded by holidays and other non-working days of visiting the Gardens. It is to be hoped that such effects are only transitory for it can be asserted with confidence that at no other Zoological Gardens can so large and varied a collection be seen at a cost of one anna. The financial condition of the Garden, however, is on the whole satisfactory, due to the rigid economy which has been practised during the year in all departments.

The following is a comparative statement of visitors and receipts for the last four years:—

		Number of visitors.	Receipts.	
			Rs.	A.
1927-28	..	1,107,161	76,701	2
1928-29	..	1,136,910	78,333	0
1929-30	..	1,109,901	75,609	3
1930-31	..	979,604	66,082	13

A large number of children under four years of age and school children, attended by their teachers, were admitted free. On the occasion of the Fancy Fair on 31st December 1930 and 1st January 1931, 9,346 people visited the Garden.

In addition, 51,731 persons visited the Gardens on free days. A detailed statement of the number of visitors and receipts appears in Appendix B.

The thanks of the Committee are due to those ladies and gentlemen who have added to the Zoological collection, a list of which is given in Appendix C. Thanks are also due to those who kindly offered to present animals to the Gardens, but whose offers could not be accepted, either because the particular species was already sufficiently well represented or owing to want of accommodation.

The Committee also desire to express their thanks to the following Railway and Steamer Companies for kindly conveying the animals belonging to the Gardens free of charge:—

East Indian Railway, Bengal Nagpur Railway, British India Steam Navigation Co., Ltd., Peninsular & Oriental Steam Navigation Co., through Messrs. Mackinnon Mackenzie & Co.,

and Rivers Steam Navigation Co., Ltd., through Messrs. Macneill & Co., and Messrs. Hoare Miller & Co., and Lionel Edwards, Ltd.

The Corporation of Calcutta sanctioned a grant of Rs. 26,233-6 to the Garden for the year under report, and the amount of the rate bills in respect of the Garden was adjusted against the sanctioned grant as the rate bills fell due. The Committee desire to take this opportunity of expressing their renewed thanks to the Corporation of Calcutta for their generous contribution to the funds of the Garden.

Thanks are also due to the Officer Commanding and Officers of the 1st Battalion, 5th Mahratta Light Infantry Regiment, stationed at Alipore, for permitting their regimental band to play at the Garden on Tuesday afternoons, free of charge.

The Committee are much indebted to those members of the public who send old and broken-down horses to the Zoological Gardens, where they are disposed of under the most humane conditions.

E. H. MARSHALL,
Honorary Secretary.

P. L. BUCKLAND,
President.

SUPERINTENDENT'S REPORT.

I have the honour to submit my report on the condition and progress of the Zoological collection.

The following comparative table shows the numbers of the various collections during the last four years:—

Year.	Mammals.	Birds.	Reptiles.
1927-28 ..	365	1,244	105
1928-29 ..	342	1,196	173
1929-30 ..	362	1,299	130
1930-31 ..	381	1,419	186

The collection of animals brought together during the year was varied and imposing. Some extremely interesting additions have been made to the collection of Birds of Prey House, during the year. The most notable amongst these are Bonelli's hawk-eagles, booted eagles, pied harriers, turumti falcon, white-headed ospreys, etc., which are all new to the collection. For all these additions the Gardens are indebted to Mr. W. K. Dods.

Mr. E. H. Marshall presented to the Gardens a valuable collection of Himalayan birds including a pair of green magpies which are new to the collection.

Amongst other important gifts deserving special mention were:—

1 Blyth's tragopan pheasant—Presented by Captain E. Johnstone.

1 Malayan bear—Presented by R. MacAlpine, Esq.

2 red-winged parrakeets—Presented by Alfred Ezra, Esq.

2 Chinese water deer—Presented by Alfred Ezra, Esq.

3 baby galagos—Presented by Sir David Ezra, KT.

A large number of animals were purchased, the most important being the following:—

5 dusky langurs.
4 two-wattled cassowaries.
1 white-winged wood-duck (new to collection).
2 golden langurs.
1 clouded leopard.
3 grey-breasted parrakeets (new to collection).
2 squirrel monkeys (new to collection).
4 Victoria crowned pigeons.
2 lion marmosets.
1 Bahama pintail duck (new to collection).
2 white-fronted Capuchin monkeys (new to collection).
2 white-throated Capuchin monkeys (new to collection).
1 brown Capuchin monkey (new to collection).
1 De Brazza guenon (new to collection).
1 tiger cub.
1 woolly monkey.
2 blue-cheeked lories (new to collection).
1 lion-tailed monkey.
1 snow leopard.
1 bear cat.
5 Blyth's tragopan pheasants.
1 golden cat.
2 Tibetan lynxes.
1 white-rumped lory (new to collection).
2 pigmy hogs.
1 Duyvenbode's lory (new to collection).

The following were received on exchange account during the year:—

From G. B. Chapman, Esq., F.Z.S.—

One chimpanzee, two scarlet ibises, one Hyacinthine macaw, one Brazilian tapir, one blue jay, one lion marmoset and one jou.

From Toronto Zoo—

Six Canada geese, two snow geese, two blue-winged geese and two summer ducks.

From Dr. S. C. Law—

One pair red jungle fowl, one pair masked love birds and two pairs zebra finches.

From the Wellington Zoo—

Two red deer.

From the Sydney Zoo—

Two Rufous kangaroos, two Bennett's wallabies, two Llamas, two emus, six Pennant's parrakeets, two red-winged parrots, three king parrots, and three blue mountain lories.

From the Dublin Zoo—Five swans.

From the Melbourne Zoo—Three great kangaroos.

From the Adelaide Zoo—

Two bronze-winged pigeons, two Cereopsis geese, two wedge-tailed eagles, three red-rumped parrakeets, two black-tailed parrakeets, two rose-hill parrakeets, two Barnard's parrakeets.

From the Lahore Zoo—Two Indian gazelles.

The following is a list of animals and birds that were born in the Garden:—

1 Barbary sheep.
3 hanumans.
1 fallow deer.
4 spotted-billed ducks.
7 Fischer love birds.
6 black-headed ibises.
5 peacock pheasants.
3 Sonnerat's jungle fowl.
2 gayals.
1 red deer.
1 hippopotamus.
1 black-striped wallaby.
1 barking-deer.
2 sambar deer.
1 brow-antlered deer.
5 spotted deer.
2 wild pigs.
3 hog deer.
2 Indian antelopes.
4 four-horned antelopes.
2 Javan mouse deer.
1 weeper capuchin.
1 llama.
1 nilgai.
1 Barasingha deer.
2 yellow budgregars.
2 Java sparrows.
9 Russell's vipers.
1 gecko.
2 scorpions.

The following were captured in the Gardens:—

7 hanumans.
2 rat snakes.
1 cobra.
1 Rhesus monkey.
1 water snake.

Eggs were laid but not hatched by the following birds:—

White rheas, emus, black swan, chakar partridge, Swinhoe pheasant, Argus pheasant, lesser kestrel, blue budgregar and ring pheasant.

The following is list of more important deaths:—

1 Indian rhinoceros.	2 two-wattled cassowaries.
1 Wapiti deer.	1 greater bird of paradise.
2 waterbucks.	1 Reeve's pheasant.
1 pink-headed duck.	1 wrinkle-billed hornbill.
1 banteng.	1 goral.
1 anoa.	1 Chinese water deer.
2 dusky langurs.	1 Brazza monkey.
2 viscachas.	1 secretary bird.
1 Brazilian tapir.	1 Bahama pintail duck.

The following specimen was destroyed as unfit for exhibition:—One spotted deer.

The following were sent to—

Clifton Zoo—20 Rhesus monkeys.

Edinburgh Zoo—4 Demoiselle cranes, 2 Brahminy ducks, 2 comb ducks, 2 spotted-billed ducks, 2 lesser whistling teals, 1 white-tailed sea-eagle, 2 peacock pheasants, 1 cat bear, 2 Bengal foxes, 4 red-billed choughs and 22 non-poisonous snakes.

G. B. Chapman, Esq., F.Z.S.—3 gayals and 3 tiger cubs.

Melbourne Zoo—12 hanumans.

Dublin Zoo—1 Himalayan bear.

Auckland Zoo—2 Demoiselle cranes, 2 common cranes, 2 spotted deer, 3 Indian antelopes and 1 leopard.

Toronto Zoo—4 Brahminy ducks, 4 barheaded geese, 4 peacock pheasants, 1 male hornbill, 2 porcupines and 2 Demoiselle cranes.

Sydney Zoo—4 Barheaded geese, 4 Brahminy ducks, 2 peacock pheasants and 1 leopard cub.

Adelaide Zoo—2 Saras cranes, 2 Brahminy ducks, 2 cattle egrets, 2 Brahminy kites, 4 shamas, 4 grey-headed mynas, 2 Indian magpie robins, 2 Indian rollers and 2 red-cheeked bulbuls.

Lahore Zoo—4 Mandarin ducks, 2 Indian water rails and 2 corn crakes.

Mr. Alfred Ezra—30 cotton teals.

Sir David Ezra—8 cattle egrets.

London Zoo—Several shipments of valuable animals and birds consisting of snow-leopard, Tibetan lynxes, cat bears, monal and tragopan pheasants, bears, deer, various kinds of ducks and geese, hawk-eagles, etc., were sent to the London Zoo during the year.

Rangoon Zoo—One pair sloth bears, one pair Barasingha deer, one pair peacock pheasants, 2 pairs Saras cranes, 3 pairs hanumans, 18 pairs assorted ducks, 4 pairs each of monal and tragopan pheasants and 1 pair cat bears.

Dr. S. C. Law—1 pair Sonnerat's jungle fowl, 1 pair Mandarin ducks and 2 Fischer love birds.

A Veterinary Dispensary was maintained throughout the year and 320 cases consisting of 194 mammals, 120 birds and 6 reptiles were treated during the year under report.

The following ailments are particularly noticed among the collection from time to time during the year besides cases of a general nature and the following statement will be of interest to those who are connected with the treatment of animals in captivity:—

In April and May—Ophthalmia was prevalent amongst imported parrots and avian septicæmia (sporadic cases) amongst pheasants, ducks and swans.

In June—Nothing remarkable.
